Civic Theatre Will Open Doors Friday

At last it is here! The opening date of the new Civic Theatre in Farmington. The date that all Farmington has anxiously been waiting for ever since work was started on the beautiful new building that is to be the amusement center for Farmington and the surrounding area. The marquee lights are so brilliant they may be seen for a great distance on Grand River. All the activity around the front of the new Civic Theatre as evidenced during the past weeks can be explained by the interest that is being shown by the people who stop to admire the fine new building.

For the past week the marquee lights have been burning every night. If you haven't seen it, you're missing something, for everyone is talking about the wonderful new type seats being installed. They are designed to be the last word in comfort—roomier, softer, more completely comfortable than any theatre seat you ever sat in. The cooling system is guaranteed to be the best. No effort was spared to bring you the very best system available. And best of all, customers are guaranteed perfect visibility from every corner of the house, and acoustics could not be improved upon. All these plus the beautiful surroundings of the Civic Theatre will make your first visit one to be remembered for a long time, and you will be eager to return again and again.

The Civic Theatre pledges itself to show only the best in motion pictures, and bring to you revivals of the great epics as well as the best in new pictures. Employees are chosen who will do everything possible to add to your enjoyment, and the prices will be reasonable always.
