ITALIAN GRATITUDE

NAPLES, ITALY—Soundphoto—Grateful is this Italian woman as she kisses the hand of an American Infantry officer, a member of the Fifth Army, shortly after the American troops occupied Naples.

Farmington Township

Mrs. H. A. McIntyre

Mrs. Lemuel Irving is convalescing from her recent operation at the home of her mother, Mrs. Joseph Graham on Nine Mile Road.

Mr. and Mrs. Frank Hough of Orchard Lake Road announce the birth of a daughter, Marilyn Elizabeth, on September 27th.

Mr. Joseph Woodard of Gill Road left Thursday for Hillsdale where she will visit her brother and attend the Hillsdale Fair.

Mr. and Mrs. L. E. Duell of Orchard Lake Road have returned home from a visit with their son, Cadet Donald E. Duell at Houston, Texas.

Mr. and Mrs. John Bryson of Windsor, Canada spent their Thanksgiving holidays with Mr. and Mrs. Jack Adams on Twelve Mile Road.

Mr. and Mrs. Walter Nichols of Birmingham and Joseph Woodard were callers of Mr. and Mrs. Lemuel Irving and Mrs. Joseph Graham on Sunday.

Mrs. Thomas Kelly and daughter, Mrs. LaMontagne, and Mrs. Sonnenberg, visited their daughter and sister, Mrs. Epps, in Mt. Carmel Hospital where she is slowly recovering from an appendectomy.

Mr. and Mrs. Peter Kenny of Orchard Lake Road brought their little son, James Joseph, home Sunday from Providence Hospital in Detroit.

Mr. and Mrs. Stanley Glidden returned to Charleston, S.C. last week after visiting the former's parents, Mr. and Mrs. Elmer Paschke on Power Road.

Howard Lord of Gill Road is convalescing from an appendectomy in Mt. Carmel Hospital.

John Graham and son, Norman, of North Farmington, James Eastman and Anna Thayer called on Mrs. Lemuel Irving Monday afternoon.

Mr. and Mrs. W. J. Banfield and sons, Mickey and Danny, were the Sunday evening callers of their parents, the Hugs McIntyres, on Farmington Road.

Announcement is made of the birth of a boy, Richard Charles, to Mrs. Richard Heiker, on Tuesday, October 12, at Mt. Carmel Hospital, Detroit.

Mrs. George Heiker spent Saturday afternoon with her daughter in Ann Arbor.

Heifers Need Feed
Heifers under six months of age cannot make satisfactory growth on pasture. They may be turned out to pasture for a short period in either the early morning or late afternoon, but they should also be fed in the barn.

Obituary

George Gaylord

George Gaylord, well known in this community, passed away Saturday afternoon at his home, 21121 Waldron Avenue, Clarenceville, following an illness of only one day.

Mr. Gaylord, who was a building contractor, came here 25 years ago. For the past ten years he had been engaged as a radio repairman. He was born April 7, 1880, in Oswego, Illinois, the son of Charles and Hattie Gaylord. In 1893 he was married to Grace Floyd, who survives him. Also surviving is a son, Clayton.

Funeral services were held on Tuesday afternoon at 2:30 p.m. from the Thayer Funeral Home, with Rev. Power, Detroit Seventh Day Adventist Church officiating. Mrs. Ray Meade and Mrs. Fred Otto sang "Never Grow Old" and Edward Hulbert sang "Abide With Me." Burial took place in the Clarenceville Cemetery.

Mr. and Mrs. Robert Hunt of Pontiac were Monday dinner guests of Mr. and Mrs. L. E. Schroeder.

LEGAL NOTICES

SCHULTE and HARRIS, Attorneys 2306 Farmington, Michigan
STATE OF MICHIGAN
THE CIRCUIT COURT FOR THE COUNTY OF OAKLAND
DOES hereby certify that the undersigned, GEORGE B. HARRIS and EMMA ROBBINS, his wife, Plaintiff
IVAN E. TIBBALS, DELIA CONNOR, EDITH TIBBALS, IVAN TIBBALS, HAZEL MERCHANT, daughter of Ivan E. TIBBALS, FRANK MERCHANT, husband of Hazel MERCHANT, ROBERT CONNOR and GRACE CONNOR, his wife, and daughter respectively of Delia Connor, I. M. TIBBALS, and DELIA TIBBALS, his wife, RUTH HILFINGER, daughter of J. Milton TIBBALS, and HARVEY HILFINGER, husband of Ruth Hilfinger, JOSEPH PRENTISS and Nathaniel C. PRENTISS, and their unknown heirs, minor heirs, born and unborn, devisees, legatees and assigns, cannot be ascertained after diligent search and inquiry.
At a session of said court held at the Court House in the City of Windsor on the 10th day of October, A.D. 1933.
Present: Hon. George B. Harris, Circuit Judge.
On reading and filing the bill of complaint in said case, and the affidavit of John J. Schulte, Jr., attached thereto, from which it satisfactorily appears that the court has jurisdiction of the parties, and that the defendants above named, or their unknown heirs, minor heirs, born and unborn, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause, and:
It is further ordered that after diligent search and inquiry it cannot be ascertained, and it is not known whether or not said defendants are living or dead, or where any of them may reside, living, and, if dead, whether they have personal representatives or heirs living or where they or some of them may reside, and further that the present whereabouts of said defendants are not known, and that the names of the persons who included therein are not known, but who are embraced therein under the title of unknown heirs, minor heirs, born and unborn, devisees, legatees and assigns, cannot be ascertained after diligent search and inquiry.
On motion of "Schulte & Harris", attorneys for plaintiffs, it is ordered that said defendants and their unknown heirs, minor heirs, born and unborn, devisees, legatees and assigns, be taken as confessed by the said defendants, their unknown heirs, minor heirs, born and unborn, devisees, legatees and assigns.
It is further ordered that within twenty days plaintiffs cause a copy of this order to be published in the Farmington Sentinel, a newspaper printed, published and circulated in said county, such publication to be continued therein once in each week for six weeks in succession.
George B. Harris, Circuit Judge

U. S. Helping So. America

Build Own Fish Industry

Even the fish are doing their bit to promote the Good Neighbor policy. Finny denizens of the Great Lakes and Potomac are winging their way southward to provide other American residents with an important new industry.

For several years, according to the newspaper, the United States Bureau of Fisheries, the Division of Aquaculture and Fisheries of the Pan American Union and the Venezuelan government have been working jointly to stock Andean mountain streams and lakes with trout, bass, perch and other edible fish. The fish have taken so readily to their new environment that countries like Chile, Colombia and Venezuela can look forward to commercial fishing as an important new industry and a permanent source of food.

Experiments began in 1923, when the Bureau of Fisheries analyzed samples of water taken from Lake Valencia in northern Venezuela and recommended stocking it with carp and catfish. Six hundred tons of both species were taken from the Potomac and other streams, but none survived the trip to Venezuela. The following year 600 black bass, carp, catfish, perch, crappies and sunfish were shipped to the South American republic by train, truck and truck. Enough reached their destination to warrant successful experimentation.

Fish were bred in large quantities built into the lake, and protected them from the voracious bubba and guabina. Fry were collected, marked and released in batches of 100,000. The results kept on their development. Results were so favorable that the three agencies concerned began to experiment with brook and lake trout. For several years the U. S. Fisheries sent a few batches of several hundred thousand trout eggs to Venezuela each year. To these were added about 200,000 eggs a year, harvested in the South American republic.

Proteins Are Needed to Build Microbe Resistance

Recently we have learned the chemical composition of antibodies, the materials necessary for the acquisition of increased resistance to microbe agents. The antibodies are now known to be globulins, formed by the body's cells and transferred to the blood and lymph as anti-body globulins.

Although a complete analysis of globulin has not as yet been made, we know that it contains at least 14 of the 20 "amino acids" including six or more of the essential ones. The essential amino acids are so-called because the body cannot form them itself but must get them pre-formed in food.

This means that antibody-globulin cannot be synthesized unless the individual has available in his diet a large assortment of amino acids, including the essential ones. This necessitates a reasonably immovorous diet.

The amino acids of the food must come from proteins, and protein severely constitutes a serious menace to every starving person, but particularly to the growing young.

Develops Electrolysis

The electrolytic method now used to produce aluminum was discovered in 1888 by an American, Charles Martin Hall, then 22 years old. By an odd coincidence a young Frenchman of the same age, Paul Louis Toussaint Heroult, working independently in France, was making the same discovery. Their process, which involves the solution of aluminum oxide in melted cryolite, was destined to revolutionize the entire industry, because the metal could be produced at a fraction of the cost of previous methods. It was sold for \$8 a pound in 1888, within five years was less than \$1 a pound, and today is quoted at 15 cents a pound.

Iodine Deficiency Fatal

When litters of pigs are born dead or when some pigs in a litter are hairless or show immature hoof development, the possibility of iodine deficiency should not be overlooked. Iodine-deficient areas are known to exist in the Great Lakes region, especially in such neighboring states as Wisconsin and Michigan. On Illinois farms where pigs have suffered from an iodine deficient-like disease, the losses occurred in the winter and spring months.

Iodine deficiency in newly born pigs may be prevented largely by feeding small amounts of potassium iodide to sows in the feed or drinking water during the last two months of pregnancy.

Maintain Mattress

You spend one-third of your life in bed, so it is logical that the choice and care of a mattress should be important in the housekeeping plan. You can guarantee long life for your mattresses by observing a few simple rules. First, avoid fore-and-aft mattresses should be turned frequently to help keep their shape and resiliency. Many mattresses have loops on the sides to ease this operation. Brush weekly with a white soap so that work settles. A "rust proof" mattress cover made of heavy muslin will protect it from dust and wear. You can make these covers with an envelope type closing so they can easily be washed.

CLARENCEVILLE

Mrs. Mary Rutlla

The sympathy of the community is extended to Mrs. Louis Wack and to Mrs. Homer Berry of Cambridge, upon the death of their fathers. Our sympathy to the family of Mr. Gaylord of Waldron who passed away Saturday evening and was buried on Tuesday. Mr. Gaylord was another of the residents of our community.

The Edgewood Mothers Club held their October meeting at the home of Mrs. Boltho with Mrs. Kelly, Mrs. Lorenz and Mrs. Thienkey acting as assistant hostesses.

The Parent-Teacher reception held on Friday night at the High School was attended by a majority of our teachers, but parents weren't very well represented. It is too bad more were not out for the program was one of the best yet given. Mrs. Evans of the Seven Mile Group, as chairman of the evening, introduced Mr. Schlotterbeck who led a "community sing," consisting of six or more numbers. Miss Kearley, the new music teacher for the grades, accompanied at the piano, and then played a piano solo. Mr. Schlotterbeck, with Mrs. Schlotterbeck as accompanist, led the girls' chorus in two numbers, and he also sang a solo. Jacqueline LeBlanc played two numbers on her mandolin.

Mr. Deiser introduced the teachers. Lunch consisting of cup cakes and coffee, was served those present, with Mrs. Grose and Mrs. Balfour of the Parents' Club presiding at the table.

Mr. and Mrs. H. L. Barnes and Harvey attended the football game at Ann Arbor on Saturday.

Mrs. Marks of Pearl returned on Tuesday from Madison, Wisconsin, where she visited her son, George, in camp there.

Mrs. Halford, Mrs. Diddams, Mrs. Toth and Mrs. Sinclair attended the Girl Scout Workshop in Detroit on Monday evening.

Fred Menke, Sr., has given up his connection with Central School after a period of several years. His going will be felt by all those who knew him, especially the children who considered him tops. No job was too great for Mr. Menke, and he would gladly do anything with a smile.

The sympathy of the community is extended to Mrs. Carrouthers of Eight Mile Road, on account of the death of her sister in Detroit. The Ernie Monettes of Inkster are moving into their new home in the Five Point district.

Arnold Rutlla of Long Avenue has been appointed First Aid Chairman of the Livonia Branch.

of the American Red Cross.

Seventeen Scouts were present at the Scout Rally held at Riverdale Park in Plymouth on Sunday. Although the boys were only prepared to take part in the string burning contest, in which Carl Bailey and Jimmie Anderson placed third, and Tug-of-War, they got a good idea of what is expected of them another year, to bring their troop into the spotlight. They made a fine appearance on the drill field. Mr. Swarthout was well enough to attend, which the boys appreciated very much. Mr. Campbell and his son, Robert, assistant scoutmaster, were present, as well as Mr. Boltho and Mr. Rutlla. The rally closed with an impressive salute and Oath of Allegiance, and benediction. This is another instance where parents may do a mighty fine thing for their boys, by attending.

The Mothers Club Council held their monthly meeting at Central School on Tuesday. Details for the forthcoming annual bazaar, to be held at the High School Friday evening, November 12, were worked out. It was decided to use chickens for prizes at Bingo and to have the luncheon open as usual. Each Club will have a booth of miscellaneous articles for sale. Keep the date open for November 12, and come to the bazaar.

Mr. and Mrs. Manley Kelly called on Detroit friends Monday evening.

The Robertsons entertained relatives from Sarnia, Ontario, on Sunday.

The Parents Club met at the home of Mrs. Grose on Purlingbrook on Thursday. Children's snow suits were passed out, to be made for the Red Cross. The group is sponsoring a new project. The following ladies are giving a week at Children's Hospital near Farmington: Mrs. Kudla, Mrs. Goodfellow, Mrs. Jorgenson, Mrs. Thornton, Mrs. Bolster, Mrs. Grose, Mrs. Carrouthers, Mrs. Sinclair, Mrs. Diddams and Mrs. Balfour. Help is so scarce at the hospital that some whole sections of the building have been closed and patients returned to their homes. Anyone wishing to volunteer for this work may call Mrs. Sinclair at Farmington 424-R.

Mrs. Nelson of Oxford visited Helen Nelsons on Tuesday evening.

Mrs. Eddie Christensen of St. Francis entertained about 50 guests on Friday evening at a shower for her daughter, Mrs. Donald Beyer, the former Shirley Christensen.

Mr. and Mrs. Harry Moore and family spent last Sunday in Tren-
