Because of its military importance, American troops guard the canal and locks on both sides of the American-Canadian border. This special zone is the only one of its kind in the United States. 13. The first court order restraining a real estate operator from charging rents above the ceiling rewarded OPA's efforts. Retailer For Retailers New York retail stores who were caught with a milk ceiling below their present buying cost got a price boost temporarily while OPA considers what to do about the squeeze. Retail stores in general benefited by an amendment to the universal ceiling which permits them to adjust prices immediately if they have unduly low ceilings because of special sales or other conditions in the base period. Retail chains received help in maintaining uniform prices for their stores. More Household Items Disappear A wide field including lumber, textiles, scrap metals, machine tools,

KEEP THE TELEPHONE HIGHWAYS CLEAR FOR VICTORY!

TELEPHONE lines today are crowded as never before. And Long Distance lines between all Michigan points and war production centers are carrying some of the heaviest traffic in the country.

War calls must go through promptly. In normal times we'd enlarge the telephone system to handle the increased load. We can't today, because the materials required for sufficient telephone expansion are even more urgently needed on the fighting fronts.

What we must do is make the most efficient use of the facilities we now have—with your help. Here are three simple ways in which you can help keep the words of war moving:

- 1. Make only the most essential Long Distance calls. 2. Keep your conversations as brief as you can. 3. When possible, give the number of the distant telephone you are calling.

The same kind of cooperation will improve local service, too. Try to keep your calls short. Look up numbers in the directory, but if necessary to call information for a number, write it down for future use. Everybody can help by saving wires for war!
