AT THE REDFORD THEATER

Deanna Durbin's sixth picture, "First Love," comes to the Redford Theater Friday.

Presenting the young star in a more mature role than any she has ever attempted, "First Love" finds her experiencing her first romance. The film was produced by Joe Pasternak, who has been responsible for all of Deanna's offerings, and directed by Henry Koster, who directed her in "Three Smart Girls," "100 Men and a Girl," and "Three Smart Girls Grow Up."

The picture is an original screenplay, and was made at Universal studios by the same staff which produced all of the former Deanna Durbin successes, beginning with the memorable "Three Smart Girls."

Logical Story

Deanna will be seen as an orphan girl who is forced to live with an aunt, an uncle, and two cousins, her own age. They are rich and snobbish and look upon Deanna as a poor relation. The star's personality, consideration and kindness win over the servants and finally bring about an upheaval in the family.

In the picture Deanna encounters her first love affair, a boy-and-girl romance between herself and Robert Stack, a screen newcomer in the role of a young bachelor who is the object of the affections of Deanna and of Helen Parrish, who plays one of the snobbish cousins. And in the romance, Deanna receives her first screen kiss—and her first proposal of marriage.

Included in Deanna's songs are "One Fine Day," from Puccini's opera, "Madame Butterfly," "Amapola," by J. M. Lacalle; "Home, Sweet Home," by John Howard Payne; and "Spring in My Heart," a melody of Strauss waltzes adapted by W. J. Salter with lyrics by Ralph Freed.

Newly Surfaced Road Open to Winter Travel

The state highway department has announced the opening of M-31, between Deerton road and Harvey, to winter traffic. Earlier in the year the department has asked aid of local officers in maintaining a barricade against traffic to protect the newly stabilized surface from traffic during unfavorable weather conditions. Frost, engineers say, has seasoned the surface sufficiently for vehicles.
