

SORENSEN NAMED VICE-PRESIDENT OF FORD MOTOR CO.

The election of Charles E. Sorensen and A. M. Wibel as vice-presidents and directors of the Ford Motor Company was announced today by Edsel Ford, president of the company.

At the same time Mr. Ford announced that P. E. Martin had resigned as vice-president of the company and planned to take a year's leave of absence in order to recuperate from a recent illness.

Both Mr. Sorensen and Mr. Wibel, as top-flight Ford executives have worked closely with Henry Ford and Edsel Ford for many years. They have come increasingly into public notice in recent months because of their work on the rapidly expanding program of defense production being carried out by the company.

Mr. Martin and Mr. Sorensen were two of the earliest associates of the founder of the business. Mr. Martin having gone to work for Henry Ford as a machinist and assembler in 1913, the year the Ford Motor Company was incorporated, and Mr. Sorensen beginning his career a year later as a pattern maker. They are widely known in the automotive industry as outstanding production executives.

Mr. Wibel has been with the company since 1912 and for the last 14 years has been its director of purchasing. He has taken a leading part in handling the business details of the millions of dollars in defense contracts on which the company is working.

Henry and Edsel Ford expressed regret over the temporary withdrawal of the man who has been associated with them for so many years. "We hope," said Henry Ford, "that the rest will be back to Ed and that he will be back in a few months, again taking a full part in the direction of the business he has helped to build."

Boat Slip Blasted

Tossed 200 feet into the air by a charge of dynamite are tons of swampland and floating bog that barred the last stretch of a boat channel dug with explosives from open water through 600 feet of marsh to solid ground at the public fishing site on the shore of Big Crooked Lake, in Livingston County. Ordinary excavating methods could not be used because of mucky character of the shore. The site is one of many the conservation department is buying and improving with fishing license funds to assure public access to good fishing waters.

LOCALS

Defense Bond Quiz

Q. What happens if I suddenly need the money I put into a Defense Savings Bond?

A. You can cash your Bond at any time, after 60 days, for the full amount plus any interest due you.

Q. Do many Bond owners cash their Bonds?

A. No. People want to help arm America against all attacks. In many cases, people are putting every cent they can spare into Defense Bonds and Stamps. Some are doing this by asking employers or banks to withhold part of their salaries in order to buy these Bonds or Stamps for them.

Note.—To purchase Defense Bonds and Stamps, go to the nearest post office or bank, or write for information to the Treasurer of the United States, Washington, D. C.

COLLECTORS TAKE TO METER STAMPS ON PHONE COVERS

The American Stamp Journal reports that slogans printed by postage-metering machines on envelopes in which telephone bills are mailed are becoming very popular with collectors. These telephone slogans have a variety that is pleasing to the collector, who also is added by the fact that they come on small covers. Some collectors are making up a specialized collection of the telephone meter slogans.

You've a date with a dune! Like ramparts along Michigan shores, these breeze-swept mountains of sand rise in places to a height of nearly 500 feet.

SEE MICHIGAN FIRST!

There are many things worth going far to see in this great country of ours. But no Michigan citizen has really "seen America" unless he knows the natural beauty of his own state.

Take your vacation in Michigan this year. Go where your mood and the smooth highway lead you—to sapphire lakes hidden deep in the forest—to wave-swept straits and bays and beaches—to rolling farmland, or the grandeur and solitude of the high dunes.

When you travel in Michigan you will find good roads, comfort, courtesy and hospitality. And day or night you can depend on prompt, efficient telephone service to make your trip even easier and more pleasant. A three-minute call ahead will settle the matter of reservations, save you hurry and worry, let you appreciate the scenery around you; a call home will leave you with an untroubled mind.

This pretty cottage is a Tourist Information Lodge, operated by the Michigan State Highway Department for the convenience of vacationing motorists.
