What You Buy With WAR BONDS

Free the Seas

Before we win the final battle with Hitler's Nazis all navy men are agreed we must win the battle of the Atlantic; that is to free the seas lanes of the German U-boats.
A year ago we were building 54 cruisers and nearly 200 destroyers or just about enough for a two ocean navy.

Now we have come to realize that this war is to the finish. Winner take all! and our Government is building a five ocean navy.
That is why we are being asked to increase our subscription to War Bonds. That is why we must do it.

Aluminum Sources
Arkansas (Alabama and Georgia are our chief sources for bauxite, the raw material from which aluminum is made).

First Library
Benjamin Franklin founded the first circulating library at Philadelphia in 1731.

Mountains Visible
The Adirondacks of New York state are visible on a clear day from the peak of Mt. Royal, Montreal.

Honey Guide
The honey guide is an African bird that points out honey to man in the hope of sharing the spoils.

WE'RE NOT OUT-OF-TOWN BUYERS! WE MAKE NO BALLYHOO CLAIMS!

We're old established transportation merchants in this community, with a reputation to uphold. Right now, we're actively buying late-model used cars to help meet the heavy demands of war workers and others who need cars for essential driving.
SEE US IF YOU WANT TO SELL YOUR CAR

We'll Pay You an Excellent Price For It!

Most car owners don't realize how much they can get for their cars under today's market conditions. With no more new cars being built, our former new-car customers now look to us for late-model used cars to meet their needs. Very likely, one of them is waiting now for just the kind of car you have to sell, ready to pay a very good price for it.

DRIVE IN AND GET OUR CASH OFFER FOR YOUR CAR

FOR WARTIME ECONOMIES

"Pittsburgh Paints, Enriched with 'Vitolized Oil'—Keep Them 'Live' and Elastic

WE DON'T ask you to take our word for it—that Pittsburgh's Live Paints will save money for you. Let us show you the scientific tests that prove that Pittsburgh's "Vitolized Oil" remain in the paint film, keeping it young, elastic, LIVE. This means three important economies:

1. Retards cracking, peeling and blistering—hence longer-lasting jobs.
2. Wider spread—"Vitolized Oil" seals the surface, so you can cover a larger area per gallon.
3. Smooth application—paint flows on easily without brush marks to mar appearance and weaken film.

We have a complete line of Pittsburgh Live Paints for every type of surface—wood, plaster, brick, stone, concrete or metal. Come in today and let us quote prices!

HATTON'S FARMINGTON HARDWARE

Dynamite Blasts Path for Big Oil Pipe Line to East

"Big Inch" longest and largest pipe line ever constructed for the purpose of oil transmission, is being hauled on its way from the Midwest to the eastern seaboard by approximately 750,000 pounds of dynamite.

It will cross 13 large rivers, go over mountain ranges, and through valleys. About 1,000 pounds of explosives will be used for every mile where the rock and stone prevent shovels from scooping out the earth.

Blasting ditches in the bottom of rivers is one of the time-saving and expensive techniques developed by expert technicians. With the help of boats, barges, drills, dredges and other paraphernalia, holes are drilled in the right of way across the stream.

Gravel dynamite which works efficiently under water is employed to lead the holes. When every detail of the preliminary work is completed, the shots are connected to leading wires, equipment moved out of danger and the blast fired. The pipe is ready to be lowered as soon as the curtain of water and the debris which has been buried in the air have stopped. Section by section the river is thus crossed in a fraction of the time possibly by any other methods known to man.
