NEW YORK—Ballet on land and water will thrill visitors to the New York World's Fair opening April 30. In the Marine Amphitheatre which seats 10,000 persons, Eleanor Holm (inset), Olympic swimming and stage star, will head a cast of 100 girls in Billy Rose's Aquacade ballet. Two hundred others will dance on the stage. The show's production will cost \$1,000,000, according to Grover A. Whalen, President of the Fair.

## Wanted, a Monkey

"THERE'S nothing the matter with your aunt, Miss Cane," said the doctor, looking contemptuously at her pocketbook for the \$25 his expert opinion commanded, "but she lacks a definite interest in life."

"I suspected it, Dr. Jones," sighed the girl, "but since dear Justin passed out—"

The great man looked at his watch. He dreaded a history.

"Yes," went on the girl rising, and going toward the door where a predatory secretary would deposit her of her poor little yellow bills.

"Justin had won so many prizes and he really was a wonderful dog for 15 years old."

The doctor bowed and probably made a mental note of a "pet" psychosis.

"Nothing like a pooch, after all," said and done, to occupy the mind," said the predatory secretary disposing of the bills. Sally took the elevator and descended to the dazzling avenue. It was good to be in the sunshine after the "creepy" atmosphere of a doctor's waiting-room. She glanced at her watch and saw it was already past lunch-time. She pushed her way through a crowd of giggling office help and departed soup and a salad. Her clear-cut profile and healthy skin were reflected from the mirror-lined room. Luckily she had a table for herself.

"I must get a pet for dear old aunt," she thought, "but how?"

"Excuse me, I'm afraid this is the only one. I'd you mind if I take it?" "Such a nice voice—a man's and such incoherently merry eyes—quite the slightly formal manner and unsmiling lips."

"Why, of course," Sally stammered, pulling her purse and gloves nearer, and moving her chair to make room for this nice person to sit down.

"I'm a stranger in this city," said the man, "and I find all the places so crowded, but one must eat."

"I advise the vegetable soup. It's rather nice."

There was a slight scuffling noise which seemed to come from beneath the table.

"Please excuse my adopted son," said the man, "he's a particularly nice monkey. You don't by any chance hate monkeys, do you?"

Sally laughed. "Indeed no. I've just come from the office of a peculiarly disagreeable doctor, and he sneered when I told him my aunt's dog had died."

"Just like doctors. I have no use for them, anyway."

"Neither have I for myself. But I live with a dear old aunt and she reads patent-medicine advertisements and nothing would do but she must consult this old man. He advised her that she needed an interest in life."

"Shouldn't wonder if that's what ails most folks," said the stranger. "I'm awfully worried about Jack. You see, I'm an engineer. I have to get out tomorrow for South America. I can't possibly take the little fellow and I'm afraid it'll break his heart if he has no one to care for him."

"I wonder—" Then Sally blushed scarlet. What would her aged aunt think if she discovered her confiding in a strange and personable young man?

"My name is George Smith," said the stranger, "and I believe we are overlooking the same thing. That is, if Jack might not be the very medicine your aunt needs. Wasn't that what you were thinking?"

"It was," said Sally. "If you wouldn't mind, if you had the time—I'm sure it's awfully queer, but you see I want aunt to live to be a hundred (she's promised to try) and I really think Jack might help her to do it. We live out quite a distance but there's a bus that goes right by the street."

"I'm afraid we must take a taxi, for my time isn't unlimited. You won't mind as I'm going to introduce your aunt's new doctor, will you?"

Sally shook her head.

Mrs. Maude was a trifle flustered when she saw a cab. She expected accidents, due to her choice of disastrous reading. When she saw the box with holes, she began to cry, softly. It recalled the lamented Justin. The introductions being effected, she appeared to take a fancy to young George Smith. The monkey, which was a marmoset, looked wistfully from his master to the old lady and then, with the uncertainty of animals, jumped into her lap and snuggled a pretty little face into the curve of her arm.

"I guess you're going to give Jack a home, aren't you, Mrs. Maude?" he said, rising to go. "This is my address, my father's, that is, should be all around in construction camps and your letters about Jack will be forwarded."

"Your father I once knew—before I lost my own husband, who was like you, a civil engineer, by a cruel accident. That is nice. I feel I know you. You may rest assured Jack will have a happy home. I feel that now I have something to live for."

Looking Sally straight in the eyes, George answered, shaking her warmly by the hand:

"And so do I."

Careful estimates indicate that 4,000,000 tourists will come to California in 1939 for the Golden Gate International Exposition.

"Unreality" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, April 2.

The Golden Text (Proverbs 30:8) is: "Remove far from me vanity and lies; give me neither poverty nor riches; feed me with food convenient for me."

Among the Bible citations is this passage (Psalm 17:13) "Wait on the Lord; be of good courage, and he shall strengthen thine heart: wait, I say, on the Lord."

Correlative passages to be read from the Christian Science text-book, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 254): "When we wait patiently on God and seek truth righteously, He directs our path."

Bull at the Fair

NEW YORK—One of the most striking sculptures at the New York World's Fair 1939 is pictured above. It represents Europa riding above the white swimming bull. The sculptor was Gleb Derujinsky.

Squirrels Guided by Tails

Squirrels are guided in their leaps from branch to branch and tree to tree by their tails. The name squirrel comes from the animal's tail. It is derived from the Greek "Skiauros," which, in turn is taken from "Skio," meaning shade, and "Ouras," meaning a tail. Literally, therefore, the squirrel is an animal shaded by its tail. This refers, no doubt, to the animal's appearance when sitting up.

A vast "scintillating screen" of metal plates will add a symphony of sound and shimmering light to the Golden Gate International Exposition in 1939.

How Celophane Is Made

The first step in the manufacture of celophane is steeping sheets of pure spruce wood pulp in a caustic soda solution. This converts the pulp sheets into alkali cellulose.

Many Lives, Ships Lost In Dardanelles Battles

The first allied attack on the Dardanelles, February 19, 1915, was made by British and French ships. Attacks on February 23 and March 4 were followed by the main assault on March 18, in which one French and two British battleships were sunk by Turkish mines and four ships were put out of action before the allied forces withdrew. In April a combined military and naval campaign was begun. During this Gallipoli campaign the navy rendered important aid, shelling the shore to protect land operations and demoralizing the Turkish communications by submarine, which sank three Turkish gunboats, and other ships. Turkish and German submarines retaliated; the big ships of the allies were powerless and they were ordered home.

By September the hopelessness of the campaign was realized. The navy handled the withdrawal of the troops with great skill, completing evacuation on January 8, 1916, nearly 11 months after the first attack. British casualties totaled 5,653 oficers and 114,676 of other rank killed, wounded and missing.

For the sake of efficiency, each unit is served by a social director, her assistant, and a resident nurse. The two units of the dormitory are named after Dr. Elias M. Jordan and Mrs. Frederick P. Jordan, the University's first two Deans of Women. This picture, Mother Hall is at the left end of the building, Jordan Hall at the right. This side of the building overlooks the beautiful women's athletic field.

One of the largest women's dormitories in any American university, Michigan's Mother - Jordan Halls have facilities for 436 students and have served as a residence for nearly 2,000 women since they were opened in the fall of 1930.

Water and Jordan Halls are operated as separate units for social purposes, although the preparation of food and their other business aspects are under joint management.
