A Buying Guide

Before you order a dinner in a restaurant, you consult the bill-of-fare. Before you take a long trip by motor-car, you pour over road maps. Before you start out on a shopping trip, you should consult the advertisements in The Enterprise. For the same reasons!

The advertising columns are a buying guide to you in the purchase of everything you need—including amusements! A guide that saves your time and conserves your energy; that saves useless steps and guards against false ones that put S-T-R-E-T-C-H in family budgets.

The advertisements in this paper are so interesting, it is difficult to see how anyone could overlook them... fail to profit by them. Just check with yourself and be sure that you are reading the advertisements regularly—the big ones and the little ones. It is time well spent... always.
