# A MIRACLE of Silent Freezing

## IT SAVES YOU MONEY YEAR AFTER YEAR

### SERVEL ELECTROLUX HAS NO MOVING PARTS

That's why it gives you...

- LONGER, SATISFACTORY SERVICE
- NO MOVING PARTS TO WEAR
- PERMANENT SILENCE
- CONTINUED LOW OPERATING COST
- FULLEST FOOD PROTECTION
- SAVINGS THAT PAY FOR IT

Plus...  
Extra Modern Convenience  
Streamlined Beauty  
Extra Roominess  
Greater Ice Cube Capacity

### Picture this beautiful GAS refrigerator in your kitchen!

YOUR own ears will tell you that Servel Electrolux differs basically from all other refrigerators—it's **permanently** silent! And this is more than a real advantage in itself. It means bigger savings... longer service for you. There is no noise, because there are no moving parts in its freezing system. And for the same reason, there is no wear, no loss of efficiency due to moving, wearing parts. A tiny gas flame does all the work in this remarkable refrigerator. It circulates the refrigerant that, unfailingly, produces food-preserving cold and cubes of ice. Come in today and see the beautiful new 1937 models for yourself. Get the whole story. The more you learn about the modern gas refrigerator, the more you'll understand why owners are so enthusiastic about it.

### FREE TRIAL

Without any expense to you — No "strings" — no rental costs or other expense of that sort we will install a beautiful new 1937 model Electrolux. Then should you decide to buy, a three year purchase plan makes this offer easy to enjoy —

Terms as little as .10 a day —

**COST OF OPERATING AN ELECTRIC RANGE**  
*family of 5* \$2.20 per month

This figure is a 4-month's average (October, November, December and January) of actual cooking costs in families of five persons, at the rate of 2 1/2 cents (not) per kWh. Actual cooking costs in families of five persons ranges to determine actual cooking costs. Special record meters were installed on these customers' ranges to determine actual cooking costs, and the figure above — about 1 1/2 cents — is the result. This is the AVERAGE of the cost figures obtained. Some of the actual costs were higher, some were lower. The cost of operating your range will vary with the amount of cooking done, and with the use of retained heat and the waterless cooking method.

**1/2-cent a meal\***  
per person:  
**Electric Cooking is not expensive!**

\*These latest figures on the cost of operating an electric range show an average of about ONE-HALF A CENT a meal a person. Actual meter tests were made in homes using electric ranges. The cost figure is obtained under everyday working conditions in ordinary kitchens... the ranges are used by women cooking meals daily for families of three, four and five people, or larger. In the survey, 5 well-known makes and 9 different models of electric ranges were included. These tests prove conclusively that electric cooking is not expensive. 10,000 of your neighbors chose electric cooking during the year 1936. SEE THE NEW ELECTRIC RANGES ON DISPLAY AT DEPARTMENT STORES, ELECTRICAL DEALERS, AND THE DETROIT EDISON COMPANY.
