You Can Cook FASTER With GAS—

The modern gas range with hi-speed, non-clog burners and insulated oven bring new cleanliness to your kitchen.

Gas is the FASTEST cooking fuel. New non-clog burners bring you a thousand even heats—all put into ACTION by the turn of a valve.

Fully insulated oven and broiler not only keep the kitchen COOL, but bring you savings in gas used, and food shrinkage.

Gas cooks foods faster, better and cheaper. It gives instant heat, higher speed from low simmer to hot fast fire and a thousand even heats in between that only GAS can provide, giving a finer flavor to all cooking.

The new high-speed broiler and improved top burners of modern gas ranges play an important part, too, in producing more delicious meals in less time at less cost.

FREE TRIAL IN YOUR HOME

Here is our Free trial offer made to let you try one of these beautiful modern ranges right in your own home.

Without any obligation whatsoever, we'll install a New A.B. or Detroit Jewel model in your home. Try it yourself, prepare your dearest meals, see how it broils, bakes, fries, etc. Then if you are thoroughly satisfied and decide that you want to keep the stove you can pay for it for as little as 10c a day.

MAY DEDUCT GAS TAX FROM FEDERAL INCOME TAX RETURN

When making out Federal income tax returns, Michigan motorists can deduct money paid out in state gasoline taxes, Richard Harist, general manager of the Automobile Club of Michigan, declares. Discussing income tax deductions allowed motorists by reason of car operation, he continued.

"Every penny paid to the State in the form of registration and other special fees may be deducted by Michigan motorists. Also they may deduct amounts paid out in gasoline taxes when traveling through most of the other states as the Bureau of Internal Revenue now allows such deductions for all but thirteen states, Alabama, California, Colorado, Florida, Georgia, Mississippi, Nebraska, Pennsylvania, South Carolina, Tennessee, Utah, Wyoming and Ohio, where three per cent of the four per cent tax is deductible. The deductible gas tax in Michigan is three cents per gallon.

"However, it is important to remember that amounts paid out in Federal gasoline and other excise taxes are absolutely not deductible. Other deductible items include interest on money borrowed for purchase of a car and loss sustained from damage when not covered by insurance.

Mr. Harist pointed out that all operating and maintaining expenses including depreciation for automobiles used wholly in business, or a pro rata share of such expense where a passenger car is used chiefly for business, may be deducted.

You Can Depend on the Man Who ADVERTISES

Nine times out of ten you will find that the man who advertises is the man who most willingly returns your money if you are not satisfied.

He has too much at stake to risk losing your trade or your confidence. You can depend on him.

He is not in business for today or tomorrow only . . . but for next year and ten years from next year. He knows the value of good-will.

You get better merchandise at a fairer price than he could ever hope to sell if he did not have the larger volume of business that comes from legitimate advertising and goods that bear out the promise of the printed word.

Don't miss the advertisements. This very day they call your attention to values that tomorrow you will be sorry you overlooked.
