BERL READY FOR GOVERNOR TO SIGN A bill appropriating \$5,000,000 as a proportion of slow proportion of business.

A bill appropriating \$5,000,000 as a part to the state highway departs for Governor Murphy's signature.

The bill, which originated in the measure drew heavy non-partisan support on. Its Journey to make the Mouray and obtaining the Money and to the appropriation of state, however, must furnish the right-of the past is the program of the weak and and the proportion of business.

# Removal of Trees

Removal of Trees

The cooperation of business places in tourist and resort districts of Michigan to prevent the removal of small pline trees, plants and shrubbery from woodlands by reactionists its sought by Department of Agricultures. Stricter' enforcement of Quarantines existing under plant and insect pest laws will make practically impossible the removal of these trees and shrubs from the state, department is having printed a quantity of small attractive labels explaining the situation as it exists in Michigan and lassking business ment to display these in outside the plant of attempting to transport trees.

"To remove one of these trees

### Grow Beets for Leaves and Roots

Economy is the stock and trade of the garden beet. It is grown for 100 ther cent consumption, for the leaft the root and the skin are all easten, and are exceptionally healthy, too. Along with the radiation, and the garden are the garden as the ground its workable.

Thin sowing is not so important with the beet, in fact it is almost that the beet in fact it is almost included by the beet in fact it is almost included by the beet in fact it is almost included by the beet in a single huse and will result in bunches in spite of anything the planter might do to prevent it. Thinning can be done after the condition of the beet in the beet in the planter might do to prevent in the planter might do to go the beet are would to cook leaves and all, the plants apart in horozon when the plant is should be left two or three incluses apart in horozon when the plant is should be factored to 6 inches. It is a go in the plant in the best of the beet in the best in the plant is and there is a go in the plant in the plant in the plant is a factored to 6 inches. It is a go in the plant in the p

times earthly tasting and same what woody. Select only the brite seed possible, produced by a ray coparized seedsman, to obviate the danger of poor quality plants.
