SOUTH FARMINGTON Christian Science Plans TOWNSHIP NEWS Thanksgiving Services

As is customary in all Chris

As is customary in all Christian Science Churches, a pecial Thanksgrying service will be held on Thanksgrying Day in the High School Auditorium at 11:00 o'clock in the morning. Following the usual order of service there will be a brief period in which members of the congregation may express their gratitude for healings and other help which they have received during the past year.

year.

The Golden Text from Psalms (37:12), will be very appropriate for the occasion and reads: "Re joice in the Lord, ye righteous: and sive thanks at the remembrance

The entire Farmington high school tootball team, together with its Coach, Paul Shoemaker and manager were guests Wednesdaynight of the Civic Theatre.

night of the Civic Theatre.
The Farmington team defeated
Brighton Friday by a score of 19
to 0 to win a tie for the championship of the Southwestern Oakland
County League. Last year the
Farmington team won the undisputed title of the League.

Poultry houses must be kept dry Poultry houses must be kept dry and well yentilated, report poultry staff members at Michigan State College. Straw lofts serve to insu-late poultry houses, reducing the loss of heat through the roo. If the layers become packed, miore straw should be added to maintain a layer approximately two feet in thickness.

SPRAYS AFFECT CHERRY SIZE

Spray materials influence size, color and amount of solids in the Spray materiass intuence size, color and amount of solids in the Montmorency cherry, according to research conducted by E. J. Rasmussen of the agricultural experiment station of Michigan State Mr. Albert Beals, 2232 Prospect, College, Trees sprayed with concentrations of bordeaux 4-6100 and State College, Trees sprayed with concentrations of bordeaux and with proprietary copper in total solids than trees sprayed with limits-subjuit. Trees sprayed with weak concentrations of bordeaux and with proprietary copper materials produced cherries some what darker'in color, higher in off solids and similar in size to fruit grown on trees sprayed with fire-subjuit.

SCHOOLS LOSE STUDENTS

Studies of Michigan's school pop-ulation indicate changes that will continue to occur for the next ten

continue to occur for the next ten years. A survey of Michigan school population by "1.2". Thaden of the Mithigan Siate College sociology department year based on a reduction or elementary school students from S88,789 in 1930 to \$91,544 in 1938, a decrease of 17.6 per cent. A failing off in the number of births accounts for this reduction. Thaden's predictions include an expected reduction in high school enrollment "Inde" by the properties of the properties
