### Grow

Advertising is usually a sign of a growing business. And people, as a rule, like to shop at a growing store .....

Advertising is nothing more than a conversation between yourself and your merchant. He pays for it out it saves you money.

All the news is not on the front page. Read the Advertising in the Enterprise.

# TOMATOES FIRST GROWN 400 YEARS AGO IN MEXICO

In searching the life-history of the tomato, the Consumer Service of the Michigan State Department of Agriculture finds that the Mexi-cans first grew it in their marze fields 400 years ago and called it "tomatt."

ireus awy years ago and cailed it "cionati."
Though a perishable child of the tropics, the jomati has adapted itself of vasily different environments. From Mexico, it travelled to France where it received its pet name, "low-sample." For years, Englishmen grew it only as a curiosity, and Americans, who considered it poisonous, cultivated it is an ornament. There is no record that the plant ever "ran wild," but its commercial production is only 50 years old.

mercial production is unity of visit.

Home-Grown is Tastlest.

### A 3-Story Flat Houses

Beavers, Muskrats, Mink Beavers, Muskrats, Minik BUTTE, MONT.—Beavers, some-times employed by the CCC in dam building and in water conservation, have a new fort now, according to Charles A. Joy, supervisor of Deer Lodge National Forest. These industrious animals appar-ently have gone in for apartment life and, in so doing, have demon-strated how to get along with the neighbors.

strated now to get along with the neighbors.

Joy related a tale of a three-story beaver apartment house that he had found, occupied in the basement by the beaver builders, the second food housed a family of muskrats, the pent house was let to a young mink couple, and several little minks multiple and several little minks and the best of terms.

### Tops World in Turn Down Europe

Railway Speed

### United States Supreme in Both Electric and Steam Power.

MINNEAPOLIS.—More American families will tobr the Americas in 1939 than ever before, whils they turn their backs on Europe. Barring unexpected economic reversials, 1939 will be the biggest their should up the property of the head of the recording to the study by the conding to the study by the conding to a study by Northwestern National Life Insurance company. WASHINGTON.—Speed of passenger trains has been developed by the United States to a far greater degree than by any other country, according to a survey of the world's fastest railroad runs just completed by the Railway Gazette, published in Lordon.

ed by the Railway Gazette, pub-lished in London.

Not only does America have the largest amount of high-speed mili-age, but it also is supreme in switt trains operated by Diesel, steam and electric power. Only one coun-try—Germany—has a faster sched-

rease of 10,835 miles over 1937.
75 Miles an Hour.
For runs booked at 66 miles and more per hour the United States has 12,030 miles. There are 4,415 miles at 70 miles and more per hour and 1,012 miles at 75 miles and more

82.2 miles per hour. However, an American train, also Diesel operated, is close on its heels with a run of £2.4 miles at \$1.4 miles per hour. Outranks All in Steam.

In both mileage and scheduled runs this country outranks all others in steam operated passenger trains, according to the survey. For instance, the United States has 32,692 of the 48,633 miles of daily runs at 60 miles and more per hour. With a train hitting 72.9 miles per hour over a \$3.1 mile stretch, America leads the list. It also occupies the next three places.

Two 75-mile-an-hour put America on top day the property of the property
