

Moderation Noble
Moderation is the noblest gift of
heaven.

Asia's Population
Asia has half the world's total
population.

FEEDS AND GRAINS ARE VITAL Conserve Them

1. Get rid of rats and mice.
2. Use good equipment that will not waste feed.
3. Keep houses and lots clean and sanitary, thereby helping to avoid disease.
4. Get rid of lice, mites, worms and other parasites.
5. Cull out poor producing birds and animals.
6. Feed only the best balanced feeds.
7. Feed only as much as the birds or animals will consume. Do not waste any feed by careless feeding.

FARMINGTON MILLS
FARMINGTON, MICHIGAN

Michigan Mirror

(Continued from Page Two)

ing of automotive equipment is the largest commercial enterprise in town. There is a gasoline filling station on every other corner. It requires more people, spread throughout America, to sell and service automotive vehicles than are needed to manufacture them in the large centers of industry.

"Again, look at the facts. The trend in population, from rural to urban, in the last generation was largest in the first decade of the century at a time when the automobile was just being developed. It was less in the next decade. That trend was less apparent in the years from 1920 to 1930 despite the great activity in industrial centers. In the last decade, when the number of motor vehicles was greater than ever before and the highway system of the nation most adequate, the trend from country to city had practically disappeared."

Yes, times have changed, and the Michigan small town today has many advantages which formerly were in the exclusive possession of large cities.

City and country know of no general distinction in merchandise. The silver screen reflects the same Hollywood films. The same radio program comes into the homes.

And as every politician knows, control of government in America rests with rural small town and small city America.

Victory

(Continued from Page 2)

response made. It may include the mother or some other person holding the child.

Victory Tax Collections:

The Victory Tax, which to date, has been withheld from wages and salaries above exemptions, at the rate of 5 per cent, will be included in the 20 per cent withholding plan provided for in the current tax payment act on or after July 1. Total Victory Tax collections as of June 5 were \$582,282,223.20.

Sticker For Ration-Free Shoes

(Shoe dealers must put an official OPA sticker on shoes that are to be sold ration-free because of damage by fire, water, steam, or other accidental cause.) The OPA has announced. The purpose of the sticker is to protect the customer against black markets in shoes.

Frozen Foods Priced

Consumer ceiling prices for frozen snap beans, corn, peas, and spinach of the 1943 pack will be about the same as current maximum prices for the 1942 pack, but frozen strawberries, between three and four cents a pound.

Gas And Tires For Farm Machines

To assist grain farmers in harvesting 1943 crops, the War Food Administration has made arrangements with OPA and OPA to assure owners of custom-operated machinery, sufficient gasoline and tires to run their equipment, especially itinerant combine operators who will soon be working in the wheat harvest.

Apply For Fuel New Occupants of oil heated homes

should apply now to their ration boards for next year's fuel oil allowances to assure adequate supplies before winter, declares OPA. About one-third of the coupons in each consumer's ration sheet will be valid on July 1 to enable householders to get deliveries, even months, in advance of cold weather.

Tools For Farmers

Wrenches, pliers, screwdrivers and other mechanics' hand service tools should be more generally available to farmers and home mechanics as a result of an amendment of Order E-6 by WPA. The amended order, which is designed to bring about a better distribution of these tools among consumers, sets aside from 20 to 25 per cent of the monthly production of specified tools for commercial distributors.

Canned Goods For Civilians

Applesauce, blueberries, figs, beets, carrots, pumpkin and squash will be available to civilians in cans as a result of a curtailment in Government requirements. Under a previous order, canners were permitted to pack these foods in cans only for Government needs.

Stabilizing Price Of Vegetables

A program has been started that will maintain fair and equitable returns for the canning industry, at the same time preventing increases in consumer prices of green peas, snap beans, sweet corn, canned tomatoes and other primary tomato products. It includes: (1) No increases in the ceiling prices of canners; (2) The Commodity Credit Corporation will absorb part of the processing cost, caused by increased effort to bring prayer to bear upon the crucial tests of the times.

War Expenditures Up 1 Per Cent

War expenditures by the U.S. during May amounted to \$7 billion, 373 million, a one per cent increase over April. The daily rate of war expenditures averaged \$243,000,000 in May compared with \$239,400,000 in April.

Increase In Farm Machinery

A new farm machinery and equipment order (WPA-L-257) sets up quotas based on the actual needs of farmers for machinery and equipment as determined by the War Food Administration. The order, which becomes effective July 1, permits uncompleted quotas under L-170 to be produced in addition to quotas hereby established.

Training For Farm Work

More than half of the men and women taking the rural war production courses offered by the War Manpower Commission are interested principally in the operation of farm machinery, food processing, and egg production. These three courses account for \$2.4 per cent of the total number of persons in training. The courses run anywhere from two to ten weeks, two to three hours per week.

Traveling Machine Shops

U. S. warplanes get expert care from mobile units of technicians. Traveling machine shops are always near the front.

ANNUAL MEETING OF THE FIRST CHURCH OF CHRIST, SCIENTIST, BOSTON, MASS., JUNE 7

BOSTON, Mass., June 7.—The Christian Science Board of Directors today placed "prayer" at the top of the list of defensive and offensive weapons that free-thinking peoples are counting upon to win the global war against oppression and suppression.

In a statement to the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, the Directors first emphasized the word "prayer," then followed with the term "miracle of deliverance," which is to be accepted, they said, as the logical answer to righteous prayer.

Thus, deliverance from the hand of the oppressor was seen by the Directors to be no miracle at all, but rather a simple Christian principle, the fact that power springs from the prayer of understanding.

"A praying people can never suffer defeat," summarized the Directors' remarks to several thousand Christian Scientists assembled in The Mother Church.

Because of the gasoline and transportation shortages, the attendance was more localized than it has been for many years. But the reports heard from the broad field of Christian Science activities indicated that demands for spiritual enlightenment were as universal as ever, only growing more and more pronounced under the stress of world conditions.

From the armed services and along the home front, the reports revealed unusual demands for church literature, hinging upon an increasing effort to bring prayer to bear upon the crucial tests of the times.

"Battles are not won," the Directors said, "through trust alone, but through intelligent, scientific preparation and skillful execution. As we reach out to God through understanding prayer, the human footsteps to bring our deliverance from this cruel warfare and all evil will be revealed."

Yes, the demands of the hour are crucial," the statement said, "they are imperative; they call upon us as Christian Scientists to be instant in prayer—not just prayer of affirmation and expectancy, but prayer that demands, through spiritual understanding, that the might of right prevail now."

"This is the method of prayer used by the master Christian. Our Leader, Mary Baker Eddy, tells us in 'Unity of God' (p.11) in speaking of the healing by Jesus, of the withered hand. He demanded a change of consciousness and evidence, and effected this change through the higher laws of God. The hand was restored whole."

"Christian Science teaches," the statement continued, "that this is an hour of miracles. In the Christian Science textbook, 'Science and Health with Key to the Scriptures' (p.591), the following definition of miracle is given: 'That which is divinely natural, but must be learned humanly.' So it is divinely natural to expect and witness the answer to righteous prayer. The miracle does not come through wishful thinking, however, but through the preparation of the heart, through steadfast, radical reliance on God."

The Directors also announced the election of Mrs. S. S. McKenzie, of Cambridge, Massachusetts, as President of The Mother Church for the ensuing year, succeeding Mrs. Elizabeth F. Norwood, of Brookline, Massachusetts.

The new President first became interested in Christian Science in 1887 during the very early days of the movement. Hence, Mrs. McKenzie became instrumental in the pioneering of this religion in the city of Cleveland. She served ultimately as leader in First Church of Christ, Scientist, Cleveland, and as a member of its board of directors. In 1898 both Mr. and Mrs. McKenzie were called by Mrs. Eddy, the Discoverer and Founder of Christian Science, to become members of her first class taught in November of that year.

Unity of purpose and action which is the common goal of all nations in this war, said the incoming President, has been attained in the Christian Science movement under Mrs. Eddy, who the new President described as a master in the art of spiritual strategy. "She leads us, not through self-assertion, but by spiritual altruism and example. On this point we have her own words: 'The little that I have accomplished has all been done through love—self-forgetful, patient, unflinching tenderness' (Miscellany, p.247)."

In this decisive and final conflict, the speaker stated, determining the immediate future of the world, "how exceedingly blessed it is to be loyal to this great army of those who are working, both defensively and offensively, for civilization and Christian ideals. The outward organization of the Christian Science movement, sacred and important as it is, is but the outward and visible sign of the unseen Army comprising all the great and good of the earth, both past and present."

The retiring President pointed out that it is not people who are waging the present world conflict, but "forces of evil working through people to destroy the very foundation of true Christianity." This form of human domination, she said, would attempt to force upon mankind a godless system in which "there is no Christianity, no love. She concluded with an exhortation to those on the battle front to realize their protection in the presence of God and His truth, and for those on the home front to keep their minds filled with the spirit of godliness "which giveth to all men the right of individual salvation."

A. Warren Norton, Manager of The Christian Science Publishing Society, reported an increase in the circulation of all Christian Science publications, including The Christian Science Monitor. The exigencies of war have been met in part, he said, by the reduction in size of some of the periodicals. The circulation of the Christian Science Sentinel, reduced to pocket-size, was reported at the highest in its history.

Emphasis was placed by Mr. Norton upon the public recognition of merit won by the Monitor during the past year for outstanding editorial and news content, and typographical make-up. He referred to the award of Columbia University's Maria Moors Cabot Award for outstanding contribution in the field of Inter-American Relations, the Monitor being the first newspaper in the United States to earn this recognition. The Monitor also won the F. W. and Ayer competition among daily newspapers for excellence in typography, make-up and press work. On May 25 this paper also obtained a medal of distinction for service in journalism from the School of Journalism of the University of Missouri.

State, provincial and national legislative bodies, were shown to have dealt fairly with Christian Science activities in the statement of Arthur W. Eckman, Manager of Committees on Publication. He alluded to the sympathy of the standing of public officials in dealing with gasoline, tire and automobile rationing. The State of Delaware, he noted, adopted a bill legalizing the practice of Christian Science. He warned against an increasing tendency, however, in legislative halls to impose blanket regulations involving compulsory sickness, disability and hospital insurance which would bring about indirect compulsion upon Christian Scientists to accept medical treatment. There are now fourteen chaplains of our denomination serving in the Armed Forces of the United States, he said; thirteen in the Army and one in the Navy.

NEW MOTOR LAW IN EFFECT SOON

Can you meet the requirements of the Motor Vehicle Financial Responsibility Law?

IGNORANCE OF THE LAW NO EXCUSE
—GET THE FACTS!

THE MICHIGAN LEGISLATURE has passed a new law affecting the use of automobiles. This law goes into effect July 30th, and it has real teeth in it.

You will lose your driving or car-owning privilege, under this law, the first time you have an automobile accident involving any bodily injury or death:

UNLESS, you can satisfy the Secretary of State that the liability resulting from such accident is insured, or

IF NOT so insured, unless you can furnish an affidavit certifying that all personal injury or death claims resulting from such accident have been settled or unless you can give security for payment of such claims.

The Law Also Applies

IF YOU fail to pay, within 30 days, any final judgment for bodily injury or death, or for property damage of more than \$50.00 or

IF YOU are convicted of violation of certain provisions of the Motor Vehicle law.

Ignorance of the Law No Excuse

Can you prove your financial responsibility?

The minimum amount of financial responsibility required is: \$5000 for injury to, or death of, one person in one accident; \$10,000 for injury to, or death of, two or more persons in one accident, and \$1000 for damage to the property of others.

The best, safest, and most economical way for you to prove that you are financially responsible is to carry the right kind of Automobile insurance in an insurance company licensed to do business in Michigan.

Why Insure in The Travelers?

1. The Travelers has more business in Automobile Liability and Property Damage Insurance than any other company.
2. More than 500 Travelers representatives who will help you in case of an automobile accident are located in Michigan. There are hundreds more in bordering states.

Act Now to Protect Yourself

See a Travelers agent as soon as possible. Find out which type of Automobile insurance will help you keep your driving and car-owning privilege. With this new law, and in view of the present low rates because of gasoline rationing, you can't afford to be without Automobile insurance.
