current problems—girl hitch-hikers and hoboes—Columbia's startling exposé "Girls of the Road" is the other full length feature. It tells a true-to-life story of heart-rending intensity. Scenes of unbelievable frankness highlight the appalling conditions under which thousands of unwanted women throughout the country face life as homeless drifters. In addition there will be a color cartoon, "Mother Goose in Swingtime."

Filmed in spectacular Technicolor, the exciting and stirring climax to the daring exploits of the world's most famous outlaws comes Tuesday to the screen of the Civic in the 20th Century-Fox production, "The Return of Frank James."

The millions of moviegoers who thrilled to last year's "Jesse James" will find the new Darryl F. Zanuck production even more colorful and action-packed. These same millions will also find many familiar faces in the cast, for "Jesse James" players fill most of the important roles.

Also on the Civic screen Tuesday is "The Boys From Syracuse." Based on the musical comedy which had Broadway audiences howling for 235 performances, "The Boys From Syracuse" brings a brigade of singing stars and laugh luminaries.

Produced by Jules Levey as his first Mayfair Production for Universal release, the new film boasts a cast headed by nine "names", new music by Richard Rodgers, and Lorenz Hart, new dances directed by Dave Gould and one of the most unusual comedy stories ever presented.
