 Baptist Youth Fellowship, 7:00 p. m.  
 "Everybody's Gospel Service," 8:00 p. m.

**CHRISTIAN SCIENCE SOCIETY**  
 New High School Auditorium Farmington

"Sacrament" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, July 11.  
 The Golden Text (I Cor. 10:17) is: "We being many, are one bread, and one body; for we are all partakers of that one bread."  
 Among the Bible citations in this passage (Psalms 51:1, 2): "Have mercy upon me, O God, according to thy lovingkindness, according unto the multitude of thy tender mercies blot out my iniquities. Wash me thoroughly from mine iniquity, and cleanse me from my sin."  
 Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (p. 241): "The baptism of Spirit, washing the body of all the impurities of the flesh, signifies that the pure in heart see God and are approaching spiritual life and its demonstration."

**Wasting Space**  
 Are you wasting space in your kitchen by having the shelves far apart? Or either take them out and rest them on the wall, or add one in between shelves as they are now. You will find that a narrow shelf for cans of spices and seasonings built in just underneath the cupboard above the work table will be a great convenience. Make it just the width of the cans. One layer of space for cans the best so far as quick use is concerned, and does not interfere with the working space. Extra table space can be provided in the kitchen by having a hinged shelf on one wall, or drop leaf attached to the kitchen table.

**ALWAYS BRAGGING**

... AND I TOLD HIROHITO WE COULD PROTECT WHAT WE HAVE AND WIN.

TOJO

**Michigan Mirror**

Non-Partisan News Letter

**VICTORY**

Stoves To Be Rationed  
 All new heating and cooking stoves designed to burn dual wood, oil or gas for domestic use (with certain exceptions) will be rationed in mid-August, the OPA has announced. The plan was originally scheduled to go into effect in late June, if you have not cooking stove now and need one, you may apply to your nearest War Production Board Office. If your present cooking stove is worn beyond repair and you wish to replace it before the amended ration order becomes effective, go to your local dealer for information.

**Program To Get Teachers:**  
 A growing shortage of teachers in rural schools has caused the women's advisory committee of the War Relocation Commission to advance a \$300,000 program for women's groups seeking to avert a critical situation in school systems and lowering of educational standards. The program follows:  
 (1) Campaign against retrogressive hiring rules; (2) Influencing (Continued on Page Seven)

**SALEM EVANGELICAL**  
 Rev. Carl Schultz, Pastor  
 Morning worship service, 10:00 a. m. Sunday School, 11:15 a. m.

 Current, Christian Science Literature, on sale Wednesday evenings  
**ALL ARE WELCOME**

## Looking Back Through The Enterprise Files

**TWENTY FIVE YEARS AGO (July 12, 1918)**  
 The June Draft  
 Out of the 1852 young men who became 21 in Oakland County since June 5, 1917, and who registered on June 5, 1918, for military service, Farmington Township furnished fourteen as follows: James Morley, Samuel C. Davis, William H. Goers, Claude H. Lee, Charles F. Rein, Louis C. Nabal, Walter T. Schweitzer, Homer J. Eisenlord, Harry Pagel, Frederick M. Crumb, Ralph Pickering, Chester F. Pickett, Frank B. Lewis and Reynold Each.

**A Quiet Fourth**  
 Last Thursday, July 4th, was observed by many of our citizens at the lakes in Detroit, Northville and Mt. Clemens, while some of the more conservative spent the day at their homes in a quiet way. At Northville there was a big crowd and seemingly everybody enjoyed themselves to the utmost. The day was almost entirely devoid of the usually noisy powder demonstration. In the sports during the morning a number of Farmington boys won prizes.

**Valuation Increased**  
 The valuation of Farmington Village, as placed upon the tax rolls by Assessor John H. Thayer for 1918, is \$302,663, an increase of \$43,478 over 1917. The low valuation of 1915 was caused by the taking away of the personal tax on automobiles and the enactment of the mortgage tax law.

**TEN YEARS AGO (July 13, 1933)**  
 City To Present New Work Plan  
 Important developments in the campaign to put persons on the welfare back to work have occurred during the past week in the Farmington area. In Farmington city, Mayor Howard Warner and the members of the commission have planned in more detail the construction program presented at the last meeting of the commission. The city will probably spend a larger amount than that suggested at the meeting, but the total will not be more than \$100,000.

**Doyle Nominated To Head Legion**  
 Lee E. Doyle will be commander of Groves-Walker Post of the American Legion, for the coming year. Mr. Doyle was nominated without opposition at the meeting of the post held on Thursday, July 6.

**Harmony Marks School Meetings**  
 School meetings held in the various districts of the Farmington area on Monday night were marked by lack of dissent among the persons attending. In some districts where heated arguments had been held at the meetings in other years, the gatherings were conducted as ordinary business meetings and action taken was in most cases unanimous.

**FIVE YEARS AGO (July 7, 1938)**  
 European War Is Imminent

War in Europe is imminent, according to word received by a Farmington resident in a letter written from London by a correspondent who is covering developments in the campaign for a national magazine. "You can take my word for it," this friend writes, "that Europe is still a tinder box ready to go up in flames any night. It really happened three weeks ago and was only averted because Hitler declared there might have been too much united opposition."

**Drivers Continue To Disregard Signs**  
 Motorists continue to disregard the many signs posted along the Farmington-Cutler drive and where only restabound cars are permitted to use the road. Costs of \$5.00 were paid before Judge John J. Schulte recently for violation of this law by two Detroit drivers.

**275 Apply For Job Benefit Cards**  
 Members working in the local branch office of the Michigan Job Insurance Commission established in the Farmington Town Hall are impressed by the orderly process in which applicants for registration appointments filed since July 1. Since Friday approximately 275 applicants have received appointment cards at the Farmington office.

emphatically opposed to any roll-back in farm prices, so much unfavorable publicity from Washington. Absence of guaranty of stabilized profitable returns to agriculture when labor and industry are taken care of is interfering with crop production. Office of Price Administration rationing is resented.

Donders concluded: "If the people roll this country, when wage scales and national income are the highest in the history of the Nation, are unable to pay for butter, coffee, meat and for food at decent prices to the producer, when will they be able to pay for it?"

Rep. Earl C. Michener, Adrian  
 "The great mass of farmers do nothing to create or support a black market. All the farmers want is a fair price in the market place. ... While most labor in war industry is today receiving unheard of compensation and is

Rep. Jesse P. Woolcott, Port Huron  
 "In order to crystallize the issue as to whether the American people today might be in a better position to pay their food bill than ever before in the history of this country, I want to read one sentence from the last report of the Bureau of Agricultural Economics of the United States Department of Agriculture in which he summarizing their finds, it is said: "The total cost to consumers of fixed quantities of food making up a typical consumer's food basket" (Continued on Page Seven)

### We're at War, You Know!

I wonder—do most people realize we are at war—a total war? Because no bombs have fallen on our cities, can't we understand that we're in this fight as much as the people of Britain or Russia or China where they've heard the whine of dive bombing and known the fear of impending invasion?

Is it going to take a telegraphed message to your neighbor or mine—or perhaps to our very own front door—a message about Johnnie, somewhere in Africa? Johnnie, whom you've watched grow up and go off to do his bit in this great war. Johnnie had to pay the greatest price a man can pay for our freedom—while men in Washington were still playing politics and men in strategic war industries were refusing to work until they were given more pay! Johnnie—and thousands like him are gone, and more are going every day while women hunt up "black markets" and boast of their purchases to their friends and men figure out ways to get more than their allotment of gasoline!

Soon the casualty lists will grow longer. Many more of those grim telegrams are going to be delivered. More shoulders are going to sag. Then, perhaps, we'll begin to understand and get to work in earnest. Then perhaps any man or woman with a job related to the war will be ashamed to strike and will refuse to take a day off now and then just for fun. Then perhaps we'll refuse to buy at black markets or cheat just a little on our gasoline allowance.

Meanwhile the war is at a critical stage. It needs our work, our self denial, our undivided attention. Why wait until our hearts are breaking to give our war industry and our armed forces the loyalty they need now?

### Lives---The Price of Strikes

Many people have not realized the full threat to the war effort that attaches to labor trouble in the coal mines. In 1943 it is estimated that upward of 100,000,000 tons of coal will be chemically utilized. Coal derivatives are used in explosives, plastics, the priceless sulfa drugs, solvents, food preservatives, insecticides, fertilizers, lacquers, rubber, nylon and hundreds of other vital war materials.

Total demands for coal have grown to astronomical proportions. Prior to work stoppages in the mines, the industry was endeavoring to meet all demands placed upon it. It was succeeding. Now it remains to be seen whether there will be a coal shortage. No power on earth will be able to bring back the lives of the service men who may be lost because of any shortage.

As it is with the coal industry, so it is with other manufacturers who have suffered serious production losses through strikes. The materials and implements of war which these manufacturers furnish to our men at the fighting front are as necessary to an army as the men themselves. A victory cannot be achieved without them.

Men's lives are the price of strikes in wartime.

**Get Machine Gun Cost**  
 The 50 caliber aircraft machine gun, which used to cost \$1,000, is now produced for \$400.

**Produce 10,000 Products**  
 The two-billion-dollar paper industry normally produces over 10,000 kinds of paper and paper products.

## TO ALL EMPLOYERS

### Regarding the new 10% Withholding Tax

Under the new law all employers who withhold a total of \$100.00 or more monthly are required to deposit the total amount withheld with an authorized depository on or before the 10th day of the following month.

The depository will issue a receipt to the employer and the receipt will be remitted as cash by the employer to the Collector of Internal Revenue when the quarterly reports are made and filed.

This bank will be a depository for such funds and all employers may deposit their withheld tax funds here and receive an official receipt for same.

Deposits to the tax accounts should be made either in cash or by check payable to The Farmington State Bank.

Our officers will be glad to give you whatever information you may desire. You may call in person or telephone us.
