Be A Rumor-Stopper

Rumor is responsible for much of the unrest and distrust today, whether it be among individuals or groups of persons, or whether it is concerned with something much larger—Our Nation.

You can do a great deal to promote National unity by being a rumor-stopper. Begin right at home in your own family and community.

Your community can be made gossip-proof, smear-proof, panic-proof and fear-proof by use of a little common sense. One hears so many stories cir-culated, and as each story is repeated it undergoes slight changes along the way, and after a short while the story is so distorted from the original version, that it is difficult to recognize it as the same tale.

Many things are better left unsaid, and those should never be repeated. Rumors of this type only prove an aid to the enemy. War rumors are so many in number and so varied as to source and content, that one finds it difficult to know which is only rumor, or perhaps propaganda, and which is based on fact

When you hear a story, before you relay it to anyone else, stop and think a few moments. Think if it is worth repeating—perhaps it may have real merit and sometime would be the exact story you need to illustrate a point in conversation. If you think it is, and if you have traced the facts and know that you have reliable information and you are doing nothing to lower war-time morale, by all means use your However, don't exaggerate. Here lies much of the trouble arising from rumors we hear on every side of us today.

We must work together, and idle rumor only works to cause friction. This friction between men slows up work more than friction in machines. If employers or workers destroy team-work by their selfishness, and by rumor, then America is in danger, and the gains we are working for, will be swept away.

The defense of the Nation demands that all rise above self-interest. It means each faces up to his own mistakes, and it means that we join forces for the common good.

Then our industries will run at capacity and not until. Our man power will be put to work. Together we all will produce the materials and morale to make America strong.

Every patriot can do his part by shooting that rumor dead on sight! Do your part in this phase of the war against sabotage and propaganda

How Do You Drive?

Sure, there are warning signs along the road—lots of them. "Curve ahead." "Drive Slowly." "Caution, Road Repairs." That's the type of sign we are referring to, but they won't do a bit of good without the cooperation of motorists. There might just as well be no signs at all unless Mr. Driver will note them and drive accordingly.

Two accidents near Farmington the past week demonstrate more clearly what we mean, ithan all the words in the English language. Many accidents could be avoided through courtesy and observance of rules of the highway. Once an accident has happened there is nothing you can do by way of safety and courtesy, to repay in any part the damage you may have caused. If that accident cost a life, it is something you will always remember, and try as you something you will always remember, and try as you may, you will never be able to fill in that vacant spot.

The war is costing many lives every day. That is The war is coming many lives every usy; it had its something neither you nor I can do anything about directly through our individual effort. We can help prevent death on the highway, and perhaps thelp to set an example in safe driving for others. Remember that the next time you take the car out of the garage.

Churches
