CUB SCOUTS
ADOPT WORTHY
PROJECT

The project for the month of November, with the Farmington Cub Pack 45 is to gather up discarded toys and playthings, repair and repaint them, and turn them over to Mrs. Joseph DeVriendt for distribution to the needy at Christmas time.

Den No. 4, under the direction of Mrs. H. H. Bowman, started the idea last month, and it seemed such a splendid one that Cubmaster Howard L. Richards immediately accepted it for the monthly project for the entire Pack.

All toys and playthings will be on display at the Pack meeting at the end of the month, after which they will be turned over to Mrs. DeVriendt.

If you are approached by a Cub for your old discarded toys, do not turn him away as he is trying to do his bit, and one of the major achievements of Cubbing is to learn to do things with your hands.

If any other Farmington organizations wish to help the Cubs in this program, please contact Cubmaster Richards.

JUVENILE VOTERS GIVE WILLKIE ONE POINT LEAD

Students of the Farmington grade school did not favor a third term in an election held at the school this week. Voting before the regular election, students of the fifth, sixth, seventh and eighth grades gave Willkie a skimpy one vote lead over Roosevelt with 70 to 77 count. Third and fourth grade students also showed their preference for Willkie, voting Republican 33 to 34.

The pupils vote was surprisingly similar to the way this community voted on Tuesday. They supported the GOP candidate, as they all have a few cases, and like many of their parents, gave Murray D. Van Wageningen the nod over Gov. L. D. Dickinson. Most popular candidate was Harry F. Kelly who polled 81 votes.

The election was conceived and conducted by Robert Chipman, teacher of social studies in the eighth grade, who supervised the counting of the ballots, and the counting of the votes.

Health Department
Makes New Milk Survey

Another of the milk sanitation programs of Michigan cities was moved forward a step when a base survey was made in Battle Creek last month by the Michigan Department of Health.

Battle Creek, along with Sault Ste. Marie, Bay City, and several smaller cities, is aiming at the approved rating of 90 per cent of the United States Public Health Service. One such rating has been earned in the state, by the Iron County milk shed.

In the base survey at Battle Creek, all 16 pasteurization plants and 42 out of 297 milk-producing farms were visited by a state milk inspector. The improvement campaign was begun six months ago by Dr. A. A. Hoyt, Battle Creek health officer, and has been speeded up by a desire of dairymen to supply milk to the military establishment at Camp Custer.

COMMENTATOR IS NEXT TOWN HALL SPEAKER

Pulton Lewis, Jr., nationwide commentator for Mutual Broadcasting System, will be the Detroit Town Hall speaker in the Fisher Theatre next Wednesday, Nov. 13, at 11 a. m. His subject will be "What's Happening in Washington."

A native and resident of the District of Columbia, Lewis knows Washington politics from the ground up. As head of the Washington bureau of Universal News Service from 1929 to 1937 he covered every type of news beat.

In a poll of Congress asking which network commentator gives the best program from Washington, Pulton Lewis, Jr. was selected for first place by a majority of more than two to one over the next ranking commentator. New Paralysis Cases
Reported in State

Infantile paralysis cases are still being reported the length of the state, from Lake Superior to the Ohio line, and parents everywhere in Michigan are asked by the State Health Commissioner to be on guard for the early symptoms.

"Polio moves swiftly and a physician should be called at once when the first stage signs are noticed," said Dr. H. Allen Meyer, "Fifty cases were reported in the first three days of last week, which shows the need for watchfulness. Some of these cases came from counties where little polio had been reported previously. Fever, vomiting, pain in the neck, tenderness of muscles of arms or legs may indicate the first stage of infantile paralysis."

Early care is important in treatment of polio and in preventing serious after-effects, said Dr. Meyer.

Reported cases of polio have passed last year's total of 904, second highest on record. The figure for this year through October 16 is 1,022 cases.
