"Let Us Show You How Pittsburgh's Exclusive
"Vitalized Oils" Keep the Paint Film "Live,"
Tough and Elastic

WE ARE headquarters for Pittsburgh's famous Live Paints, enriched with "Vitalized Oils"—today's most talked about improvement in paint-making.

We'll gladly show you scientific tests which conclusively prove that the "Vitalized Oils" remain in the paint film after application, keeping it LIVE, tough and elastic. Thanks to this extra elasticity, Pittsburgh Paints are tougher than ordinary paints—they take more punishment—are better equipped to retard cracking, peeling and blistering.

We have a full line of Pittsburgh Live Paints to meet the special requirements of every surface—wood, plaster, brick, stone, concrete, or metal.

Drop in today and let us explain the economy of Live Paint Protection.
