MUCH VOCATIONAL LITERATURE ADDED TO LIBRARY

In order to further vocational guidance in Farmington High School, arrangements have been made with Science Research Associates for the use of their Occupational Information System.

"Through cooperation with this organization we will be able to provide answers to practically all job questions which students ask," Miss Russ, Librarian, said in commenting on the new service. "Science Research Associates was set up by a group of prominent educators for the specific purpose of serving as a national clearing house for information on vocational trends and job opportunities for youth," Miss Russ explained. "It provides students with information helpful to them in selecting an occupation and getting a job. More than 8,000 of the more progressive schools providing vocational guidance for their young people are now using these new materials and methods."

She called special attention to "Vocational Trends," a monthly magazine which highlights new developments in job trends. Current articles feature the efforts of the national defense program and war in Europe on jobs in America. Vocational Trends, however, is but one of six methods used to cover the field of occupations. In addition to the magazine, a new monograph covering a particularly significant field is provided monthly. Next of these monographs is one on Military Occupations which analyzes the training possibilities in the various branches of the defense services. The Vocational Guide, a third publication, lists all the significant literature on jobs as it is published. Reprints and abstracts of the most important articles and books on vocational are furnished monthly. Ways and means of attacking the job problem effectively through school and community action are provided in the Basic Occupational Plans pub-

Your eyes deserve

"TESTED" LIGHTING

Is your lighting adequate for 'easy' seeing? There is one way to be sure: Test it with a Light Meter. No charge for this service. Call any Detroit Edison office.

LOW ROUND TRIP FARES ALL PAVED ROUTES

IT'S BETTER BY BUS IN WINTER

Whether it's just a trip to the next town or journey of many miles, the smart traveler goes by bus in winter.

He avoids driving troubles when he goes by Blue Goose, and he will appreciate the fast, frequent service.

F.H.S. BASKETBALL TEAM LOSES TO HOLLY 30 TO 26

The Holly basketball team defeated Farmington Friday, January 25, by a score of 30 to 26, with Stank getting 9 points for Holly and Russell and Oldenburg getting 9 points each for Farmington. Holly, with a much smaller team, was constantly giving Farmington trouble under and around both baskets, but the decline factor of the game was that Farmington made only 4 out of 16 free throws while Holly made 8 out of 15 free throws.

The game started out with F.H.S. taking an early lead on a quick tip-off play, but the lead changed many times during the first half with Holly out in front 15 to 10. When the second half started, Holly kept the lead until late in the third quarter when F.H.S. finally tied up the score. This did not last long, however, because Holly took an early lead at the start of the fourth quarter and kept it throughout the rest of the game.

The second team of Farmington did a different job by defeating Holly's second team 37 to 18, with Stewart getting 8 points for Farmington and Winglemyer getting 8 points for Holly.

F.H.S. Girls Tired of Dancing With Each Other

Girls have to make the best they can of the Wednesday noon dances. The school dance Wednesday the floor was filled with girls—with the exception of four boys. It has been this way at every noon dance since school started in September. The Student Council has purchased fifteen new records, which are all modern dance tunes. There is no charge for dancing and any student who wants to may dance.

The Senior Prom will soon be here, fellows, and these dances are an excellent opportunity for you to learn to dance so you can really enjoy going.

Snatches From Classes

Because of the successful and good work done on their Breakfast Unit, Homemaking I have begun their Luncheon Unit. Homemaking II is working on a Dinner Unit. Homemaking III has begun a Parallel Unit, centering about foods and home furnishings.

Seventh Grade Wins, Eighth Grade Loses

By a score of 14 to 12 the seventh grade defeated a seventh grade team from Plymouth, Tuesday, January 23. However, the eighth grade of Farmington was defeated 22 to 19. Those playing were as follows: For the eighth grade—Dunckel, Locker, Bacon, Griffith, Aschen-Bronner, Miles and Fawcett; for the seventh grade—Reiffmiller, Conroy, Miller, Newlin, Mulligan, and Cairns.

Programs For Teachers' Institute Announced

The program for the next two meetings of the Teachers' Evening Institute Series of Oakland County has been announced by Mr. E. J. Lederle, County Superintendent of Schools. On Tuesday, February 4, the Chicago Operatic Quartet will sing at the Royal Oak Senior High School at 8:15 p. m. Miss Suzanne Silvercrayns, internationally famous sculptor, lecturer, and playwright will appear at Pontiac Senior High School on Thursday, February 20 at 8:15 p. m. This is a delightful number and she is to take the place of the one that was scheduled for January 9.

Senior Gallery

Name, Max Rowe. Age, Nineteen. Years at F.H.S., two. Achievements at F.H.S., Hop Committee. Ambitions after high school, Journalism work. Hobby, Roller skating. Nickname, Micky.

Name, James Norton. Age Eighteen. Years at F.H.S., ten. Achievements at F.H.S., three years band, Sophomore class president, Hobby, archery. Nickname, Jim.

SHOP ADDS TO EQUIPMENT

The shop is turning out useful metal articles such as banners, steel clamps, and chisels. Some of these projects are displayed in the show case in the shop. A forge bench is under construction. It will hold the vise and a grinder so that it will be close to the forge. Projects are now being stored in the new project racks. One of the racks is in the dark room, while the other is outside the painting room.

What's New In Guidance?

"Merely we are guided along," can be sung by any girl in any of the three guidance groups. All groups are progressing rapidly, discussing and doing many interesting things.

This week Miss Dammon's and Miss Steele's classes discussed the style of clothes that should be worn by four types of girls: first, the tiny girl; second, the plump girl; third, the big-boned girl; and fourth, the tall, slim girl.

Miss Duddle's classes were given a test, determining if they were shy, poised, or loud. As a whole, the class discussed what a shy girl, poised girl, or loud girl could do to overcome her faults, if she did happen to have any.

School-Wide Contest Held By Writers' Club

The contest idea appealed to the Writers' Club when they needed material for a book that they are going to publish this May. The contest is open to any student who thinks he likes to write. The material will be judged by a committee of the club members, and the best will be printed in the book.

This book will be composed of short stories, short sayings, poems, anecdotes, and essays, all of which are to be strictly original.

Wear a Megaphone?

In order to create additional school spirit and to show the colors of the school, the council has purchased a number of felt megaphone emblems to sell to the students. The students can pin them or sew them on a sweater or jacket. The background of the emblem is white with blue in the foreground. Farm-

ington is spelled out through the center in blue and a basket-ball is also outlined in blue. There has been a good number of these megaphones sold, which tell us that the students are proud of their school colors and want to show them by wearing one.

PROCESSING TAX RULING EXPLAINED BY STATE BOARD

The sale of tangible personal property to manufacturers which becomes an ingredient or component part of the finished product or that which is consumed, destroyed or loses its identity in a manufacturing process together with the specific machinery and processing equipment which is exclusively designed and made for and specifically used in the manufacturing of a product to be sold at retail, is not taxable. The ruling became effective February 1.

All other sales to manufacturers are taxable. For example: The sale of tangible personal property to manufacturers that does not become a component part of the finished product or does not constitute machinery used in the manufacturing processes is taxable, such as lockers, drinking fountains, janitor's supplies, the extinguishers, sprinkling systems, first aid equipment, heating, cooling, and ventilating equipment for employees, hand trucks and dollies, fans, safes, office equipment, and supplies, coal, fuel, gas, etc. for heating space, boilers not exclusively used in the manufacturing process, cables and other electric wiring and fixtures, wash bowls, toilets, radiators, furnaces, and all other pipes and pipe fittings, notwithstanding that the above mater-

ial may not be a part of the structural real estate. The above listing is not all inclusive but will serve as a guide for determining taxable purchases.

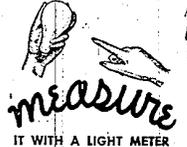

In order to further clarify the interpretation of industrial processing—all things necessarily consumed by a manufacturer in the manufacture of a product to be sold at retail are exempt, and all machinery exclusively designed for and specifically used in the process of manufacturing an article to be sold at retail is exempt, but nothing else.

Lemon Juice Recipe Checks Rheumatic Pain Quickly

If you suffer from rheumatic arthritis or neuritic pain, try this simple inexpensive home recipe that thousands are using. Get a package of Rux's Compound today. Mix it with a quart of water, add the juice of 4 lemons. It's easy. No trouble at all and pleasant. You need only 2 tablespoons sometimes over—pleasant results are obtained. If the pain does not quickly leave and if you do not feel better, Rux's will send you nothing to try as it is sold by your druggist under an absolute money-back guarantee. Rux's Compound is for sale and recommended by SMITH-BRADLEY DRUG CO.

The Greatest Power On Earth Is the Printed Word.

HOW MUCH light from this lamp?

Do you want to know if you are getting your money's worth from your lamps and fixtures? The Light Meter will tell you. No charge—call any Detroit Edison office.

'Mother Knows Best' Doesn't She?

Guiding their inquiring minds and dynamic activities... choosing their food, clothes, entertainment and health needs... the well-informed modern mother knows what is best for the welfare of her offspring. And it is safe to say that an incalculable share of her accurate information has had its beginning in the advertising columns of this newspaper.

Many of the advertisements today bristle with ideas. They are more than catalogs. In the true sense, they are education! Scientific minds contribute to their contents. Their recommendations are based on deep thought. Their words are carefully chosen; their diction studiously formed for clarity and understanding.

Through advertisements the mother of today learns authoritatively about new methods in the care of children's teeth. About antiseptics and hygienics. About body-building and health-giving foods. About new comforts as well as new styles, in juvenile wearing apparel. About books and schools and vacation camps.... The advertisements pour innumerable hints and suggestions into her store of knowledge. They make her a more capable manager of the home and guardian of the family exchequer.

"Mother knows best"—is this expression heard about your home? Is it just an admonition? Or, is it founded on facts. Reading advertisements will to help make it so.
