FEEDS AND GRAINS ARE VITAL

Conserve Them

1. Get rid of rats and mice.
2. Use good equipment that will not waste feed.
3. Keep houses and lots clean and sanitary, thereby helping to avoid disease.
4. Get rid of lice, mites, worms and other parasites.
5. Cull out poor producing birds and animals.
6. Feed only the best balanced feeds.
7. Feed only as much as the birds or animals will consume. Do not waste any feed by careless feeding.

When a Yankee Clipper left its pier,
The sailors said goodbye with beer.

The sturdy tars liked beer a lot,
But you'd have thought it not so hot.

The brewers didn't seem to care
If vats were open to the air.

The flavor changed from day to day,
But no one knew a better way!

Almost a hundred years had passed,
When better beer appeared at last.

For Altes with determination,
Set out to lick the situation.

If we could keep the flavor in,
And keep out air and dust—we'd win!

From first to last we sealed our brew;
That's why it tastes so grand to you!

Ask for Altes when you dine—
With your dinner it is fine!

ALTES

Lager

AGED-IN, SEALED-IN FLAVOR!

Altes is truly Mother Nature's own brew—a result of expert blending only the finest ingredients and protecting them right through the brewing process. The clean, tangy flavor of Altes just can't get out... impurities just can't get in. That's what we mean by Aged-In Sealed-In Flavor. No other beer can offer you so much.

What You Buy With WAR BONDS

Prevents the "Bonds"

Before our fighting pilots take to the air for stratosphere flying they must be "super-up." To do this the pilot just before he takes off pedals a stationary motor driven bicycle to reduce the amount of nitro in his blood. Otherwise gas bubbles would collect in his blood stream.

The stationary bicycle is an inexpensive piece of equipment, but the vast quantities of this and other materials of war make it imperative for all of us to keep our fighting men well supplied by greater and greater purchases of War Bonds.

How 33 years

of research

have made your

lighting

grow and GROW

and GROW!

The 100-watt lamp you use today gives you just about twice as much light for the electricity you use at the same size bulb in 1910! That's a lot of extra light for your money. But that isn't all, because residential electricity today is costing you only about half of what it did back in 1910. That's what scientific research and development have done for your comfort and for the protection of your eyes when you read or sew or work.

THREE WAYS TO MAKE SURE

YOU USE ALL THE EXTRA LIGHT

SCIENCE HAS GIVEN YOU

1. Avoid glare. Glare from bare bulbs or wrongly placed lamps makes it hard to see with comfort, no matter how much light you have.
2. Avoid shadows. When you read or work in your own shadow you are using only a part of the light that is available. It is just as easy to use it all.
3. Dirt and dust collecting on light bulbs and reflectors can cut your light in half. Clean them regularly.

THE DETROIT EDISON COMPANY

Electricity is not rationed. But its production requires coal and railroad transportation. Don't waste it!
