Orchids, after they are cut at the nursery, are placed in refrigerators to harden and become accustamed to a change of temperature. The control of the control of the control or change of temperature. The control of the control of

The Gorgons
In clastical mythology the Gorgons weeks, Sheno,
Enryale, and Medusa, the last
hair was a scrpent, their bodies were
scall, their hands of brass, their scall, their hands of brass, their
teeth like tusks, and their glance
would turn a mortal to stone. Persous was sent to kill Medusa and
complished by watching her reflection in a mirror, thus avoiding the
deadly glance. He gave the head to
Minerva, who wore it on her shield,
turning to stone those she wished to
destroy.

Human Body Is the Most

Human Body Is the Most

Complicated of Machines
Your body is one of the most intreasing machines ever send intreasing about 2.000,000 poresabout 3.000 to the square inchand the human skeleton has more
than 200 bones! All the blood in
your body is pumped through your
heart heats about 70 times a minute, or 100,000 times a day. The
average person can hold about 230
cubic inches of air in the lungs,
and at each breath about 230 cubic
linches is inhaled or exhaled.
Most men breathe about 180 times a
"Went body has more than 550 muscles and about an equal number of
normal temperature is 98.36 degrees
Fahrenheit. Every day your body
throws off about four plints of water:
20 cunces from the skin, ten of
from the standard of the symmetry
lose about half an ounce of nitrogen,
an ounce of mineral sails and eight
ounces of carbon.

To counteract this waste the average person takes in about 59 pounds
of food and drink a day, which is

'Not Worth a Rap' Came
To Us Many Years Ago
We dries ary a thing is "one who
a rap." meaning it is worthless.
Not of us imagine that the phrase
refers to a rap on the fundeds or a
apon the door knocker. But actually it originally referred to something quite different, and if we wish
to be pedantic we would say." "ost
worth an R. A. F. "en to our lan-

worth an R. A. P.

This phrase came into our language in a curious way, says Pearson's Weekly. More than a hundred
paras ago unserruptions Cracella indi
land in the control of the control in the control in tenden could be traded to
the natives and exchanged for good
indian rupes, annas, and pice, the
local currency.

The government took states to the

local currency.

The government took steps to stop the practice, but not before many firms had suffered substantial losses. As the ledgers in which all transactions were entered were headed R. A. P. (for rupees, annas, and pice) it stood to reason that these sheets were worthless.

Amont trades an R. A. P. sheet

these sheets were worthless.

Among traders an R. A. P. sheet
was known as a "rap"—the letters
being run together in somewhat
similar manner to the way we speak
of £ s. d. as l s d, and so when
anything was worthless it was the
custom to say "not worth a rap."

Weights and Measures A pint's a pound—or very nearly—of the following: Water, wheat, butter, sugar, butchestries: A gallon of milk weighs 8.6 pounds; cream, 8.4 pounds; 46½ quarts of milk weigh 100 pounds. A begren of flour weighs 100 pounds. A begren of flour weighs 100 pounds. On the control of the cont
