LEGION PROGRAM FEATURES TALK ON FREEDOM

The radio address given by M. B. Giberson, Jr., Vice-Commander of the 17th District, American Legion, over the Legion's own program on WEXL Royal Oak was entitled, "Freedom." The text of Mr. Giberson's talk follows.

Freedom
 Friends of the Legion and Legionnaires, when asked by our Publicity Chairman to say a few words on this program, I wrinkled my brow in thought and searched the innermost recesses of my memory for a subject that would fit the trying times through which we are passing.

Out of this deep brown study came the word—FREEDOM—which is the greatest GOD GIVEN RIGHT that man possesses and is so precious to our Democratic way of living that we must guard it with our very lives.

This grand and glorious country of ours was the birthplace of FREEDOM and the whole World is looking toward us to see how much we appreciate this great fundamental truth. The War of the Revolution gave us FREEDOM to worship God in our own way, FREEDOM to make our laws and govern ourselves, FREEDOM to enjoy the many blessings of Liberty and, finally, FREEDOM to engage in the natural pursuit of happiness.

My friends let no individual or groups, whether within the confines of our borders or without, abrogate one writ this great fundamental. Doctrine of living—FREEDOM. We cannot have these other great principles of our daily existence, Justice, Democracy, and Loyalty.

Now let us see just exactly the stand the American Legion takes on this subject. This can best be illustrated by quoting the charge given to all candidates upon their initiation into our organization. I quote as follows:

"Freedom is, among all the rights of mankind, held most dear. Freedom is an ideal of surpassing strength, for which our people throughout the years willingly have fought and died. It is the power of self-determination.

"In the War of the Revolution, Freedom was won for the people of the United States; and in the World War, the torch of Freedom and the American forces through the darkness of the conflict. The American Legion is a free organization of free men and women, faithful to the ideals that made it possible.

"Your duty is to see that nothing is done by man or men to curtail the freedom of the people of the United States, whose foundation is the rock of Liberty.

"Our American Legion has interested itself in Freedom from injustice to the children of our nation. No nation can long endure that fails to care for its future citizens. No greater assurance for the future can be offered America than that, promulgated by education and care of the children. The American Legion has taken a lead in the child welfare work of our Country, and it labors toward the end that the youth of our nation may know that freedom from want, ignorance and tyranny are God-given rights and must be preserved, whatever the cost. It stands for equal opportunity for all, in a free country, in which all may enjoy the blessings

RESIDENTS ASKED TO OBSERVE FISHING BAN

Fishermen in this area were cautioned by Conservation officers that all waters in Sections two and three, Town One North, Range Eight East, Novi Township, have been closed to all fishing during the time the Northern Pike are spawning in this area, which will mean until April 30.

Posters will be erected, warning that fishing is prohibited, and cooperation is asked in keeping these posters up until the ban is lifted. The Northern Pike will go upstream to spawn from now until the end of April, and the Conservation Department feels that this fishing restriction will save the pike in Walled Lake, and eventually greatly improve the fishing. This action is in accordance with Section 2, Chapter 3, Act 165, of the Public Acts of 1929 as amended.

Green Apples
 Green apples do not cause a stomach ache. Unripe fruit is hard, coarse and unpalatable. Its lack of a pleasant taste accounts for it not being chewed thoroughly. Insufficient chewing, not unripeness causes the stomach ache.

Keeping Coffee Hot
 Don't keep coffee if it must be reheated before serving. To keep coffee hot set on an electric heater made for that purpose or in a pot of hot water, or on an asbestos mat over a very low heat.

NATURE'S COLORS
 in lasting beauty

PITTSBURGH PAINTS

One of Spring's first heralds ... the flowering Dogwood. Everything is beautiful then ... but in the dreary winter months, when trees are leafless and gardens barren ... then Nature's Colors in Lasting Beauty should brighten and cheer your home. Pittsburgh Paints are Nature's Colors; from Spring we've borrowed Violet and soft Blues and Blossom Pinks ... from Summer, Scarlet and Greens and dusky tones ... Autumn gives us Yellow, and Tangerine and earthy Venetian Red. Nature distributes her colors through the four seasons ... but we have Nature's Colors ... reproduced in PITTSBURGH PAINTS, available the year 'round!

How to 'Enlarge' Michigan Farms for War Output

CHICAGO—How Michigan farmers can "enlarge" their farms to meet increasing war-time demands without incurring the hazards of over-expansion was described in a statement made public here by the Middle West Soil Improvement Committee.

"The secret lies not in buying more land but in making the present acreage do a better production job," the statement declares. "This means following a soil management program that will raise the land's fertility level.

"Even in the most productive areas the average farm can usually be enlarged the equivalent of 10 per cent, and sometimes as much as 50 per cent, through intelligent soil treatment, including the use of fertilizer.

"In combination with other sound farming practices the use of fertilizer containing nitrogen, phosphorus and potash is essential in stepping up the soil's productive capacity." Such a practice not only has an immediate result in increasing the per acre yield of crops needed in the nation's war effort, but represents an important long range soil conservation measure. It like-

Only through sound soil management and the replacement of needed plant foods can bumper crops be assured. ... wise means lower production costs and improved crop quality. The amount of fertilizer applied per acre and the formula selected will depend on the crop being grown ... and on the fertility deficiency of the soil itself. All things considered, but frequently returns a three-to-one dividend in increased crop value."

WE LEARNED A LESSON FROM AN APPLE TO BRING YOU AGED-IN, SEALED-IN FLAVOR

The protective skin of the apple is not there by accident. It's Nature's way of guarding the flavor and keeping out harmful elements until the fruit is fully matured. In the same way, ALTES' exclusive sealed-in process (closed instead of open vats) keeps in all the natural flavor and aroma of the beer—keeps anything harmful out. That's why ALTES BEER is so light, mellow and wholesome.

NO OTHER BEER CAN MAKE YOU SO MUCH ALWAYS SAY ALTES THE BEER WITH THE AGED-IN, SEALED-IN FLAVOR
