**"We know about switchboards in the Signal Corps!"**

"I'm a Signal Corps soldier. In our outfit we fight with field telephones, wire and switchboards, as well as with machine guns. So I know what happens on a long distance switchboard when too many folks want to make calls at the same time. There's an overload — and calls are delayed."

You must be the judge as to whether your call is sufficiently important to justify its being placed on the war

burdened long distance system. Even if you ordinarily make only two or three long distance calls a month, you will be helping if you cut down on the number.

To help speed the handling of the most essential calls, you are asked to do these things —

Please make only the most necessary calls.

If you must call by long distance, be as brief as possible.

**LEXON H. HUBBARD, Attorney.**  
835 Bailey Street, Pontiac, Michigan  
IN THE CIRCUIT COURT FOR THE COUNTY OF OAKLAND  
IN CHANCERY  
Manley Leach and Sons Leach, Plaintiffs.  
David Paddock, Mary Paddock, Judson Paddock, Philip Paddock, William Paddock, William H. Paddock, Mervette Paddock, William H. Stroud, Leslie W. Paddock, Corinne Paddock, Simon Stowell, Elizabeth Dunston or Denison, Bishop Mack, Stephen Hedges, Comperence Mack, John Thomas, Charles Baldwin, Mary E. Thomas, and Samantha M. Baldwin, Defendants.  
At a session of said Court held at the Court House in the City of Pontiac, in said County, on the 30th day of May, A.D. 1943.  
Present, Honorable H. Russell Holland, Circuit Judge.  
On reading and filing the Bill of Complaint in said cause and the affidavit of Manley Leach and Sons Leach, attached thereto, from which it satisfactorily appears to the Court that the Defendants above named, by their unknown heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause, and  
It is further appearing that after diligent search and inquiry it cannot be ascertained, and it is not known whether or where any of them may reside if living, and if dead, whether they have personal representatives or heirs living or if they or some of them may reside, and the names of the persons who are included therein without being named, but who are embraced therein under the title of unknown heirs, devisees, legatees and assigns, cannot be ascertained after diligent search and inquiry.  
On motion of Lexon H. Hubbard, Attorney for the Plaintiffs, it is ORDERED that said defendants and their unknown heirs, devisees, legatees, and assigns, and cause their appearance to be entered in this cause within three months from the date of this Order and in default thereof, that said Bill of Complaint be taken as confessed by said Defendants and their unknown heirs, devisees, legatees, and assigns.  
It is further ORDERED that within twenty days Plaintiffs cause a copy of this order to be published in the Farmington Enterprise, a newspaper printed, published, and circulated in said County, such publication to be continued therein once in each week for six weeks in succession.  
H. Russell Holland, Circuit Judge  
By Esther C. McCabe, Deputy.  
June 3-July 15

U. S. Cow Army Biggest in History

Fertilized Pastures Means a Richer Milk Flow.

CHICAGO — Uncle Sam's milk cow army is 5,000,000 stronger than it was in World War No. 1, according to a statement made public here by the Middle West Soil Improvement Committee.  
This year alone, 26,000,000 milk cows on the nation's farm pastures will produce 123 billion pounds of milk for our fighting forces, our allies and our civilian population," says the statement. "In 1917 there were 21,000,000 milk cows in the United States whose production was approximately 79 billion pounds.  
"As a result of better breeding and feeding programs in recent years in which legume crops such as clover and alfalfa have been the foundation.  
"Keeping these pastures at a high productive rate to meet the dairy animal's art-time needs will require good farming methods. This means following a soil conservation program that builds up fertility and provides plant foods that will assure a good stand of legumes and grasses. In such a program, the use of a fertilizer containing necessary phosphorus and potash plays an important part.  
"Agroclimatic data colleges and experiment stations are prepared to cooperate in providing information covering the use of fertilizers on pasture crops.  
"Much of the improved nutritional benefit has resulted from pasture building programs in recent years in which legume crops such as clover and alfalfa have been the foundation.
