County Firemen's Association Asks More Cooperation

'Are you a menace to your community? Do you contribute to the hazards in your neighborhood? Can you honestly say that you do not harbor and accumulate combustible materials in your attic or basement? If you can answer these questions in the negative, without a guilty conscience then you are indeed fortunate, because you are not an average citizen, says the Oakland County Firemen's Association.

Mr. Average John Doe has an accumulation of oily rags, floor mats, old magazines, newspapers and rubbish in his attic and basement that he is going to dispose of tomorrow and tomorrow never comes. But the damage and heartache that follows the blaze you have been coaxing and nursing along like a little child helping to

get a star and grow, always comes. Don't be the first but in your neighborhood. Endeavor to save lives of your family and the family and property of your next door neighbor, do something about your attic and basement TODAY. Make fire prevention your motto.
