

RED CROSS DRIVE NETS \$600 IN FARMINGTON AREA

Setting a new record for generosity, residents in the Farmington area have given a total of \$600 to the Red Cross to be used in aiding the flood sufferers in the Ohio River region, according to Mrs. John J. Schutte, head of the Farmington chapter of the American Red Cross.

Two large donations, \$24 from the Farmington High School students, brought the total well over the \$500 mark of two weeks ago. Other smaller individual donations swelled the total to exactly \$600. The present total is five times the quota assigned to the Farmington chapter for flood relief purposes.

"I wish to extend the thanks of the Red Cross to the Farmington State Bank, to The Farmington Enterprise, and to Miss Mildred Frindle for their help in the raising of funds.

"I wish to use this means of thanking the hundreds of residents of Farmington township and the city, both young and old residents alike, for their gratifying and generous response to the appeal for aid for the flood sufferers."

Mrs. Eric Anderson was the speaker at the well-attended meeting of the West Point Park Vesper club at the home of Joan and Dorothy Orr Sunday evening. She spoke on the subject of "Gypsies."

Two Farmington-Born Citizens Honored

That Farmington citizens play a prominent part in the activities of the two major political parties is shown by the recent elections at the two state conventions.

At the Republican State Convention held at Cass High School in Detroit, Howard M. Warner, nominee for State Treasurer last autumn, was chosen to represent the 17th Congressional district on the State Central Committee.

At the Democratic State Convention in Grand Rapids a few days later, Mrs. Lawrence Craft was elected for a second term on the State Central Committee, also representing this congressional district. Mrs. Craft was born and grew up in Farmington and is well known to residents of this section. She is the daughter of George Bestwick of Nine Mile Road, and the wife of Lawrence Craft who ran for the Democratic nomination for Congress in the 17th district in the last election. He was defeated for the nomination by Draper Allen, now State Sales Tax Director.

BRIDGE EXPERTS TO GIVE LESSON IN BIRMINGHAM

The Farmington Bridge Faculty, which last year conducted a School of Instruction for members of Birmingham Exchange club, will resume its pedagogical activities next Wednesday evening, when they will give the Birmingham men their first lesson since the 1936 service.

While no direct, official appeal is reported to have come from Birmingham, it is understood that actual friends of business and professional men of the two communities recently conveyed the word to Farmington on behalf of the Birmingham bridge novices. It appears that while the men of the town on Wilder Woodward were given a thorough and comprehensive course of instruction last year, they again feel the need of further teaching to refresh their memories and improve their game so that their shins may receive benefit from the soreness occasioned by well-placed kicks—from not well-pleased wives.

It is also understood that the Birmingham boys feel that there may have been some new developments in recent months in bridge technique, with which the Farmington experts would undoubtedly be well-acquainted and in view of the generosity displayed in the past, they knew they could count on the Farmington business and professional men, as a matter of friendship, to devote some time to imparting their knowledge to the Birmingham men.

The lesson will be given at Birmingham, and Farmington men interested are welcomed to participate whether members of the Exchange Club or not.

AT YOUR SERVICE

Fifty years ago the telephone in Michigan was a laboratory curiosity. Today it's the instrument of a tremendously valuable, widespread public service.

This development represents the practical working out of the vision of the telephone pioneers. Their avowed goal was the best possible service at the lowest cost consistent with financial safety. For that a century that policy has guided the telephone's destiny. It motivated every improvement and expansion; it was behind all the many reductions in rates.

And that far-sighted policy applies just as fully today as it did two generations ago.
