### IN THE SERVICE

Howard A. Ruelle returned Wednesday night to Kansas City, Mo., where he is training at the Aviation Institute.

Pvt. Robert O. McLean, son of Mrs. George T. Crook is stationed in Greenland.

Richard Arundel of the United States Navy has been transferred from Chicago to Philadelphia.

Ted Andrews is here on a nine-day furlough from Great Lakes navy school.

### LOCALS

Mr. Charles W. Chylinski, celebrated musician and impresario, was entertained by Mr. and Mrs. Samuel D. Coburn and Mr. and Mrs. Carl Nordway in Farmington this week.

Mr. and Mrs. Leo Bogg and family are leaving Saturday for Lexington, Mich., where they have taken a cottage for the summer.

Mr. and Mrs. A. F. Allen of Howell spent Monday afternoon at the home of Mr. and Mrs. Isaac Bond.

Lieut. Donald McCracken and wife were dinner guests on Saturday of Mr. and Mrs. Frank Steele. Donald, having completed a six weeks course of training at Notre Dame has been spending 10 days at home. He left Monday for Washington where he will receive his commission.

Mrs. Donald McCracken and Mrs. Howard McCracken entertained 30 neighbors at a pleasant gathering on Tuesday evening. The occasion was a surprise birthday party for Mr. Harry McCracken.

Mr. and Mrs. Fred Lenz had as their guests at dinner last Sunday Sergeant and Mrs. Milo Balow and Mr. and Mrs. John D. Watts of Detroit.

over to working and planning for the future of the community, State and Nation.

Walter Gillespie, Senior Vice Commander, is leaving Saturday, July 13, for Los Angeles, California, where he will take up residence. Comrade Gillespie is employed by the Bohn Aluminum Company as Plant Maintenance Superintendent.

### AULT FAMILY HOLDS REUNION OVER WEEK END

A reunion of the Emerson Ault family was held at the family home on Mayfield Avenue, over the week end.

Mr. Ault, who is away much of the time on business, arrived in Detroit early Saturday morning, and was met by his son, Corporal Forrest Ault, who had arrived home the evening before from his tour of duty in Randolph Field, Texas. They just arrived home when Mr. and Mrs. Johnson Porter, the Ault's second oldest daughter, drove in from New London, Ohio. The eldest daughter, Mrs. Edwin Johnson, her husband and children, Edwin and Marion, reside in the family home with Mr. Emerson Ault, son Robert Hunter and daughter Lora Ann.

The reunion was held partly because Robert Hunter has been recalled for service, and will leave about the 20th of this month.

### REPUBLICAN RALLY WILL CELEBRATE CLUB ANNIVERSARY

The Republican Women's Federation of Oakland County will celebrate its seventh birthday Tuesday with a Cooperative Dinner at 6:30 p.m. at Avon Park, Rochester.

Judge Homer Ferguson of Detroit, who helped organize the club in 1933 will speak. State and County officials and candidates will be present. Members of the Federation, families and friends are welcome for dinner and may come in the afternoon for swimming and games.

Mrs. Bert Norton, first President of the club, will introduce the speaker. Mrs. R. H. Smith, Social Chairman, assisted by Mrs. Henry Metz, Mrs. Ivan Wilcox, Mrs. J. Lee Voorheis, Mrs. Howard Putner and Mrs. Robert Moore, all of Pontiac, Mrs. W. L. Murphy, Pontiac, Hostess Chairman, assisted by Mrs. W. H. McCullough, Farmington, Mrs. John K. Jones, Hazel Park, Mrs. Andrew Bone, Fenton, Mrs. Robert H. Wilson, Rochester, Mrs. Elsie Patton, Pontiac, Mrs. Clara Fuller, Oxford, Mrs. Everett Hathaway, Holly, Mrs. Anna Hyde, Pontiac, Mrs. Ella R. Hunt, Ferndale, Mrs. R. B. Fehr, Royal Oak, Mrs. Frank Williams, Berkeley, Mrs. Oscar Durham, Royal Oak Township and Mrs. Henry Axford, Rochester, and Mrs. Elsie Tibbels, Pontiac.

Mrs. Wm. Kennedy, Pontiac, Ways and Means Chairman, Miss Arlene Fink, Farmington, Mrs. Donald Plankel, Royal Oak, Mrs. Catherine Gardner, Miss Yvonne Kennedy, Mrs. Mary Gale, Miss Pat Kelly, Miss Glendon Raynor, Mrs. Cecil McCallum, Mrs. Ed Harrington and Mrs. Ed Sutton, all of Pontiac, Mrs. Vera Hampton Transportation Chair, Mrs. Charles Wilson, Mrs. Donald Noggle, Mrs. Lynn Allen, Mrs. Russell Holland, Mrs. Earl Clark, Mrs. Cecil McCallum, Mrs. Ed Brumfield or Mrs. D. G. Castell all of Pontiac, Mrs. G. C. Reish of Pontiac, publicity chairman.

### What You Buy With WAR BONDS

The Aerial Camera for use on Scout and Observation and Reconnaissance planes is essential to both the Army and Navy air forces in planning battle formations and in obtaining information on enemy fortifications and movements. They look something like a cannon, and cost about \$3,400 apiece.

The aerial cameraman can plot wide territories in bold relief to that Army or Navy intelligence can make accurate measurements of enemy territory. We need many of these cameras so necessary to the air arms of the Army and the Navy. You can help buy them with your purchases of War Bonds. Invest at least ten percent of your income every pay day, and help your country go over its War Bond Quota.

U. S. Treasury Department

### Scientists Study Newly Discovered Arizona Pits

Strewn like giant shell holes across the sun-scorched Arizona plains a score of newly discovered pits 40 miles southeast of Meteor Crater are being studied by an expedition which includes Dr. Harvey Nininger, curator of the Denver Museum and president of the Society for Research on Meteorites, who heads the expedition which hopes to prove the craters were caused by meteorites.

If so, they contain thousands of pounds of nickel, now vitally needed for national defense metal production, the scientists pointed out.

There is a strong possibility, the experts acknowledged, that the pits were caused by the tail of a comet which smashed to earth thousands of years ago or by fragments of an exploding meteorite.

There's a chance also, Dr. Nininger admitted, that the perfect circle craters may prove to be sink holes caused by a large underground river.

The pits, which average 300 feet in diameter and 150 feet in depth, will be studied with a magnetometer, radio sounding device, and also with special acids and other geophysical equipment. The expedition also will carry drilling apparatus.

Fifty hundred thousand pounds of nickel valued at \$300,000,000 are contained in the 10,000,000-ton meteorite located underground just south of Meteor crater, government geologists estimate.

The Barringer family of Philadelphia has spent \$500,000 since 1909 in mining operations at the crater.

### Sun Floating in Thick Cloud, Claim Scientists

Evidence "consistent with the hypothesis" that the sun is floating in a dust and gas layer thick enough to cause light to require 1,500 years to travel through it has been found by three University of Wisconsin astronomers in observations at Mt. Wilson observatory, Los Angeles.

This indicates that, but for the obscuring cloud, the sun's light would be many times more brilliant than at present!

The earth itself, however, is near the center of the all-enveloping absorbing layer, it was said, and thus the light from a star outside of the cloud would be reduced about 15 per cent in reaching the earth.

Also being near the sun—astronomically, at least—the earth would not get the full effect of the obscuration of the sun's light.

Distant stars, too, in many cases would appear many times brighter, but for gas and dust clouds in nearby space, the savants said.

Making the observations were Drs. Joel Stebbins, C. M. Huffer and A. E. Whitt. They used a photoelectric cell attached to telescopes here and at Madison, Wis., they reported in the current issue of the Astrophysical Journal.

About 30 per cent of a star's light is absorbed as it passes through the cloud, they reported.

### Wool-Labeling Law

It is reassuring to learn that the labels which are made mandatory by the new wool-labeling law must state both the kind of wool, the proportion of it, and the proportion of any added material or wool substitute. Here is the way some of these new labels read on clothing articles featuring a popular and fine quality of wool textile used in making coats and dresses:

(1) XXXXXX Woolen—Eighty-five per cent virgin wool; 15 per cent Angora rabbit hair.

(2) Ninety-five per cent virgin wool; 5 per cent pure silk decoration.

(3) Ninety-five per cent virgin wool; 5 per cent Angora rabbit hair.

And so on with other mixtures and proportions.

### What! No Soap

Did you ever dash into a rest-room to tidy up before a meal, to find to your dismay there wasn't any soap with which to remove the grime of your motor trip? Did you? Of course you did! And we can almost hear your disheartened expression, "No soap!"

All of which brings us directly to the good news we have for you of new tissue disks that latterly immediately in any kind of water.

A good supply of disks is contained in a flat case, no larger than a compact, so you can carry them in your handbag. They are the bright idea of a famous chemist and are a grand bon voyage remembrance as well as a "must" for your own handbag.

### Rubbing Hunchback

A curious figure of a hunchback, carved from black basalt by some old cliff-dweller sculptor, was unearthed in a prehistoric refuse burial heap near Mesa Verde, Colo., not long ago.

The "Hunchback of Mesa Verde" is an early example of Indian art. It stands a little less than six inches tall and the rough surface of its hump has been worn smooth from contact with hundreds of human hands.

Whether this resulted from the "rubs" of America's first gamblers, or whether from being carried about as a talisman against the primitive, cliff-dwellers' particular form of the Evil Eye, is, however, not known.

### PAULETTE GAMBEE MARRIED BY CANDLELIGHT

Miss Paulette Gambée, daughter of Mr. and Mrs. W. B. Gambée of Middlebelt Road, became the bride of Robert E. Helgren of Ferndale, at a candlelight, double ring ceremony performed Friday evening, June 25, at 8:30 o'clock in the Ferndale Methodist Church, with Rev. William D. Moulton officiating.

The bride, given in marriage by her father, wore a gown of lace and net, with formal train. Her fingertip veil was held in place with a starched lace headpiece, and she carried a colonial bouquet of bluish roses and baby breath.

Miss Ruthellen Mood of Ferndale was Maid of Honor and she wore blue marquisette and carried a colonial bouquet.

Bridesmaids, wearing pink marquisette and carrying colonial bouquets were Miss Florence Garchow of Farmington, Lois Harper and Elsa Mood of Ferndale.

Richard Kalser of Royal Oak was Mr. Helgren's best man and ushers were Charles Banfield of Detroit, Paul Derbyshire of Ferndale and James D. Mood, Jr., of Detroit.

For her daughter's wedding Mrs. Gambée wore pastel blue, with a white corsage and Mrs. Helgren wore black and white, with a white corsage.

### Zae R. AschenBrenner Taking Culver Training

Zae R. AschenBrenner, son of Dr. and Mrs. Z. R. AschenBrenner, is attending the Culver summer naval school for eight weeks of voluntary summer training. The naval school of 417 midshipmen underwent an inspection by the U.S. Naval Department this week for the first time in the 41 year history of the school to maintain the honor school rating granted by the Naval Department last year.

Wasted money is wasted lives. Don't waste precious lives. Every dollar you can spare should be used to buy War Bonds. Buy your ten percent every pay day.

white corsage.

Soleist at the wedding was Mrs. William Kalser of Royal Oak, sister of the groom, and she was accompanied at the organ by William Jase.

Jeannette Gambée, the bride's little sister, was the flower girl and Jerry Kurzava, son of Mr. and Mrs. Frank Kurzava of Ferndale was the ringbearer.

A reception was held in the church parlors immediately following the ceremony.

Mr. and Mrs. Helgren are making their home in Ann Arbor, Michigan. Mr. Helgren is employed at the Willow Run Bomber Plant.
