 Sunday School, 10:00 a. m.  
 Pentecostal prayer and praise service, 11:00 a. m.

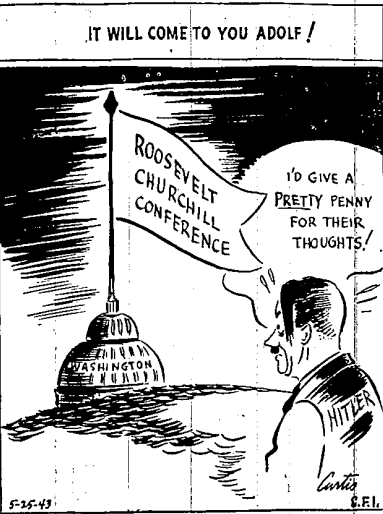

**CHRISTIAN SCIENCE SOCIETY**  
 New High School Auditorium  
 Farmington

"Ancient and Modern Neopaganism, alias Mesmerism and Hypnotism. Denounced will be the subject of the Lecture Series in all Christian Science Churches throughout the world on Sunday, May 30.

The Golden Text (Isaiah 50:7) is: "The Lord God will help me; therefore shall I not be confounded; therefore have I set my face like a flint, and I know that I shall not be ashamed."

Among the Bible citations is this passage (II Tim. 4:18): "And the Lord shall deliver me from every work, and will preserve me unto his heavenly kingdom: to whom be glory for ever and ever, Amen."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (p. 559): "He that touches the hem of Christ's robe and masters his mortal beliefs, animality, and hate, rejoices in the proof of healing—a sweet and certain sense that God is Love."

**Destroy Expired Ration Stamps**  
 Housewives are urged to destroy all expired red or blue ration stamps to help guard against black markets in food. Reports to OPA indicate that many storekeepers have asked their customers for expired stamps, and in turn have used them to buy more food from wholesalers. Because foods bought at wholesale with these stamps can be sold at retail without points every expired stamp given to a storekeeper is a potential contribution to an illegal market.

**New Way To Get Canning Sugar**  
 Sugar for home canning can be obtained by using stamps 15 and 16 in War Ration Book One. Instead of "sugar allowance coupons" as previously announced. Each stamp is worth five pounds. Consumers who require more than ten pounds per person for canning will apply to their local ration board for an additional allowance.

**Applications For Ration Book 3**  
 Applications for War Ration Book No. 3, which will provide stamps to replace those now running out in existing books, are now

(Continued on Page Seven)

**FARMINGTON GOSPEL ASSEMBLY**  
 23608 Warner Avenue  
 Rev. Orville J. Wendell, Pastor  
 Sunday School, 10:00 a. m.  
 Morning Worship, 11:00 a. m.

 Current Christian Science Literature on sale Wednesday evenings  
**ALL ARE WELCOME**

## Looking Back Through The Enterprise Files

IC Regulations

Many queries are being received at the office of the state food administrator on the question of ice prices. Billed down the new regulation simply means: No dealer in ice is permitted to charge a price for ice during 1918 in excess of the cash price charged for ice during the same period in 1917, unless he gets a permit from the United States food administrator for the state, after a proper hearing and the presentation of evidence to prove the necessity of such increase.

**"Doing Her Bit"**  
 Miss Pauline Pickett, one of our High School girls, has fitted and planted four acres of ground. She hired a horse and did her own plowing, and as she is only 15 years of age, we feel that our town should be proud of the young lady, and hope that others may join in the spirit. We are told also that a number of other girls of the village are working in an onion patch west of town, where they are putting in most of their time.

**Deserve Special Mention**  
 The Women's Committee, Counsel of National Defense, are so thankful for the way the people of Farmington responded to the last Red Cross call. We feel proud of a man or woman who will call at our door or at the banks and offer to pay their assessment, which a good many have done.

**TEN YEARS AGO (June 1, 1933)**  
**Leonard Praises American Soldier**  
 "Perhaps the thing that is outstandingly significant about Memorial Day is that, born out of the conflict of the Civil War, it is a purely American holiday," said Archie G. Leonard in his speech at the cemetery Memorial Day. "As one looks back on the men and the times that this day honors, it seems there are two things to be emphasized: the sincerity of the American soldier, and his courage."

**53 Students Given Diplomas**  
 Two impressive ceremonies this week rounded out the high school lives of 53 young men and women, the largest class ever to be graduated from the Farmington Institution. Helen Borchart and Wayne Wiron, salutatorian and valedictorian, were also the youngest members of the class.

**Schulte To Head Exchange Club**  
 John J. Schulte, Jr., and Earl Grosvenor were officially elected to head the Farmington Exchange Club next year as president and vice-president respectively, at its meeting Wednesday.

**FIVE YEARS AGO (May 26, 1938)**  
**Farmington Votes "Yes"**  
 Citizens of the City of Farmington went on record as favoring the sale of hard liquor by the glass within the city limits at the special election held at the polls in the Town Hall Monday.

**Phone Zoning Asked For This Area**  
 A toll zoning system which would save Farmington subscribers an estimated \$3,150 a year, was proposed Wednesday, May 25, by the Michigan Public Utilities Commission at a hearing held in Lansing. Farmington subscribers now pay 20 cents to phone Detroit.

**Camporee Plans Completed**  
 Mayor Howard Warner has been named chairman of the welcoming committee to greet Governor Frank Murphy and other dignitaries who will be present at the mammoth Boy Scout Camporee to be held in Farmington from June 10 to 12. 2,500 scouts, officials and friends are expected to attend.

**What about the commercial truck growers?**  
 "In the Detroit area it is apparent that commercial truck gardeners do not plant an increase of acreage over last year in vegetables because of limited facilities and limited labor supplies. Outside our survey would indicate that growers who produce food for local consumption will not be able to increase their plantings in 1943 to any extent. In several sections there will be less produced in 1943 than in 1942."

**These facts do not make pleasant reading. But war isn't a picnic, and the home front must expect to be second to the armed forces for all needs—clothing and food and everything else.**  
 What can we do about it?  
 Here are recommendations of a group of Michigan food experts—Paul R. Kront, chairman of the OGD victory garden committee; Charles Fleg, state agricultural commissioner; Robert J. Baldwin, MSC extension director; Lawrence O'Neill, state department of agriculture; C. J. Dorum, state and

**Sergeant Tom Smart**  
 A yardbird is a guy who would like to drown his troubles—but he can't get the sergeant to go swimming.

### Memorial Day, 1943

Memorial Day, 1943. Another war-time Memorial Day. You will recall that we had a war-time Memorial Day last year, too. It was a different sort of Memorial Day than we had experienced before. It meant more than a day dedicated to the memory of those who had given their lives during the first World War, for many of Farmington's sons were engaged in another great world struggle.

Memorial Day of 1943 is going to be still different, for this year we not only have more of our sons, daughters, brothers and husbands in the service of our country, but another list has been started—a list containing the names of four young men of this community who have given their lives.

Farmington is going to pause this Memorial Day to pay tribute to these young men, and to pledge anew our determined effort that these young men shall not have given their lives for a cause that will fail. Rather, they have given their lives for a cause which must not fail—and will not if every man, woman and child will place that cause first and foremost in their minds and in their hearts.

Let's make this Memorial Day a day of renewed faith and trust—a day to take inventory of ourselves to see if we are doing everything possible to hasten the coming of peace. Individual effort directed toward a common goal can do much to bring Victory closer. Are you doing your part?

### A New Frontier

Every great war opens a new frontier. Prior to the first world war, the frontiers were geographic. The civil war was followed by the great westward trek of war weary men and women looking for new opportunities and a new life.

With the close of the current conflict, at least a major portion of the new frontier, like that of 25 years ago, will be in the industrial field. But instead of automobiles, it will lie this time in the scientific development of the nation's natural resources. Research men of the coal, metal mining and oil industries, working quietly in laboratories surrounded by military secrecy, have lifted the veil of the future. They have seen a new frontier in all its promise, and enough hints regarding its nature and extent have leaked out to stir the imagination of the man in the street.

The miracles of the sulfa drugs, derivatives of coal, are just one phase of the coming revolution in discovery and research. Rubber synthetics are multiplying almost by the score, along with plastics and other materials, each of which can easily mean the establishment and growth of an entire new industry. The future will see such wonders as 100,000-mile tires, 20,000-mile lubricating oil, 50 to 70-mile-to-the-gallon gasoline, and other equally astounding wonders.

This country has just begun to grow. Individual initiative and the capitalist system are inseparable from the American republic type of government. They have barely begun to flex their muscles. If the way is kept clear, they will make the past seem puny by comparison with the future.

The way for future achievements can be kept clear only by a steadfast resolution that in this country free enterprise must be allowed to flourish. This is as true of the natural resource industries as of the smallest popcorn stand. Our industries hold the future of a new frontier. It will never materialize except by the efforts of free men.
