

# Economy Sale

LOW PRICES... NEW TERMS.

## YOU CAN SAY THIS TOO!

"My heart was set on this range the minute I saw it!  
And it's a marvelous cooker!"

# 2

## OF THE BEST RANGE VALUES WE EVER OFFERED!

Here are the latest models from two famous makers, A-B and Detroit Jewel. Each is outstanding for value, for looks and for improvements. Automatic lighting; new type speed and simmer burners, and the cleanest you ever saw. Big roomy oven. Smokeless broiler, pull out type. Fully insulated walls for coolness. Oven heat control simple as dialing your radio.

### VALUES UP—PRICES DOWN!

We asked hundreds of women what they like most in a range. We asked the makers to put such features in. Here they are — at prices never so low for so many values. And new terms that say "Wait no longer, here is your range."

### TRADE IN YOUR OLD STOVE

New A-B Table Top, "TOE-BASE" model shown above. Picture it in your kitchen. Priced at only

## CHURCHES

All notices for this column must be in the Enterprise office not later than Tuesday at noon.

Methodist Episcopal Church  
Rev. Delmer Stultz, Pastor  
Morning Worship at 10:30.  
Church School at 11:45.  
Men's Forum at 12 noon.  
Wednesday, 7:30 p. m. Teacher's Training Class.  
Thursday, 7:30 p. m. Adult Choir rehearsal.

CLARENCEVILLE M. E. CHURCH  
Rev. W. J. Prisk, Pastor

Church Services 10 a. m.  
Sunday School 11 a. m.  
Epworth League, 6:30 p. m.  
Evening Service, 7:30 p. m.  
Thursday Evening, 7:30 p. m.  
Our Lady of Sorrows Church  
Rev. John J. Larkin, Pastor  
Sunday masses at 7:30 a. m.,  
9:45 a. m., 10:30 a. m. and 12:00.  
Benediction after 12:30 masses.  
Daily masses at 7:30 a. m., and  
8:00 a. m.

Redford Gospel Tabernacle  
18000 Leasher Road

Sunday School, 10:00 a. m.  
Pentecostal prayer service, 11:00 a. m.  
Evangelistic service, 7:45 p. m.  
All are welcome regardless of circumstances.

100% Pentecost.

First Baptist Church  
Gilbert A. Miles, Pastor  
Morning prayer meeting 10:15.  
Morning worship 10:30.  
Little School 11:45.

B. Y. P. U. 6:30 p. m. for Juniors and Seniors.

Evening Evangelistic Service at 7:30.  
The mid-week Fellowship meetings are held Wednesday evenings at 7:30.

Community Church  
West Point Park  
Rev. O. J. Lyon, Pastor

10:00 Sunday School  
11:00 Preaching Service.

Eighth Church of Christ, Scientist  
Detroit, Michigan

## FINDS WHY HOMES HAVE DAMP WALLS

U. S. Government Says Vapor Barrier Will Stop Formation of Winter Dew.

The reason so many new homes embodying the latest types of construction have damp walls and top-floor ceilings during cold weather has been discovered by the United States Forest Products Laboratory at Madison, Wis.

The trouble, according to L. V. Teedale, the laboratory's senior engineer, is dew, that beneficial friend of growing things. Nature is unable to distinguish between wanted and unwanted moisture. Find-

Engineers have found:

- 1—Moisture which condenses in walls and top-floor ceilings comes from within the house, not from outside.

2—The simplest, surest way to prevent this condensation is by means of a properly located "vapor seal."

3—To be effective, this seal must be located on or near the warm side of the insulation itself or near the warm side of the wall.

ing conditions favorable, she has been using outer walls and top-floor ceilings to condense water vapor into troublesome moisture.

Because moisture in walls often rots woodwork, causes paint to peel and plaster to fall, and stimulates the growth of fungi, the government's findings are of major importance to home owners, architects and builders.

According to the government, the remedy for wet walls is a vapor seal or barrier in the warm parts of outer walls and ceilings. This prevents the water vapor in a house from entering the cold parts of walls and ceilings where it may be condensed into water.

Oddly, damp walls are aggravated by new modern types of construction, Mr. Teedale points out. He says that storm sash, insulation, weather strips and caulking around windows and doors make the normal humidity or vapor pressure within a house higher than in cold weather, which tends to keep the vapor from escaping through insulation.

He adds that "improvements aimed at comfort and health are worth while and should not be discouraged, but it so happens that they introduce the unanticipated moisture problem."

"Yes, in the way of thy judgments O Lord, have we waited for these; the desire of our soul is to thy name; and to the remembrance of thee."

Among the Bible citations is this passage (Psalm 63:1): "O God, if I may God, ear, will I seek thee; my soul thirsteth for thee in a dry and thirsty land, where no water is."

Correlative passages to be read from the Christian Science text book, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 223): "Sooner or later we shall learn that the fears of mankind are cast out of body by the illusion that he lives in body instead of in soul, in matter instead of in Spirit."

Salem Evangelical Church  
Rev. Carl H. Schultz, Pastor

Worship Service—10:00 A. M.  
Sunday School—11:00 A. M.  
Please note the change in time, services beginning one-half hour earlier than before.

## LOSEY CORNERS

Mrs. William Breitenbach, of Saline, and Mrs. Otto Stocker, of Detroit, called Monday afternoon on Mrs. R. Fredericks, 18350 Maple

Sunday evening was Hillcrest night. A number of families attended service at Hope Chapel.

Mrs. R. Fredericks, Dixon, Fielding and Mrs. Mansfield attended the district rally, W.M.A., at Hillcrest Tuesday. Mrs. T. T. Tolson's

student, African, now home to-day, was speaker before lunch, followed by regular business meeting and special program.

The taxpayers association of Livonia held their second election Wednesday evening, having been organized one year. The following officers were elected: President, Fenske; Vice-President, Walter Dixon; Vice-President, Fred Bannasy, secretary; Mr. Baker, treasurer, and Mr. Thomas, Mr. Davis, and Mr. Fredericks, board of directors. Charlie Thomas was appointed as social chairman again.

Mrs. Grace Sturt, who has been ill for some time, is able to get around again.

The daughter of Mr. and Mrs. Hall, of 29970 Six Mile Road, is in the hospital, suffering from scarlet fever.

The brotherhood gave a church supper Friday evening. A good crowd turned out.

Rev. and Mrs. Lomas will be guests of Dr. Hatton, state superintendent, at the national conference.

The physical phenomena which cause damp walls and ceilings in cold weather are explained by the government scientist.

All air contains water vapor. Warm air holds more vapor than cold air. When moist warm air is sufficiently chilled, it will throw off some of its vapor in the form of water. This is dew. As water vapor will penetrate ordinary plaster and untreated insulating materials, it will, therefore, pass into

since held from Monday through Thursday in Indianapolis.

Bob Grossnickle will be in charge of the Wednesday evening service in the absence of the pastor.

Next Monday evening there will be a formal dedication of the new Wilcox school, which will be under the direction of the P.T.A. and it will be open house. All who are interested are invited to attend.

Several advance activities were announced Sunday:

Friday the Boy Scouts will have another picture show and refreshments will be served.

Dec. 3, the Woman's Aid will hold a bazaar. Afternoon tea will be served and a penny supper from 6 'til all business is red.

Dec. 10, will be the Christmas party for the Aid. New Year's Eve the W.M.A. will feature a gay winter party.

Jan. 27 the Aid will serve their supper.

Jan. 27 the Aid will serve their supper.</
