Youths' Temperance Is Started Here

A group of young people met Thursday night at the home of Jean and Dick Reid to organize a branch of the Youths' Temperance Council. Ten charter members and four guests were present. Mrs. Charles Erwin conducted the devotional exercises. Mr. Reid, father of the young host and hostess, provided a most excellent program, two "talkies," the first, "Frontiers of Progress," by Lowell Thomas, the second, "Wholes Across Africa." Refreshments were served.

At the next meeting of the Council, Mrs. Ruth Miles will give a review of a popular book by A. I. Cronin, "The Citadel."

At The Redford Theatre

Spencer Tracy and Mickey Rooney in "Boys Town"

A boys' community like the Ford Republic is the subject of "Boys Town" starring Mickey Rooney and Spencer Tracy and playing Friday and Saturday at the Redford Theatre.

The picture is dedicated to Father Flanagan founder of Boys Town, Nebraska. Tracy plays Father Flanagan in the picture. He is the leader of the town, which is a self governing community for delinquent or potentially delinquent boys. A young hoodlum, Whittier, played by Mickey Rooney,

bolts from the restraints of Boys Town and sits up unfavorable publicity for it.

In the end, Whittier returns to the school and is made mayor, and Father Flanagan's community carries on its good work.

Sociology and good theatre are mixed in such a way that each is enhanced by the other. The sociology is made more interesting and the good theatre has some social significance. This is a picture worth seeing.

Sharing the Redford screen with "Boys Town" is another picture of the first magnitude: "Rich Man, Poor Girl." In it are Robert Young, Lew Ayres, Ruth Hussey and Guy Kibbee.

Sunday through Thursday crime and collegiana will be offered the patrons of the Redford. The pictures are, "King of Alcatraz," with Lloyd Nolan and Gail Patrick. The campus, or what Hollywood likes to think is the campus, comes to the screen in "Touchdown Army" with John Howard, Mary Carlisle and Robert Cummings. It has been described to us as "A riotous campaign of football and ferngules." Maybe that's a fine recommendation, but whether it is or not, that's what you'll see in "Touchdown Army."

HOUSEWIVES MAY WEAR FUR COATS IN THE KITCHEN

Michigan Department of Agriculture officials are equally divided upon the possibility that in the modern home of the future, a fur coat in the kitchen will become a necessity, that every housewife will consider such a coat as proper attire and as necessary as her apron. As a matter of fact, the department officials are more interested in the present and the problems offered by Michigan's newest fruit processing industry, that of quick freezing of fruits and vegetables.

In 1927, the industry was more or less considered as an experiment in Michigan but 1933 found large Michigan surpluses processed in this manner, with success indicating that further quantities will be handled by quick-freezing process in 1934. The department is charged with the enforcement of the canning and preserving laws but these were written prior to this when any thought was given to the possibility of freezing becoming a preserving process, with result that department has hesitated in bringing plants under inspection.

Ever changing conditions in this industry make it difficult to draft codes because rules and regulations that might serve during one season might become inadequate the following season. A large number of products are found to be adapted to the process yearly, one of the newest developments during the past season being corn on the cob, fresh peeled apples in four pound baskets, offering fresh apple pie at all times of the year.

The fresh fruits and vegetables are processed by placing in freezing plant with temperatures below zero and after being processed are being thawed resemble the fresh fruit or vegetable. Proponents of the process predict homes equipped with cold rooms, with housewives adopting the newer products while others maintain that the volume is limited by quick freezing facilities. Meanwhile the Department of Agriculture is studying the industry, and its needs for regulation if it reaches greater proportions.

CHURCHES

All notices for this column must be in the Enterprise office not later than Tuesday at noon.

Salem Evangelical Church
Rev. Carl H. Schultz, Pastor

Worship Service—10:00 A. M.
Sunday School—11:00 A. M.
Please note the change in time;

services beginning one-half hour earlier than before.

Eighth Church of Christ, Scientist
Grand River Ave. at Evergreen Rd.
Detroit, Michigan

"God the Preserver of Man," will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, Dec. 10.

The Golden Text (Psalm 40:11) is: "Withhold not thy tender mercies from me, O Lord: let thy loving kindness and thy truth continually prevail over me."

Among the Bible citations is this passage (Luke 12:29-30): "And seek not ye what ye shall eat, or what ye shall drink, neither be ye doubtful of mind. For all these things do the nations of the world seek after: and your Father knoweth that ye have need of these things."

Correlative passages to be read from the Christian Science text book, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 254): "When we wait patiently on God and seek Truth righteously, He directs our path."

Methodist Episcopal Church
Rev. Delmer Stubbs, Pastor

Morning Worship at 10:30.
Church School at 11:45 a. m.
Men's Forum at 12 noon.
Wednesday, 7:30 p. m. Teacher Training Class.

Smith Tribe is Largest Social Security Shows

Claims of the American branch of the Smith family to numerical superiority over all other family groups are supported by a survey: the Bureau of Old Age Insurance has made of the 41,000,000 social security account numbers it has assigned, the Social Security Board announces.

Account numbers have been issued to approximately 483,500 Smiths. Next in order are the Johnsons with 366,557, the Browns with more than 267,538, the Williams with 262,778, and the Mills with 251,927. The Jones stand in sixth place with 245,798. All variations in the spelling of a name are grouped together. For instance, Schmidt, Schmitz and Smythe are considered part of the Smith family.

When the old-age insurance system was being planned, statisticians estimated that accounts would have to be set up for about 26,000,000.

Walter B. Redman, Pontiac Field Office Manager of the Bureau of Old Age Insurance, cites the high registration of workers in these largest name groups as an added justification for the Board's requirement that every worker have an individual number. Without such an identifying number, it would be difficult to keep accounts straight.

The Bureau's survey of its millions of listed workers also discloses that the shortest family name recorded is "E", and the longest Xenaglanokopolos.
