## PO-BOX-Drugs Pills Can't Help Colds, Insomnia

Questions should be sent to the Community Commission on Drug Abuse, P.O. Box 48151, Livonia, Mich. 48151.

Q. It seems that I've heard some questions raised about sleeping pills - the ones you can buy without a prescription. Is there any harm in them? Can they be harmful if taken in large doses or for a long period of time? I've used them on occasion and wondered if there might be any danger, even though they're supposed to produce a natural sleep.

B.N., Livonia

A. Well, you are right in believing that there have been some questions raised about these products and about the methods used to promote them.

The two ingredients common to most of these products are one of several antihistamines (drugs used primarily to treat allergies) and a drug called scopolamine. In addition there may be added such things as vitamins and aspirin.

The basis for the claims made for these various compounds is a few, not very thorough, investigations carried out before anywhere near as much was known about sleep as is known today. According to more recent research the following points seem to be indicated:

1) In general, about as much success was found with a placebo (blank) tablet as with these compounds.

2) While there is not much in the way of the desired effect produced, there is a definite danger of either harmful or unpleasant side effects for certain individuals.

3) Any sleep experienced by these compounds is NOT a natural sleep for several reasons. The REM (rapid eye movement) phase of sleep is not normal. This may produce unpleasant dreams on subsequent nights. The result can be a vicious circle in which the user may resort to such sleeping preparations because of restlessness caused by a previous night's dose. The brain wave pattern produced by one of the drugs resembles that of normal sleep, but actual sleep behavior is restless and agitated.

A fair assessment of these compounds would be that they are somewhat of a waste of money, do have a slight liability to produce undesirable effects in some people, and almost definitely do not produce a natural sleep, if any. They have no addictive properties, however.

## Multi-Town Voter Drive At Center

From Aug. 16-31, Wonderland Shopping Center will conduct a multi-community voter registration program.

This program will allow qualified persons from the communities of Livonia and Redford Township to register to vote at the center. Also included in this multi-community drive are Dearborn Heights, Detroit, Inkster, Romulus, and Taylor.

The registrars, who have been sworn in by election officials from all seven communities, will be on duty Monday through Saturday from noon to 9 p.m.

Rickard H. Austin, Michigan's secretary of state and thus the state's chief election official, will visit Wonderland on Aug. 28 at 1 p.m.

Other officials who will visit the center will be Zolton Ferency, former Democratic candidate for governor and now head of the new Human Rights Party; Mayor Edward McNamara and City Clerk Addison Bacon of Livonia; State Sen. Carl Pursell (R-Plymouth) and State Rep. Marvin Stempien (D-Livonia). Ferency's visit is due Aug. 21.

Wonderland center is located at Plymouth and Middle Belt Roads in Livonia. The voter registration headquarters is located at the west end of the mall.
