Sufficient Resources

(Exchange)
Michigan has the unique distinction of being the only one of the United States which has resources in sufficient quantities and diversification so that its citizens could exist as an isolated unit and still have all the reasonable comforts that the state can produce every human need with the exception of cotton and rubber.

The principal activity of the state is manufacturing. In 1933 the value of the goods and services actually produced was recorded as more than \$4,000,000,000 at the factory. The leading single industry is automobile manufacturing, but there are numerous other important commodities which are produced in large quantities.

The tourist and resort business ranks as the state's second largest industry. Careful survey and statistical studies show that this business amounts to about \$100,000,000 yearly.

The state ranks high in agricultural production and although it is 27th among the states in the amount of land devoted to this purpose with less than one-quarter of its area utilized in crop raising, it ranks 15th in total crop value and cash farm income. Michigan's 1933 farm income was slightly over \$250,000,000. Michigan residents are living in a wonderful state. Within its boundaries are found the three major industries of the entire world—Manufacturing, Resorting and Farming. Its resources are unlimited, but it depends on its citizens for the success of its future.

Poor Father

(Christian Science Monitor)
Some ten thousand London school children, by the simple process of taking an intelligence test, have dealt another blow to father. Fathers are an unfortunate set. No one praises them. Mothers, crowned with laurels, get buttered up all over. Two celebrated English dramatists, have recently published autobiographies full of praises on the maternal side, but somewhat critical of other branches of the family. And now even the children have joined in; all the more effectively, perhaps, for not knowing exactly what they were doing.

It seems that London's cleverest children are the sons and daughters of university teachers. The children of professional people come next, followed by those who have been brought up in the atmosphere of big business. Right at the bottom are the children surrounded from birth by an atmosphere of want and poverty. This educational inquiry, carried out by Prof. J. L. Gray and Miss Moshinsky, leads to the conclusion that the scholastic ability of children in the mass, though not necessarily individually, varies according to the professional and social status of their parents as reflected in the opportunities that this status provides.

To this rule, however, there is one important exception. The children of ordinary workingmen are much higher than might have been expected. It is suggested that this is because they see so little of their fathers, who are naturally away from home a great deal. But fathers, much maligned though they be, are noble fellows. They can rise above their natural chagrin at the result of these investigations so far as it affects them personally, and patriotically rejoice that the final conclusion of all is that Great Britain, like other countries, is fully equipped with an inexhaustible store of gifted children.

Watching Fishes Beneficial

Watching the periodic movements of fishes and the rippling undulations of submarine plant life is beneficial to the overworked nerves of patients, say the doctors. Dietitians agree that fish is as soothing to the nerves when alive as they are supposed to be good for the brain when boiled.—Pearson's Weekly.

Purpose of Banding Birds

Banding is done to make possible the scientific study of the habits and travels of migratory birds. Inventors trap the birds, attach numbered bands and release them. Information concerning each banded bird is filed in Washington, and when the birds are captured again reports are filed and the data traced.

AUTO VICTIMS YOUNG

More persons between the ages of 20 to 24 years died from automobile accidents in 1932 than in any other age group, the U. S. Census Bureau reports.

August

(Christian Science Monitor)
Though August is recorded as being the only one of the year there are times when it creates the impression of several months crowded into one. The mildness of its middays savor strongly of July, while its evenings, calm and crisp that the state can produce every human need with the exception of cotton and rubber.

HELP CHILDREN TO GET HEALTHY START IN LIFE

To bring a baby to healthy and happy adulthood is no simple job yet parents should be no more proud of a sickly and puny child than they should be of a poor peach or a poorly developed flower.

Suggestions for aiding children to get a better start toward a healthy life are offered by Theodore Peck, instructor in foods and nutrition at Michigan State College.

Food importance is the food the child gets, says Miss Peck. Other factors include sufficient sleep, out of doors play, protection from disease, not too many artificial stimulants, that keep clean and not have too many or unreasonable work demands.

Food Variety
Variety is essential in foods. One of the pointers is that Miss Peck is that no one food is sufficient to provide all the essential needs of the body of a growing boy or girl.

Milk is the basis of a good start. It is the only day other than fresh milk or its equivalent in canned or dried milk. This liquid supplies the necessary lime for building straight bones and attractive teeth. Even with babies, however, this milk is supplemented often within the first month with orange or tomato juice and cod liver oil.

Two vegetables and two fruits daily is another rule for children. Green leafy vegetables, some of them eaten raw, are recommended for healthy bodies. Whole grain cereal is another suggestion for increasing the supply of minerals and vitamins. An egg a day is desirable and not less than two a week is considered essential. Meat, butter and potatoes are other foods that get a good rating in the list of suggested foods that build for health.

Fantasia, Musical Composition
A fantasia is a musical composition which is not restricted to any formal design or theme, but is freely constructed according to the composer's fancy. Examples of fantasia are found in the works of Bach, Brahms, Schumann and other composers. The term is also applied to medleys of popular airs.

(Political Announcement)
Seeks Re-Election

Franklin E. Morris announced this week his candidacy for re-nomination and re-election as Prosecuting Attorney of Oakland County. In making this announcement Mr. Morris issued the following statements:

"In seeking this re-nomination and re-election to the important post of Prosecuting Attorney I do so, realizing full well the responsibilities and duties and the obligations which this office owes to the public. Since having been elected Prosecutor I have endeavored at all times to fulfill these obligations and have never refused reasonable information and service to the citizens of this County.

"Although I have not been harsh or unfair in the prosecution of cases, I have prosecuted all classes of citizens equally, and our records disclose that this office has handled more cases and secured more convictions than any prosecutor's office in the past several years.

"When I entered upon the duties of this office I assumed them without obligation or promise to any particular group, clique or element of Oakland County but was free to perform the duties of the office according to the dictates of my conscience, and although I have perhaps made mistakes, I can assure the citizens that no undue influence or political pressure has governed my actions.

"I am a married man, the father of two children, and a taxpayer of this County. I am a graduate of Pierce College at Philadelphia and the Detroit College of Law. I feel that my fifteen years in the practice of law, coupled with my two years as Assistant Prosecuting Attorney and my experience as Prosecuting Attorney enables me to handle the affairs of this office in an understanding, honest and capable manner."

CLARENCEVILLE

Mr. and Mrs. Elmer Dohoney, of Eight Mile Road, were Sunday guests of Mr. and Mrs. P. Fitzpatrick of Detroit.

Mrs. Beulah Barnes and Mrs. Hazel Lynch spent the week end at Pontiac with Mrs. William Wangeline, who has been seriously ill the past several months.

Mr. and Mrs. Lester Lintz, of Nine Mile Road, returned Sunday from their vacation spent at Houghton Lake.

Mrs. Gwendoline Sneider, of Grosse Pointe, spent the week end with her sister and family, Mr. and Mrs. Julius Cohen.

Mr. and Mrs. P. J. M. Haley and family and Mr. and Mrs. E. Thomas and family attended a dinner party Saturday at the home of Mr. and Mrs. Elmer Dohoney in celebration of Mrs. Dohoney's birthday. A congratulatory telegram was received from Mr. and Mrs. Jerry Fisher (Betty Dohoney) from Calfax, Maine.

Mr. and Mrs. George Nacker, Miss Ina Nacker and Mrs. Emory Goetz attended the Northville Fair Friday.

Miss Jean Morrow was a Sunday guest of Mr. and Mrs. Isaac Bond. Mr. and Mrs. Karl Ritter, of Eight Mile Road, spent Sunday with Mr. and Mrs. George Dean at their summer home at Lotus Lake, near Clarkston.

Mrs. Orville Taggart spent the past week in Detroit with her father, James Field, who has been ill the past 14 months with heart trouble. Mrs. Field spent the week with relatives in Leamington.

Mr. and Mrs. Carmack, of Boonville, Kentucky, are spending their vacation with the latter's parents, Mr. and Mrs. Schingek. Mr. and Mrs. Harry Seebald entertained as week end guests at their summer home at Cass Lake, Mr. and Mrs. John Wagner, and son George, Mr. and Mrs. Wayne Wagner, Bob Kurtz and Mr. and Mrs. Robert Jones of Detroit.

The Cass Lake Association held their annual card party at the Harry Seebald cottage Thursday evening with 75 persons in attendance. Mr. Seebald is past president of the association.

Mrs. Leo Ferno and Miss Janette Cohen of San Antonio, Texas, spent Monday and Tuesday with the latter's brother and family, Mr. and Mrs. Julius Cohen. Mr. and Mrs. Norman Grimwade of Chelsea and Mr. and Mrs. Albert Grimwade were Sunday dinner guests of Mr. and Mrs. Samuel Billings.

Mrs. P. B. Farmer returned Friday from a three weeks' vacation in New York. Mrs. E. M. Holloway, mother of Roy Holloway, was unable to return with her daughter due to a slight attack of bronchial pneumonia.

Mr. and Mrs. Donald Hampton, of Highland Park, were Saturday guests of Mr. and Mrs. Roy Holloway, of Shawassaw avenue.

Twenty-five members of Trinity Shrine, No. 44, gathered at the home of Mr. and Mrs. Joseph Himmelsbach Saturday night. Mr. and Mrs. Charles Diamond, Mr. and Mrs. James Drear and Mr. and Mrs. Roy Holloway from Clarenceville attended.

Mr. and Mrs. Jerry Ritter returned home Sunday from a week's vacation spent with relatives at Toronto.

Mrs. Parke Malone and children are vacationing with Mrs. Malone's father, Rev. William Blake, at Byron, Michigan.

Mr. and Mrs. Ralph Sleverson announced the birth of a seven pound daughter Sunday morning at University Hospital, Ann Arbor. Mr. and Mrs. Alan Hedley and Mrs. Charles Diamond recently.

Mrs. Hazel Lynch and Mrs. Laura Holloway called on Mr. and Mrs. Harry Seebald at Cass Lake Monday.

Mr. Holloway was one of the thousands who witnessed the arrival of "Wrong Way" Corrigan at the City Airport.

Mrs. Ada Westlake and family are enjoying a two weeks' vacation at Cass Lake.

Mr. and Mrs. William Miller spent the week end with friends at Fort Huron.

Mr. and Mrs. Homer Elsenford and family, Mr. and Mrs. Alan Hedley and family and Mr. and Mrs. Harvey Webb and family of Detroit, were Sunday guests of Mr. and Mrs. Charles Elkins.

Miss Patricia Hedley is spending her vacation with her grandparents at Stayner, Canada. Mr. Minnie Steadford has accepted a position at Grosse Pointe. Miss Lucille Bryden is enjoying a vacation at Baltimore Bay with her aunt and uncle, Mr. and Mrs. James Bryden.

Margaret Elkins was the dinner guest Tuesday evening of Lois Goers. Mr. and Mrs. Charles Elkins and family and the latter's mother, Mrs. Margaret McKinnon left Thursday for Stayner, Canada, where they will visit Mr. and Mrs. Wright Bell.

... these new cost figures may change your mind!

How much do you think it costs to cook on an electric range? The latest figures just released may surprise you. A survey has been made of actual cooking costs in families of 3, 4 and 5 people, covering a period of one year's time. Results of the survey are as follows: Average cost for a family of three — \$1.55 a month; family of four — \$1.73 a month; family of five — \$1.93 a month. These are AVERAGE figures, at the rate of 2 1/4 cents (net) per kwhr.

To obtain these cost figures, 5 well-known makes and 9 different models of electric ranges were included. The ranges were used by women cooking meals daily, in ordinary kitchens and under everyday working conditions. The tests prove conclusively that electric cooking on today's modern ranges is NOT expensive!

Why not enjoy the cleanliness, convenience and comfort of an electric range in your kitchen this summer? Sixty thousand families in and around Detroit have chosen this up-to-date cooking method. Ten thousand of your neighbors switched to electric cooking last year. Once you have discovered the many advantages of an electric range, you will wish you had installed one in your kitchen long ago.

See the new electric ranges on display at department stores, electrical dealers or at Detroit Edison offices.
