AIR FACILITIES FOR FAIR

As many visitors to the New York World's Fair of 1939 will journey to it by land plane or sea plane, New York City plans the expenditure of more than \$8,000,000 for the purchase and improvement of North Beach Airport, which is but a short distance from the Fair site. Flushing Bay is the water gate of the Fair at its northern extremity, and there the sea planes will be able to land upon quiet water and taxi to simply provided ramps or landing stages.

LOSEY CORNERS

Mrs. Betty Ramsey, who has been ill for the past week, is able to resume her duties as teacher again.

Wednesday evening, in the absence of Mr. and Mrs. William Foster of 6 Mile Road, a prowler forced his way into their home by way of a back bedroom window. Upon returning they found a number of things missing, among the articles were some old pieces of jewelry valued as antiques, besides Mr. Foster's watch, chain and revolver. Later in Detroit, a youth who had recently been released from Ionia reformatory and had been employed by a farmer on 6 Mile Road was implicated in a robbery and upon being apprehended by the Detroit police, confessed to the Losey Corner affair. Some of the stolen property was recovered, having been pawned. The offender was sixteen years of age.

The taxpayers Association was well attended Wednesday evening, about 70 enjoyed the evening's entertainment. Eight new members were taken in.

Ground for the Livonia Fire Hall was prepared Thursday and Friday the cement foundation was started. This is to be a building 36x18 and will be used as a hall until fire equipment is purchased. Later there will be another building which will be the town hall proper.

Because he is a second offender, Joseph Edwards, 37, of New York City, was sentenced to serve 30 years in Sing Sing Prison for a robbery which netted him only 30 cents.

Lost Driver's Licenses May Be in Post Office

Applicants for operators' licenses who have moved since making application, are advised by the Department of State to inquire at their local post offices if their licenses do not reach them within 20 days of application.

These licenses are sent at third class mail, which is forwarded only if addresses send proper postage, on notice by postal officials. Mail is thus sometimes held for as long as two weeks before being forwarded. In absence of any forwarding address, the licenses are ultimately returned to Lansing. Chauffeurs licenses are sent first class, however.

In any event, applicants should notify their local police or sheriff's offices of their change in address, in conformity with the motor vehicle laws. Police will then notify the Department of State.

1937 MICHIGAN PRODUCE SALE PASSES \$800,000

Total expenditures for 1937 Michigan farm produce by the Federal Surplus Commodities Corporation have passed \$800,000 mark, according to the announcement made today by John B. Strange, commissioner of Department of Agriculture. It was disclosed that since January 1st, the governmental agency has purchased 423 loads of produce, distributing the merchandise through the welfare channels throughout the nation.

Total apple purchases in Michigan have been boosted to \$10 cars, with 260 having been purchased since January 1st. Other purchases by the FSCC during the past six weeks were 100 cars of canned peas, 50 cars of potatoes and 13 cars of beans.

Four H Club Members Urged to Start Funds

4-H boys and girls should start their farm account books at once to put them in line for an award in the fifth National 4-H Farm Account Contest which offers \$60 prizes (totaling \$5,000.00 in cash and merchandise). The contest is conducted by state and federal extension agents.

March 1 is the last date on which the books may be opened. They are required to cover 12 consecutive months and may be started as of January 1 and February 1. Club members interested in enrolling may secure blank books and rules and the prize list through their Local Leader or County Agent. Prizes will be awarded on the basis of individual accomplishment alone, and all material in the records will be held confidential and returned to the owners after the judging. Contestants must also submit an analysis of their record of 1,000 words or less, showing the principal sources of profit and loss and suggesting how to make the farm pay better.

5,000 Automobile Titles Are Lost in State

Nearly 5,000 automobile titles lost by their owners in the last 12 months, are being held by the Department of State, until their owners realize their loss and ask for them—as they will shortly when they buy their 1938 license plates.

If correct addresses were known, these titles would, of course be sent to their owners, but the title of "lost titles" contains only those which postal authorities haven't been able to deliver because of faulty addresses given by applicants for the titles.

Leon D. Case, Secretary of State, points out that thousands of people are annually frustrated for a time at least by frantic searches for their titles which they must present when they apply for license plates.

RECENT BRIDES URGED TO CHANGE SECURITY CARDS

Brides of 1937-38 who obtained social security account cards before they were married were requested this week by Mr. Redman, manager of the Pontiac Field Office serving Oakland and Macomb Counties for the Social Security Board, to send in their new names to the Pontiac office of the Social Security Board located in the People's State Building, or at any one of the Board's 322 other field offices located in strategic centers.

A card for this purpose, designated as "Employee's Request for Change in Records" is now available at the Pontiac office of the Social Security Board located in the People's State Building, or at any one of the Board's 322 other field offices located in strategic centers.

Social Security account card holders may use this new application form also to correct mis-statements as to age, address, or any other inaccurate declarations that may have been made.

Mrs. Redman stated that while the Board would accept without question a new age declaration, the acceptance should not be regarded as final, since an employee may be called upon to furnish proof of age on filing a benefit claim.

By making available the new card the Board believes that thousands will now take advantage of this simplified procedure.

Special Apple Week is Aim of Fruit Growers

During the past week, apple growers of the nation have been enjoying their most recent enterprise in cooperating with the National Association of Food Chains to sponsor a special apple week. Bulletins announcing this drive to sell more apples went out to individual chain store members accompanied by suitable literature aimed at creating consumer demand. Similar bulletins also went out to the members of the National Association of Retail Grocers as well as other independent stores.

In answer to the question "What can we do to build up grocer-owners cooperation?" the Michigan apple institute suggested the following three points by which growers can help a great deal: (1) by packing a thoroughly honest pack which the grocers can sell to steady customers with confidence; (2) by personal visits to good grocers, finding out what their wishes and their problems are; really getting

to know these men who are your closest business associates and (3) by continuing consistent contact work with them through the promotional organization.

FAIR TRAILER CAMPS
Trailer enthusiasts will be glad to learn that the New York World's Fair of 1939 is considering operating a camp site close to its grounds with a capacity of 2,000 of these highway-roving homes. The City of New York is negotiating for the lease with leave to purchase, of the Curtiss airport in the Bronx, as a trailer camp. As for automobile parking space within the Fair grounds, areas have already been set aside to accommodate 35,000 cars.

Bert Thompson of Seattle told emergency hospital attendants he couldn't sleep and couldn't eat. An X-ray revealed the trouble—he had swallowed his teeth, the whole lower denture.
