### DO YOU EVER THROW PENNIES AWAY?

Most people say "No". They know that pennies are important. That's why many folks buy cheap, inferior meat—to save pennies.

In reality, cheap meat affects no saving. It lacks food value and may sometimes even be physically harmful. If you can't eat it—it's no bargain at any price.

Our prices are as low as they can possibly be and still permit us to maintain high standards of quality. For a real bargain to thrill the family's taste, we suggest rich, tender steak for tonight's dinner. Phone 5 or 305.
