## WILSON MERITS RE-ELECTION AS PROSECUTING ATTORNEY

Citizens throughout Oakland County, who know the courageous, relentless efforts of Charles L. Wilson as prosecuting attorney, are urging today his reelection on the Republican ballot, Tuesday, September 15.

"We want to keep in office an official who is doing good jobs for us," they are saying, "because we believe good government is a good investment."

Courts Praise His Work

All justices of the peace and circuit judges in the county will testify to the outstanding job Wilson has done in presenting cases in the courtroom, that he has a full understanding of criminal law and that he protects the innocent as well as vigorously prosecutes the guilty.

Gets Things Done

Your mayor, chief of police, city commissioners, township, city and county officials praise Wilson as a cooperative officer, one who works hand in hand with every agency of government on every matter which comes within his jurisdiction and that he is thoroughly familiar with the procedure to follow to get the job done speedily, efficiently and economically.

F.B.I. Praises Him

Mr. Wilson has won national acclaim as prosecuting attorney for gathering evidence on fifth columnists and alleged saboteurs who imperil the safety of your home and community.

This evidence he has placed in proper federal hands and has thus aided directly in eliminating the menace of saboteurs from your midst.

State Police Acclaim Him

State police officers state that Mr. Wilson has given full cooperation to them in enforcing the law and aided them night and day in investigations which led to arrest and conviction of the guilty.

Wilson Is Humane

Mr. Wilson's display of good judgment and human understanding in the handling of youthful violators and first-offenders is widely recognized by probation departments of the courts. He has helped work out their problems, thus saving many from lives of crime and disgrace.

Any probation officer in Oakland County will attest to these facts.

County Auditors Praise Him

Mr. Wilson has operated his office efficiently and economically. He has operated his office with economy and efficiency. In cases testing the validity of bonds held by private firms, the prosecutor's office has saved the taxpayers over a million dollars. The suits were filed and won in federal courts. In other counties of Michigan, private attorneys were hired and received thousands of dollars in fees for handling similar cases. In Oakland County, the prosecutor's office accepted the responsibility and led the fight at not one dime of additional expense to the taxpayers.

Wilson Is Fair

Business and professional men, labor representatives, lawyers and farmers who have used the facilities of the prosecuting attorney's office say that Mr. Wilson has protected their interests and enforced the law, that he has been eminently fair and unbiased and has given complete cooperation in the handling of their problems.

Whatever their position in life, those who know, declare that Wilson has vigorously prosecuted delinquents and that he has fought as bitterly against prosecution.

## DID YOU EVER . . .

Know a person that was REALLY a human being—that was quick to praise and slow to find fault? What a friend they make.

Anticipate being alone the week-end and the children were going to be away and then miss them dreadfully an hour after they're gone?

Drop everything when your husband says "Let's go"? Puts you behind, but look at the unexpected pleasure you have.

Mix cream cheese and jelly, and make designs with a pastry tube on plain, inexpensive cookies? Makes a nice attractive dessert for luncheons or late suppers.

Look forward with much joy to a coming event—only to have it fall terribly flat? Anticipation is much better than realization—so the old saying goes.

A WEEKLY THOUGHT

We are loved for what we are not what we seem to be.

## FIRST OF SERIES OF PAMPHLETS IS DISTRIBUTED

The Office of War Information today issued the first of a series of pamphlets—"Toward New Horizons—The World Beyond the War"—containing statements and speeches which define or illuminate the developing policy of the United Nations.

Speeches of Vice-President Henry A. Wallace, Under Secretary of State Sumner Welles, Ambassador John G. Winant, and Milo Perkins, Executive Director of the Board of Economic Warfare, are combined in the first pamphlet.

"Selection of these speeches were made," said Elmer Davis, Director of the Office of War Information, "because of the light they throw upon the development of American thinking on the subject of the post-war world from their various points of view.

"In relation to their varied fields of responsibility," Mr. Davis added, "these American leaders chart out the problem and suggest lines of attack upon it.

"They are not, however, speeches which will be of interest only to scholars and historians. Individual citizens as well will find in these speeches clarification of their personal relation to the winning of the war and to the peace which will follow."
