## MEETING NOTICE

The annual meeting of the East Farmington Cemetery Association will be held at the German School, 22230 Middlebelt Road, Tuesday, May 18, 1943, for the election of officers, executive board and other business that may come before the meeting. The meeting will be called to order at 8:30 p.m.  
Mrs. Ida Sturman, Secretary.

## NOTICE

The Commissioners of the City of Farmington will hold a public hearing on the Annual Budget Thursday evening, May 27, 1943, at 8:00 p.m. for the purpose of discussing the budget for the coming fiscal year, 1943 and 1944. The Mayor requests citizens and taxpayers to be present to offer any suggestions in regard to the various items.

H. W. Moore, City Clerk.  
May 13-20

**Shredded Redwood Bark**  
One of the newest ersatz developments is the fabrication of a strong and durable fabric from shredded redwood bark mixed with wool, costing considerably less than the natural material.

Yes and No!  
The easiest word to say is yes. The most difficult, and often the most courageous, word to say is No!

## TRIM SHIP FOR ACTION!

We are engaged in a war to save our American tradition of liberty and opportunity for ourselves and our children. Our leaders have committed us to become the ark of democracy; to furnish aid for our allies; through our kind-ness to help finance the Allied war machine and finally, to raise and equip an army of some 10 million men.

Any one of these jobs is a tremendous undertaking. We are thousands of miles from the theater of war, and this involves tremendous problems of transportation. All of these jobs together will tax every resource of the United States. Already we face rationing and priorities in our materials and acute shortage of manpower, and a burden of taxes which indicates our financial resources are strained to the utmost.

Of a certainty, we must have complete unity if we are to do this job and face the positive future with hope and confidence. American industry, agriculture and finance must use to the maximum the productive power, initiative and intelligence latent in every American.

**No Time or Place for Drones**  
There must be no drones hidden away on public payrolls engaged in peacetime experiments which are useless under the emergency of war. Every branch of our military service is devoted to the sole purpose of fighting and winning this war. Our government, both local, state and national should inspire and lead in the support our civilian population gives to the war effort. Unnecessary civic expenditures, surplus payrolls, and wasteful economic aid social experiments have no place in a war emergency.

The new Congress is tackling this job with a will and a purpose. Those Congressmen and representatives who are useless under the emergency of war are trying to bring some order and efficiency in the prevention of excess profits in war contracts by the Army, Navy and Maritime commission. The present law passed by the old Congress, provides for a "negotiation" of their war contracts by each department.

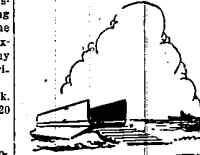

**New Bureaus Not Needed**  
There are over three million of these contracts. Not more than 5 per cent will show any excessive profits after taxes have been paid. The ordinary man on the street would say that the Internal Revenue Department can easily discover any excess profit from any war contract. Couldn't we can use the manpower that would be wasted to much better advantage in other places.

We, the people, want Congress to adopt the most direct, efficient and economical method of doing this job. None of us believes in excess profits on war contracts. There are ceiling prices on most things we produce. Now let's get at the job of cutting down unnecessary civic expenditures and cutting unnecessary payrolls off the payroll.

**Synthetic Chemical Sources**  
Coal, cellulose, hydrocarbon gases, salt and other raw materials have been utilized as the starting points for the preparation of many synthetic chemicals, so that today an enormous chemical industry has been built around these available crude materials.

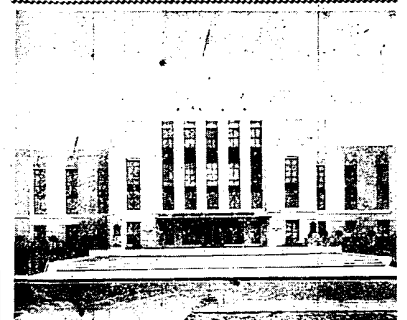

## What You Buy With WAR BONDS

Down in the Solomon and on the African coast the Crocodile Boat or tank lighter played a most important role in landing our invasion armies. These self-propelled, light ... fast boats haul tanks, artillery and other equipment from the big ships off-shore to the beach heads.

We need more and more of them, for they are essential to the successful operation of the war. They are made in several sizes from small fifty-footers, costing about \$2,400 to the big 500-tonners costing around \$77,000. Your purchase of War Bonds every payday will help pay for them. U. S. Treasury Department

## METRO-GOLDWYN-MAYER STUDIO

Administration building of the land-of-make-believe at Culver City, California. The complete story of life behind the walls starts today by Trailer Vagabond.

## Impressive 'Eye Appeal'

**Obtained Through Color**  
"Skillful use of colors will give a woman more 'eye appeal' and will make homes more livable," says the Better Vision Institute. The rules of color are not complicated, and if followed wisely, all your friends will remark about your "good taste."

"One of the most important things to remember is that when black is placed against white, the black looks blacker, and the white whiter than if either were placed against a colored background. Yellow appears brighter against blue than when combined with any other color. Red and green make each other brighter."

"Maximum color contrast is obtained when complementary colors are paired, as for example, purple and green, violet and greenish yellow, or red and greenish blue."

"When two colors which are not complementary are placed beside each other, each takes on a tint that is complementary to the other. It is important to consider color shadows. A yellow object, for example, when placed in a bright light throws a shadow with a bluish tinge. A purple object has a yellowish shadow. These facts are taken advantage of by artists. A yellow flood of sunshine in a painting is rendered more brilliant by painting blue into the shadows, thereby giving them a depth and reality which they otherwise would lack."

"Skillful use of color will lighten one's personality in the eyes of friends, and will make one's home more attractive. Everybody cannot dazzle their friends by being a witty speaker, a talented musician, or a writer of verse. But anyone with a little study can create color harmonies in clothes and surroundings that have impressive 'eye appeal'."

## LOCALS

Mr. and Mrs. William Smith of Detroit were weekend guests of Mr. and Mrs. R. J. Bowerman. Mr. and Mrs. Harold Putman entertained their cousins from Port Huron for the weekend.

Mr. and Mrs. Louis White and daughters spent Sunday with Mrs. White's parents, Mr. and Mrs. Arthur Lamb.

Mr. and Mrs. Harry Moore, Marguerite and Murray Moore were Sunday guests of Mr. and Mrs. Charles Thornton in Trenton.

Mr. and Mrs. Robert Schuklis, (Irma Regentik) announce the birth of a daughter, Melinda Fischer on Wednesday, May 12, at Providence Hospital, Detroit.

## What Is Inflation?

Do you have excess cash? You will answer, "No." But the fact remains that you do. For almost every wage earner these days has an income, in checkbook or pocketbook, well above the cost of his living, taxes, insurance and debt repayments.

You never actually "bid" against anybody for a porch-house steak, but when you take the spending of all average Americans as a group, it's a different story. So it is important that excess money be saved rather than used collectively to bid up prices. If it is spent, instead of saved, prices soar. That's inflation.

Ideally, it should be invested in Government securities during the Second War Loan.

"They give their lives ... You lend your money."
