The happiest day of my life will be when they put four wheels on bicycles— Or maybe I'd better learn to ride a tricycle instead. When we proclaimed our freedom here, Our forebears toasted it in beer. But their beer was a different brew From that which now is served to you. In open vats they always aged it; By guess, by gosh was how they aged it. No batch was ever twice the same— They took their beer just as it came! That satisfied the infant nation, But not a later generation. So Altes set out to be sure The beer we made was clean and pure. We sealed our process in so neatly, That air and dust were barred completely. That's why your Altes looks so clear, And tastes the same from year to year! Try a glassful—what a pleasure— You'll say Altes is a treasure!

ALTES Lager ...AGED-IN, SEALED-IN FLAVOR! Altes' exclusive Aged-In, Sealed-In brewing process guarantees you the real, natural flavor of beer. For all the pure ingredients used in Altes are sealed in from beginning to end—no impurities get in—nothing good gets out. That's why we say... No other beer can offer you so much.
