

DRIVERS LICENSE MUST DISPLAY CURRENT ADDRESS

Relatively few licensed drivers of motor vehicles in the state realize that the same law requiring them to be licensed also stipulates that they must notify the Department of State immediately of any change of residence address.

The licensing statute provides that failure to have any change of address recorded in the prescribed manner may be cause for the revocation or suspension of an operator's or chauffeur's license.

The operators and chauffeurs of vehicles recorded in the Department of State has been unable on many occasions to furnish the correct home address of licensed operators, when the appeal for aid in locating people sought was for the purpose of notifying friends or relatives of injuries or even death.

Leon D. Case, Secretary of State, advises that all licensed chauffeurs and operators check their home addresses on their licenses. It requires only a few moments to properly record the correct address and any subsequent changes that may be made.

'To The American People'

The men who lie in Flanders' field. Where crimson poppies blow. Can never see their comrades' graves.

Not crosses nor rows. They wait a nation to uphold. A million lives to keep. And in their hearts each one of them, So blessedly asleep, Died with a prayer, for well they knew.

They died for freedom's sake. Their victory was glorious. For those who were awake!

And now when war is threatening And freedom's chains are tight; When gales of foreign "isms" try To blow out freedom's light Is not today the proper time In tribute to their dead To keep the land they died for?

One that can forge ahead? And keeping faith with those who sleep We urge above all fight A battle that cannot be won By bullets or by spite.

And if those brave soldier boys Would die for freedom's right Should we not grasp their lighted torch And keep it burning bright? We who can heavily carry on Their courage will endow. For since they died for America We'll live for her sake now!

Present plans call for a super-highway from Sault Ste. Marie, Michigan to Miami, Florida, with a branch extending from Chattanooga, Tennessee, to New Orleans, Louisiana. During the Summer months associations were formed in the nine states through which such a highway would pass.

Ample notice of change of address should be given before changing, if possible.
