Rev. Carl Schultz, Pastor
Morning worship service, 10:00 a.m.
Sunday School, 11:15 a.m.

CHRISTIAN SCIENCE SOCIETY
New High School Auditorium
Farmington
"Truth" will be the subject of the Lesson-Sermon in the Christian Science Churches throughout the world on Sunday, July 2.
The Golden Text (1 John 5:6) is: "It is the Spirit that beareth witness, because the Spirit is truth."
Among the Bible citations in this passage (Psalms 16: 6, 9): "By mercy and truth iniquity is purged: and by the fear of the Lord men depart from evil. A man's heart deviseth his way: but the Lord directeth his steps."
Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 254): "When we wait patiently on God and seek Truth righteousness. He directs our path."

CHURCH OF CHRIST
33200 Seven Mile Road
Sunday School, 10:00 a.m.
Preaching, 11 a.m.
Sunday Evening, 7:45 p.m.

SEVENTH DAY ADVENTIST
Grand River and Oxford
Clarenceville
Meetings every Saturday.
ALL WELCOME
9:30 a.m. to 12:00 noon

IMPOSSIBLE!

VICTORY

Marvin Jones, Crop Report War Food Administrator Marvin Jones said recently that, on the average, farmers are meeting this year's production goals for field crops. Earlier reports indicated that livestock and livestock products also will reach production goals. Mr. Jones said: "We will have enough food in this country—given at least average weather for the rest of the year—to give civilians adequate and healthful diets, in addition to meeting military and other essential wartime requirements. This does not mean, of course, that there is any better chance than usual for getting the food that civilians would like to buy, or that civilian supplies for some individual items will not be far below the demand."

"For some important crops—including rice, oats, flaxseed, and potatoes, estimated 1943 acreage is well above the year goals. "Acreage of corn, soy, barley, grain sorghums, cotton, and tobacco is about at the goals. Acreage of sweet potatoes, dry field beans, peanuts and sugar beets is below 1943 goals."

Soldiers at home or abroad are reminded that less than three weeks remain in which they can get National Service Life Insurance without a physical examination. Until August 10, 1943, such application will be accepted regardless of the individual's medical condition (Continued on Page Seven)

CLARENCEVILLE UNITED CHURCH
Meets at the Macabee Hall at Grand River, N. of Eight Mile Road.
Rev. W. L. Prisk, Pastor
Mrs. Norma Ridgell, Sunday School Superintendent
Sunday School, 10:00 a.m.

Current Christian Science Literature on sale Wednesday evenings
ALL ARE WELCOME

Looking Back Through The Enterprise Files

TWENTY FIVE YEARS AGO (July 26, 1918)

Should Not Be Embarrassed
If, upon request, a rural mail carrier refuses to do a personal favor for you, don't get him down as a crank. In all probability he is carrying out his orders from the postal department in Washington, and more likely than not, in doing so, is acting contrary to his personal desires. Whenever a carrier refuses to give you a ride or carry an unstamped package, or anything else, it does not prove that he is ungracious. The chances are he is more embarrassed than you can imagine, but he's doing his duty.

There's Work To Be Done
On several of our streets the sidewalks are lined on each side with weeds, making a very unsightly appearance. Whenever a weed patch is in sight, our sympathy goes out, not only to the neighboring lot owners, but to the unfortunate owner of the patch. Never strike a peace compact with the enemy of every garden, field, street or lawn. Let's get at it and cut the weeds about town.

Returns From Visit
Frank Parsons has returned from his visit with Dr. L. C. Thayer and wife at Napanee, Indiana. W. C. Way stayed at the Parsons home during his absence. Mr. Parsons says crops down there, except wheat, are poor. At the mill in Napanee wheat is coming in by the thousands of loads each day.

TEN YEARS AGO (July 27, 1933)

Construction Program Adopted By City
The city commission Thursday night approved a \$12,748 construction program for Farmington city. Mayor Howard Warner was authorized to engage the services of an engineer for the purpose of making an estimate of cost on the various projects included in the program. When this estimate is completed, the city will present the program for Federal approval.

Property Value Is Set
A report of the equalization committee of the County Board of Supervisors during the past week set the valuation of property in Farmington city at \$1,447,156. This represents a reduction of \$164,471 from the assessed valuation.

Charles Damon Taken By Death
Charles H. Damon, a resident of Farmington township for the past ten years, died suddenly Monday night after a heart attack. Mr. Damon had been in poor health for several years. Funeral services were held Thursday at the residence with Rev. Floyd Johnson officiating.

FIVE YEARS AGO (July 21, 1938)

Engineers Working On Bank Change
Engineers are working on plans for the installation of bullet proof glass and new cages in the Farmington State Bank, and hope to have erection completed in September. The new equipment is the last word in safety, according to the engineers who were taking measurements and figuring out the best possible lay-out.

Library To Open July 30
Township and City patrons will have their first opportunity to visit the newly renovated Public Library in the Town Hall, corner of Grand River and Farmington Roads, Saturday, July 30. Passage way to the library has been improved by workmen and the interior of the building has been almost completely remodeled.

School Addition Is Not Approved
West Farmington will not build a two-room addition to their present school, it was decided by electors of School District No. 4, fractional, at the special election held at the school Monday. Electors indicated by their vote that they were in favor of issuing bonds, but they opposed the idea of increasing the tax limitation above 15 mills.

three weeks be paid as much, or more than the skilled craftsmen who built the die which makes it possible for the workman to turn out his work."
The Michigan congressman might have added that these high wages are being paid, not by the big bad manufacturers who dwell in mansions of gold, but by a lot of little people all over the United States and the future generations and generations yet unborn. War contracts are financed by crisp currency of the United States government which belongs to all of us.

To complete the Alice-In-Wonderland contrasts, the Muskegon congressman pays \$55.80 a week in pay and per diem to girls while they learn how to mend shoes. The same government pays \$50 a month to the young men in the service who are wearing these shoes.

Yes, big pay with little training—that is the 1943-style prosperity which is helping to inflate the cost of living.
Why is it necessary to pay a tank welder, after four weeks of training \$67 a week . . . or "girls in still another plant after two or three weeks of training . . .

As much as \$259.72 a month" when the base pay of a lieutenant colonel is \$3,500 and a colonel gets \$4,000 a year?
"What will the best of Michigan soldiers, sailors and marines (not to say anything about our Wacs, Waves and Spars) say when THEY come back and start paying high income taxes on our dizzy national debt? Will the ex-war workers condemn the boys from Sicily and Tunisia and Guadalcanal and Attu for lack of "patriotism" if the American Legion and Veterans of Foreign Wars suggest another bonus to "equalize" the \$50-per-month war compensation?

We don't know the answers, of course, but we can make two and two add up to four.
The arithmetic of high wages in today's war industries points to the following post-war developments, as we see it:

1. A reaction against both management and labor if the evidence bears out reports of excessive net profits—the sums left over after Uncle Sam has collected his taxes. Remember, both management and labor were in the national do-ho-ho after the last war because

MONEY TRANSFERS BY WIRE

The best way to transmit funds easily and quickly is by wire. Often a man in the service requests funds to come home on a furlough and needs the money at once.

If such a need arises, come in and see us. We can wire any amount, anywhere, at any time. The cost is small and the service is fast.

THE FARMINGTON STATE BANK
Farmington, Michigan

Member Federal Deposit Insurance Corporation

We don't know how it is with the rest of you people, but we find it much easier to meet the problems from day to day, as they arise, feeling that some perfectly wonderful news is coming any day, and before too long those we love will be safely at home with us again. If we believe, on the other hand, that this war is going to drag on indefinitely, precious little stimulant is given to push ahead and give each day the best that we have to offer.

It is so much easier to make our present supply do until the war is over and industry again swings to peacetime production, to plan our menus with an eye to giving proper nourishment to the family without using a large quantity of rationed products and to meet the many little problems presented by living on a wartime basis, if we have an optimistic attitude.

And don't you think our boys out there on the fighting fronts can accomplish a good deal more, thinking that we are taking an optimistic attitude rather than looking on the dark side of every situation? We are sure they can.

We'll take optimism, if you don't mind. And we're willing to bet there are a heck of a lot of others who will, too.

Clean Soot
Interior walls, especially in kitchens and in rooms with fireplaces, are likely to acquire a greasy or sooty film which should be thoroughly removed by cleaning before the walls are repainted. If this is not done, the new paint can not be expected to adhere properly, and if light tints are used, the soot may result in blotches in the new paint job.

Add Salt to Coffee
The French are said to add a pinch of salt to their coffee. Such a pinch should be added just before the coffee is served, and does add the last favor touch to coffee-making in the taste of many people.

Patching Spots in Floors
Unless the patching is very carefully done, a more uniform and satisfactory effect in restoring the finish on small portions of the floor is obtained by refinishing entire floor boards, instead of just spots. All old wood should be thoroughly removed with turpentine, mineral spirits or other effective solvents and two coats of the original finish applied to the wood, with sanding between coats.

Use Cattle Hair
The navy is using cattle hair for bunk mattresses. In the past much cattle hair came from Brazil and Argentina.
