

A WEEK AFTER IT IS PUT BACK, PHONE SAVES HOME

Driving up to a roadside stand in Oak County, not long ago, a woman stopped to make a purchase. The woman at the stand, noticing the blue bell on the car, asked him to arrange to restore her telephone service, which she had been ordered to discontinue during the depression. Business was better, she said, and she wanted a phone again. The telephone employee gladly agreed to the details of getting the telephone installed for her. Recently, again driving through the section, the telephone man, V. E. Sturwell, Supervisor of Supplies in Cleveland, stopped at the same stand. The woman recognized him immediately and overwhelmed him with her thanks. It developed that the telephone had saved her home. Just a week after it was installed, fire broke out in the barn and the wind was in the direction to carry the flames to the house. Alone in the house, the woman telephoned for help, which arrived in time to save the home, although the barn was destroyed.

Water garden tomatoes, grown by the University of California for exhibit at the 1939 Golden Gate International Exposition, will be ripened by fluorescent light rays.
