Many people defer the transfer of title until the deadline for purchase of succeeding year's plates or sitckers has passed, thinking thereby to avoid the charge for the plate transfer. This fee is not only collected before new plates or sitckers are issued, but the applicant faces a delay in the transaction thereby, Case points out.

and the second

EARLY BUY

ADVERTISEMENTS Are Your Guides To Value

Experts can roughly estimate the value of a product by looking at it. More accurately, by handling and examining it, its appearance, its texture, the "feel" and the balance of it, all mean something to their trained eyes and fingers.

But no one person can be an expert on steel, brass, wood, leather, foodstuffs, fabrics, and all of the material that makes up a list of personal purchases. And even experts are fooled, sometimes, by concealed flaws and imperfections.

There is a surer index of value than the senses of sight and touch . . . knowledge of the maker's name and for what it stands. Here is the maxter's tain method, except that of actual use, for judging the value of any manufactured goods. Here is the only gurantee against careless workmanship, or use of shoddy materials.

This is one important reason why it pays to read_advertisements and to buy advertised goods. The advertised product is worthy of your confidence

Merchandise must be good or it couldn't be consistently Advertised.
