Twice the beauty from rouge

How you will love the soft, glowing beauty of PRINCESS PAY rouge. Never have you known rouge like it. For only Princess Pat blends of its own accord, changing subtly on your cheek. It harmonizes magically. It seems to give color coming from within, as in a natural blush. Truly it does give twice the beauty of ordinary rouge. Try it.

"Under a new State Law, incedentally, board members may mee no more than 120 days a year. This will limit their compensation to \$1.200 in any one year."

He continued. "Reductions in the expense accounts were made where membery filed a bill for their perduced in 1936. The Cron Reduced in 1936 and forecast a national papers." he said. "Travel tens were rectared where them is the said that the cert ry crop would show a gain over 1936 with a four actually was used or free transportation obtained."

County Sales Records

County Sales Records Are Being Compiled

The coupling of sales records on certain counties of the State was started today by Auditor General George T. Gundry.

The compiliation is done on a staggered schedule ao as to conform to the term of court in each county that precedes the date of sale. Mr. Gundry combined that the records for all counties must be completed and in the hands of the county officials six to eight weeks prior to the opening of the Circuit Court. Mr. Gundry commended county treasurers of the State in making their returns of payments so promptly.

Mr. Gundry continued, "Posting of payments so promptly, Mr. Gundry continued, "Posting of payments are progressing rapidity for all counties. The work in some counties is farther behind than others but the general thought is to complete the work as schedule according, to the came during the next month. Several additional counties will be started and by the middle of September our task of compiling the Tax Sale Record will be in full swing."

Grease Paints
Grease paints may fairly claim
to be the oldest kind of paint. It to be the oldest kind of paint. It is only reasonable's suppose—and this is borne out by the practice of savage tribes—that the earliest paints may have been pigments mixed with greass or fat. Such a paint adheres to the human sith with considerable persistence, yet it may be removed by thorough washing. Of this nature are the grease paints used by actors.
