

REV. FISHER WILL PREACH SERMON SERIES

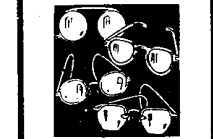

The first in a series of morning messages on "Practical Religion" will be delivered by the Rev. Fred B. Fisher at the First Baptist Church on Sunday morning at the 10:30 o'clock service. It is planned that this series of sermons, based entirely on the Epistle of James in the New Testament, will continue throughout the summer vacation season.

The messages will be concerned with matters of practical Christian living rather than with questions of Christian theology as such. The first message of the series, using the first verse of James' Epistle as a text, is entitled "A Slave of God." A definition of "True Religion," "An Instrument of Fire," "The Nature of Temptation," "The Curse of Self-Deception," "A Definition of True Religion," "An Instrument of Fire."

A cordial invitation is extended the general public to attend the services of the church. Visiting friends who are vacationing in the Farmington area will find a warm welcome. Both morning and evening services will continue throughout the summer season.

First Blood Bank
The blood bank was first used in 1922, when a Jewish doctor tried to save Pope Innocent VIII. However the present system originated in Moscow, where fresh, healthy corpses are drained of their blood, which is stored and later injected into anemic bodies.

Notes

By F. W. Lowrie
Walking down the streets of Farmington on the Fourth of July, one could not help but note that there were a number of flags out. This should be every day during the duration, instead of just on a patriotic holiday. Let's make a pledge to put out our flag, and let it fly. Let others who are going through our town know that we are conscious of the fact that there is a war going on, and that we are going to do our part to make this a victory for the United Nations.

At the regular meeting of the post this week, July 9, the officers for 1942-43 will be elected. Let's hope that all the members turn out to express their wish in the election.

There is still need for more air raid wardens in most every district in and about the Township. Let's see more response to this vital need—it is for your protection as well as for your neighbors. Don't let George do it! Most everyone is busy either in war work or other chores that have to be done, but time must be found by someone to help in this.

It is requested that every air raid warden that has not as yet registered and been fingerprinted do so at once. The Chief of Police will gladly do this at any time during the day, and it is imperative that all wardens take the oath.

Let's Buy More Bonds. Keep 'Em Flying.

Mass Instruction

An organized plan of instruction for adults was inaugurated under the name lyceum in Millbury, Mass., in 1826. This was a voluntary association of farmers and mechanics formed for self-culture, community instruction, and mutual discussion of common public interests. By 1839 more than 3,000 town lyceums were in existence.

OFFICIAL U. S. TREASURY WAR BOND QUOTAS FOR JULY

The above map of Michigan shows the War Bond quotas, by counties, for the month of July, 1942. Total War Bond quota for the state is \$39,466,000. With the National quota total placed at a billion dollars, the nation goes into high gear in its support of the War financing and to give our fighting forces adequate implements of war which will bring ultimate Victory. American Soldiers, Sailors, Marines and Airmen are on every front. They are giving 100 percent for their country. What are we doing here on the home front? Are we lending at least ten percent of income to help them? It's very little. But to fight this war successfully our country needs a billion dollars in War Bonds every month from us—the People. Let's Go, America.
