Goat Ranch Is Run By Widow and Boy

Unusual Career of Sixteen ORTEM LAND COMPANY, INC., a New Jersey Cornoration Years Is Disclosed.

WASHINGTON — The almost unique current for a soman, of a small, wize, middle-aged widow who has supported herself for 19 years operating a goal ranch, was disclosed in an application from Mrs. Jose Mediord, of Paridale, Colo, for permission to graze her herd on public lands under the jurisdiction of the general land office. We have a supported to the general land office and the support of the general land office. The support of the general land office of the support of the general land office of the support of the general land in connection with the operation of a goal ranch, Mrs. Mediord has been officed a five-year lesse for approximately 800 acres of mountainous

goat ranch, hirs, hierarch has been offered a five-year lease for approximately 800 acres of mountainous country in Fremont county, near Canon City, as a range for her ani-

non per in each and and once in each and in the control of the control of

For the last 15 years, it was disclosed. Mrs. Medford has been doing her own work, herding, milking, fencing, building and conducting the other chores incidental to the conduct of a rance.

"She now has 150 milch goats that she grazes on her own lands and adjacent public range," an official report stated. "About half of these goats are milked every day and the milk is delivered at Carpings; she should be shipment of the shipme

Heat of Earth

Scientists Generally Agree

Atom Warfare Peps Up

Rays of Sun.

Sun Absorbs Energy.

Sun Absorbs Energy.

Briefly stated in lay terms, Doctor Bethe's theory holds that while earthly creatures consume the side of carbon atoms with oxygen, the sun absorbs the energy from the cores of the atoms. Carbon, it was explained, is the basic constituent of all matter.

Warfare Gives Off Energy.

Doctor Bethe's theory found that

Is on Increase

Rays of Sun.

PHILADELPHIA.—The sun will not start to cool off for at least another 10,000,000,000 years, according to a symposium of scientists held fere jointly by the American Philosophical society and the Franklin Institute.

The order of the state of the state

old farmer.

He has enrolled in a university extension "personality" course conducted at the State Teachers' college here. Barber, who graduated from Franningham academy in 1877, likes the idea of "going to school all over again."

COMMISSIONERS' **PROCEEDINGS**

Regular meeting of the City ommission of the City of Farm-igton held August 14, 1939, Called o order by Mayor Warner at 3:29 m. Commissioners present: Hat-ni, Oldenburg, Nacker and Bag-

ton, Oldenburr, Nacker and Bag-nal.

Minutes of the regular meeting of July 11th read and approved.

Bills paid by the City Cierk:
Salary expense, July ... 54,6000

Labor expense, July ... 54,6000

Labor expense, July ... 54,000

Labor expense, July ... ess continues until the helium ends as carbon again. While the little warfare of the atoms progresses, the scientists explained, energy is given out. The atomic energy must be created to supply the heat given off by the sun. To supply the sun's heat for one second, he explained, 10,00,000,000, the energy must be created to supply the heat given off by the sun. To supply the sun's heat for one second, he explained, 10,000,000,000, one off the sun were heat for one second, he explained, 10,000,000,000, one would have to be burned. It has sun were burning itself up, as carlier theories held, he asserted, it would have hasted only 6,657 years. He estimated the sun's loss of mergy at 4,200,000 (ons per second.

Theory Fits Data.

Doctor Estel's theory fits all available data, and has been accepted by many scientist as the answer to how the sun manager accepted by many scientist as the answer to how the sun manager is the start of the property of the sun than the sun than the sun sun than the sun than the
