Advertising is nothing more than a conversation between yourself and your merchant. He pays for it but it saves you money.

## **ADVERTISEMENTS** Are Your Guides To Value

Experts can roughly estimate the value of a product by looking at it. More accurately, by handling and examining it. Its appearance, its texture, the "feet" and the balance of it, all mean\_something to their trained eyes

Eut no one person can be an expert on steel, brass, wood, teather, foodstuffs, fabrics, and all of the material that makes up a list of person purchases. And even experts are fooled, sometimes, by concealed flaws and imperfections.

There is a surer index of value than the series of sight and touch . . . knowledge of the maker's name and for what it stands. Here is the most certain method, except that of actual use, for judging the value of any manufactured goods. Here is the only guarantee against careless workmanship, or use of shoddy materials.

This is one important reason why it pays to read advertisements and to buy advertised goods. The advertised product is worthy of your confidence

Merchandise must be good or it couldn't be consistently Advertised. BUY ADVERTISED GOODS
