ten days without food and under worse conditions than anything I ever saw in France, going into battle with a smile and never a grumble, you would think twice before you at home complain about gas-

line and beef roasts and other petty sacrifices."
Don't worry about us, Mr. Lodge. Michigan can take it, the bad with the good. Any sacrifice we make here, little as it is, will be repaid a million-fold if war is kept from our shores and our land and if our boys come back home.

YOU CAN GET YOUR PASSENGER AND TRUCK TIRES

Recapped

Regardless of Size. No rationing order necessary on Passenger Tires.

1943 Modern Recapping Equipment.

of the food rationing programs, OPA said.
Warns Of Harmful Anti-Freeze. Operators of all kinds of motor vehicles have been warned by ODT against the use of harmful salt or oil preparations as radiator anti-freeze. Salt anti-freeze solutions may cause corrosion or shorting of electrical circuits.
Draft Delinquents To Be Inducted. Beginning November 1, all men 18 to 35 years of age who are sub-

ject to selective service but, who are delinquent will be put into class 1-A immediately and ordered to report for induction, the Selective Service Bureau of the War Manpower Commission has stated.
Use Book Four November 1. Housewives will start using green stamps "A," "B" and "C" from new War Ration Book Four Monday, November 1. These stamps will be valid through December 20 and will be used for buying processed foods in the same way as the blue stamps in Book Two. The last blue stamps in Book Two ("X," "Y") remain good

through November 20. Book Four is being distributed the latter part of October—the exact time and place being announced locally. One individual may apply for Book Four for all members of his family residing at the same address. The applicant must have a War Ration Book Three with him for each person for whom he wishes to obtain a Book Four.

Restrict Deliveries

Restrictions on all wholesale and retail deliveries ordered by the Office of Defense Transportation have gone into effect throughout the nation. The restrictions include—(1) No retail delivery of packages weighing five pounds or less or measuring 60 inches or less in length and girth combined; (2) Limitations upon the frequency of retail and wholesale deliveries of certain commodities; (3) No Sunday retail deliveries except of ice, milk or cream. Common carriers may not be used to make retail or wholesale deliveries to circumvent the order.

Civilian Rice Supply Normal. Rice will be available this year to consumers in average quantities of the past several years, but may not be adequate to meet the large demand resulting from increased buying power, the War Food Administration said recently. Under controlled distribution however, states whose populations normally eat the most rice will get

the most proportionately.

Ration Tokens in February

Ration tokens are expected to be ready for use by February. They will be red and blue and each will have a value of one point. They will be used by consumers as change for processed foods and meat-fat ration stamps. The blue tokens will be used with blue ration stamps for buying processed foods; the red tokens with the red stamps for buying foods rationed under the meat-fat program. The ration coins, made of layers of vulcanized fiber, will be slightly larger than a nickel and smaller than a quarter.

Alfalfa Hay Products Regulation

Prices of all alfalfa hay products are now set by Revised Maximum Price Regulation No. 455. Under the revised regulation, these products will cost somewhat more; in Texas, Arkansas, Oklahoma, Tennessee, Mississippi, Utah and portions of Idaho and Oregon.

Higher Ceilings On Corn Products

Ceiling prices on wet corn milling by-products sold as animal and poultry feeds—but chiefly as protein supplements for dairy cattle—were set recently by OPA at levels around \$7 a ton above those set by the price "freeze" as of March, 1942.

Announce Vegetable Price Ceilings

Ceiling prices that will prevail for 13 fresh vegetables at country shipping points have been announced by OPA and WFA. The vegetables are lima beans, snap beans, carrots, cabbage, cauliflower, celery, cucumbers, eggplant, lettuce, green peas, peppers, spinach, and tomatoes. Maximum prices for lettuce, asparagus, watermelons, cantaloupes and the 1944 crop of onions are to be announced soon. Prices were announced to assist vegetable growers in completing their production plans.

May Up Frozen Fish Prices. Winter prices on many species of frozen fish have been set at the processor level by OPA. This action may mean an increase of about 10 to 15 per cent in retail frozen fish prices, but it is expected to result in greater supplies of this product.

Herring Catch Increases

Preliminary figures show an increase of 139 per cent in this year's catch of Alaska herring over the catch of 1942—one of the most impressive increases registered this year by any major American fishery—the Coordinator of Fisheries said recently. Most of the Alaska herring catch is reduced into fish meal and oil. The meal goes into poultry and other animal feeds, of which it is an important part.

Army Cuts Butter Allowance

The peacetime daily butter allowance of two ounces per soldier has been reduced to approximately 1.12 ounces per man, the War Department has reported. This includes butter used as a spread and in cooking.

Here's What You Can Do to Conserve NATURAL GAS

U. S. GOVERNMENT MAKES SPECIFIC REQUESTS

Uncle Sam is urgently appealing to every American to save as much Gas as possible, beginning RIGHT NOW. The Government has launched a Seven Industry Voluntary Conservation Program which encourages electricity, coal, petroleum, water, transportation and communications in addition to Gas.

With the other gas utilities throughout the United States, Consumers are joining wholeheartedly in this Conservation Program. Our gas resources have proved sufficient for all essential industrial, commercial and residential needs. But natural gas is a national asset, a motor fuel in war production, and should never be used wastefully.

We urge every customer to co-operate fully in the Government's Conservation Program. Says J. A. Krug, director of the Office of War Production: "With everyone contributing, the effect will be tremendous in hastening the day of Victory."

War Production Board's Voluntary PROGRAM FOR NATURAL GAS CONSERVATION

Residential Year-Round Conservation

1. Cook whole meals in oven. Cook one-dish meals on top burners.
2. Do not light top burners until cooking utensils are in place.
3. Do not use running hot water for washing dishes or hands. Repair leaky faucets. Heat and use no more water than is necessary.
4. Never leave refrigerator door open. Cool cooked foods before placing in refrigerator.

Residential Heating Season Conservation

1. Prepare home for winter season through insulation, weather stripping and storm windows.
2. Close off all unused rooms.
3. Eliminate garage heating.
4. Never use the cooking range for heating.
5. Reduce home temperature to 65 degrees.
6. Reduce temperature to 55 degrees at night and when homes are not occupied.
7. In cases where there is no thermostat control, use heaters at such times as actually needed in the rooms heated.

Commercial and Industrial

1. Make efficient use of gas-fired equipment for cooking and water heating. Eliminate waste of hot water.
2. Company representatives will, upon request of commercial customers, make inspections of their gas-fired equipment to assist them with respect to proper and efficient operation.
3. Company representatives will, upon request of industrial customers, make surveys of their plants for the purpose of eliminating all waste in the use of gas.
4. Commercial and industrial customers reduce temperature to the standards recommended for residential customers.
5. The use of gas in make-shift heating appliances by workers in industrial plants should be discouraged by the managers of such plants.

"Conservation of fuel, manpower, equipment and materials is a must for the United States if we are to achieve the maximum war production every American wants."

HAROLD L. KRES
JOSEPH E. EASTMAN
DONALD M. NELSON

It is our patriotic duty to cooperate fully with this program. Inquiries regarding it will be answered promptly at our office.

CONSUMERS POWER COMPANY

Many people go blissfully along their way of life unaware that tragedy is stalking them. They are slowly losing the power of their eyesight . . . Little things happen which they can't understand . . . all because of their eyes. If you are having any sort of trouble, maybe it's because of your eyes. Why not find out?
