Scholarship

(Continued from Page One)
lege education
The suggestion for the fund was that it be set up as a rotating fund for the amount of two or three thousand dollars to start. The money would be raised by popular subscription and donations from residents of Farmington.

Dr. Lee Hulselt, president of the Exchange Club appointed a committee of Dr. Norton, Dr. Z. R. Aschenbrenner and Howard Oels to study the possibilities of establishing a Scholarship Fund, and to make a workable basis for the fund. The Exchange Club also made arrangements to have the plan brought before the Kiwanis club.

ENGAGEMENT ANNOUNCED
Announcement was made this week of the engagement of Miss Betty Pangel, daughter of William Pangel, 33114 Oakland avenue, to Robert Snyder, son of Mr. and Mrs. John H. Snyder, 22824 Power. No date has been set for the wedding.

STATE SPRINGER SPANIEL CLUB PLAN FIELD TRIAL

The English Springer Spaniel Club of Michigan will hold its annual A.K.C. Licensed Field Trial at Durgandsons on Saturday and Sunday, November 8 and 9 beginning at 9 a. m.

In this trial several of the nation's best field dogs will be competing. James Simpson of Chicago will have some of his imported dogs in the running. Dogs from his kennel have captured the Field and Stream Trophy for the past two years. This trophy is awarded to the Springer having the highest score for the year. Dr. J. Marcus and Conway Olmstead of Illinois, will have dogs here. Many Michigan and Ohio dogs will be in competition. There will be stakes for Cocker Spaniels.

Anyone wishing to attend this trial may do so. A food wagon will be on the grounds for the convenience of those who wish refreshments.

The club dinner will be given at the Huron River Hunting and Fishing Club for which reservations should be made with William Willard or Guy Durgan of Farmington.

LIBRARY RECEIVES NEW BOOKS FOR ADULTS, CHILDREN

For truth and duty it is ever the fitting time; who waits until circumstances completely favor his undertaking will never accomplish anything.—Luther.

MICHIGAN FARMERS CAN HELP RAILWAYS AVOID TRAFFIC JAM

CHICAGO.—Whether American railroads can handle the biggest freight hauling job of the decade this year depends on two factors, authorities believe.

1—The cooperation of shippers in speeding the loading and unloading of cars; in keeping freight equipment in circulation and making each unit do a more efficient job.

2—A speeding up of the new car construction program now seriously hampered by shortages of steel and delays due to strikes.

"To these two might be added a third—the cooperation of agriculture," says a bulletin issued here.

"If more the cooperation can consist of avoiding delays in ordering supplies that run into tonnage.

"For instance, if such essential commodities as fertilizer are bought immediately shipped to the farmer before peak traffic clogs the tracks, this will help take some of the strain off the transportation system later on. This applies not only to rail shipments but to trucks also, for with the greatly increased rail movement trucks have been pressed into extra service all over the country.

"Moreover, such a procedure can help in the defense program, too, for the farmer's ability to produce bumper crops depends on the productivity of the soil. And this soil productivity, in turn, is dependent on whether the land receives a sufficient supply of necessary nitrogen, phosphorus and potash. By ordering his fertilizer now the farmer can be assured of an adequate supply later on which will help him make the slogan 'Food Will Win the War' a reality."

Red Cross, OCD Look to Volunteers For Civil Defense

Washington, D. C.—To the question "What can I do for America?" the Red Cross is providing an answer for hundreds of thousands of men and women who want to do their part on the civilian defense front.

For women, the Red Cross is providing an 80-hour training course to recruit a corps of 100,000 Nurse's Aides. It is the Red Cross' newest project, undertaken at the request of the U. S. Office of Civilian Defense to relieve the current pressure on nursing personnel.

With thousands of nurses being taken into military service with our armed forces, civilian nursing has suffered a direct blow, the Red Cross points out.

Red Cross Nurse's Aides will serve as assistants to registered nurses, performing scores of important duties which will enable nurses to care for more cases. The Red Cross stresses that Nurse's Aides will not take the place of the registered nurse, but will serve in an auxiliary capacity.

It is in man and not in his circumstances that the secret of his destiny resides.—Carlyle.

Wives Increase Work of Fire Department Officers

AMARILLO, TEXAS.—Fire department officers here are wondering what's the matter with the modern woman. They don't know whether she has become more absent-minded or whether she has started staying away from home longer.

In one week-end the fire department was called three times to women's homes where food had been left on the stove. On the alarm room operator's report were three notations:

"Hot beans."

"Hot hen."

"Hot roast."

The burning food caused no real damage except some losses and the ruin of the food itself.

Every duty brings its peculiar delight, every detail its appropriate compensation, every thought its recompense, every cross its crown; pay goes with performance as effect with cause.—Mildmay.

Miss Kolbert Marries New York Man

Announcement is made by Mr. and Mrs. James T. Kolbert, of Evanston, Illinois, of the marriage on October 27 of their daughter, Alice, to Thomas D. Leonard, Jr., son of Mr. and Mrs. Thorne D. Leonard of New York City and Amagansett, Long Island.

The former Miss Kolbert is the niece of Dr. and Mrs. H. N. McLean of Farmington, at whose home on Seven Mile Road, she has been a frequent visitor. Mr. Leonard is a graduate of Stephens Junior College, attended the University of Arizona and studied art at Sarasota School of Art, Sarasota, Florida. Mr. Leonard attended St. Paul's and Princeton University.

The young couple will make their home in New York City.

Rest assured that He in whom dwelleth all life, health, and holiness, will supply all your needs according to His riches in glory.

"NAVY INTELLIGENCE"

If it necessary to be a high school graduate in order to enlist in the Navy!
No Navy cadet need not be a high school graduate. All applicants will be given an examination to determine approximately 100 questions. A grade of 50 per cent or better on this examination is sufficiently high to pass the Navy educational standards. However, a high school education will be valuable to the seaman during his Navy enlistment.

If I enlist in the Navy or Naval Reserve, will I be sent to a Navy Trade School?
All new recruits are sent to one of four Naval Training Stations and after a training period they may take examinations for entrance into Navy Trade Schools. Those recruits who pass their examinations with sufficiently high grades are sent to Navy Trade Schools before assignment to the fleet. While attending these schools, they will receive regular Navy pay and free education valued at \$1500.

What is the greatest possible pay I can expect to earn during my first term of enlistment?
It is possible to earn as much as \$126 a month by the end of your first term of enlistment, and remember that your clothing, lodging, medical and dental care are all supplied free.

After I have served my term of enlistment, what benefits do I get for re-enlistment?
Depending on your rate and length of service, you can get a cash bonus up to \$300 plus 30 days leave with pay.

What does the term "ash can" mean in the Navy?
An "ash can" is a slang term applied to the depth charge used to combat submarines. The average "ash can" is a container filled with approximately 300 pounds of T.N.T. and can be dropped overboard from a ship and as controlled as to explode at depths ranging from 35 to 300 feet. These are generally carried by the fast ships in the fleet, as a boat dropping a charge regulated to explode at 70 feet depth must move away from the explosion area at a speed of 25 knots or more. These "ash cans" are either rolled off the stern or shot from "guns" which hurl one right and one left simultaneously.
