A great deal of the credit is due to Mr. Snell and the Shop boys who drew the plans and made the furniture.

AS Michigan's war industry hits full ride, more and more long distance calls have to be made-war calls vital to victory. The burden of calls on many long tance lines has reached a critical stage.

Central office equipment, fully manned with operators, is being used to capacity. At times, each unimportant call, regard-less of its destination, affects the speed with which all other calls can be handled. ny calls are delayed-some for hours. And materials to expand the system cannot be had.

Yet, war calls must go through promptly! So it is necessary that we all curtail both our personal and our business use of long distance. Therefore, please 1. Make fewer long distance calls - and

keep them short. 2. Give the operator the number of the telephone you are calling, if possible.

3. If your call can't go through at once, stay near the telephone ready to talk when the operator notifies you.
