**"I helped cook 'em in my kitchen!"**

"This is more of a woman's war than any war that has ever been fought!"

"From the heroic nurses of Bataan... to the women at home faced with the problem of preparing nutritious wartime meals for their families... we're all playing a vital part in helping to win this war."

"But there's another way we can show our patriotism that many of us have probably never considered... and that is by avoiding wasteful use of Gas... in cooking and especially in house heating and water heating."

"Most people think of Gas only as a household fuel... the truth is, it's also used in making nearly every kind of fighting weapon—that goes to our men... planes, ships, tanks, guns, bombs!"

"Gas makes them faster... and that means lives saved! It's much more economical... and that affects all our pocketbooks. It's easier to control... and that means finer planes, better equipment for our husbands and sons!"

**MEETING WARTIME NEEDS**  
Today the Gas industry is producing more Gas than at any time in history. Yet because of the demands of war production you are urged to use Gas wisely—don't waste it!

**GAS**  
is vital to war production... use it wisely!
