Is your driveway or walk in need of repairs? Fix it now and avoid a corduroy road in the spring! If your house needs painting, give it this protection before rain and winter weather work real damage. And check your roof! One loose tile or shingle and the rooms beneath will suffer!

Inside you can make certain of winter comfort by modernizing heating, wiring, and plumbing systems or basement work. You can redecorate to give new life to rooms. And don't overlook minor repairs such as warped doors that cause inconvenience, or stair treads that may cause accidents.

This Bank is an approved lending agency for the Federal Housing Administration and is prepared to accept applications for modernization loans which comply with Federal Housing Administration requirements.
